R. BLANCHARD—Dentist to Their Majesties the King and Queen of France, the Princes and Princesses, Surgeon-Dentist to the faculty of Medicine of Paris, and of New Orleans.

Fixes natural teeth, without the least pain, in imitation perfectly natural, from one tooth to a complete set;

Directs the second teething of children, and corrects any deviation in their teeth.

He has had long experience, minute and constant practice, in France and America, in the dentist art, and all that relates to its operations, preserving at once the mouth and the teeth.

He prepares a cement, which repairs ravages effected by decay, of the same color of teeth, and which is the most precious substance that has yet been employed—none other can, at this time, plumb the teeth so hermetically as this.

The operation is made without any pain, and is achieved in a few minutes.

Recently invented for the Teeth.

Or Osteite without mercury—the most malleable and most perfect ormatily employed.

A New Fusible (cold plating) to plumb the teeth;

Lubo-Caustic, instantly causing pain in the tooth to cease;

Elixir to reform the gums, consolidating the looseness;

Teeth-water for healing the mouth and preserving the teeth;

Tints of Cognac rectified, to give a tone to spongious gums;

CONTINUES to relieve the most violent TOOTHACHE in a few moments, and at the same time entirely destroy the nerve in less than 24 hours, rendering it without pain. The public should be aware, however, that this remedy is not offered as a Universal Panacea, it being only expressly when the pain proceeds from an exposure of the internal membrane or nerve.

For the truth of the above statement, the subscriber are referred to the following highly respectable gentlemen, most of whom can speak from their own experience:
