SANDS' SARSAPARILLA,

For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or Habit of the System.

[illegible] read the history of Dropsies we are astonished [illegible] that they die. And yet in fact nearly all diseases have a common origin, viz: in the organs which prepare and modify the blood, with a remedy, directly to the seat of disease, will prove a boon of the [illegible]. It is the peculiar characteristic of Sands' Sarsaparilla, that its searching operation reaches the cause of disease, and the cures it performs are therefore radical and thorough. The health of the human system depends almost entirely upon the state of the blood. If the vitalizing fluid, which pervades every tissue, every membrane, fibre, filament, gland, or other organ primary or subsidiary, if the body be charged with the elements of disease, sickness must be the consequence, and until the cause of disease existing in the blood, are eradicated, no permanent relief can be expected. It is here that the powerful but mild operation of Sands' Sarsaparilla are manifested; and for this reason, in scrofula, Salt Rheum, and all cutaneous diseases, as well as in disorganizations of the secreting organs, it is considered infallible.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Messrs. Sands: Gents: I consider it not an act of justice to you to state the following facts in relation to the great benefit I have received in the cure of an obstinate cancerous ulcer on my breast.

I was attended eighteen months by a regular and skilful physician, assisted by the surgeon, I doubted not one of the most able and respectable surgeons within this city, and following such remarkable cures of the most difficult cases of cancers to which the human frame is subject, therefore I took Sands' Sarsaparilla, and has no other [illegible]
