WASHINGTON ACADEMY, OAK GROVE, Westmoreland County, Virginia.—The undersigned who during eight years has presided over some of the most distinguished literary institutions of the Southern States having been appointed Principal of the above Academy, will open the same on the 15th instant for the reception of students. This Academy is located in a very retired and healthy country, in the midst of a highly intelligent and moral community, and near the birth place of Gen Washington, whose honored name it bears. In the quietude of this consecrated spot there is nothing to divert the student from application and study, and the contemplation of the finest model of human excellence and greatness. The situation is remote from the seductive fascination of cities, there being no tavern or grocery within two and a half miles of the institution. The hallowed associations of this memorable spot are alone sufficient to stimulate youth to the highest mental exertion, and to inspire the most honorable and virtuous emotion. One half the time of those students pursuing English studies will be devoted to arithmetic, the other half among the neglected of all branches of education. The Academy being a large and spacious building, the undersigned can receive twenty or thirty boarders into his own family.

Terms, payable in advance at the beginning of each session of five months, Latin, Greek, and French languages and mathematics, including all the higher branches of education, $20 per session of five months.

English branches, $15 per session of five months.

Board, including washing, each scholar $... lodging in own bed and towels, $40 per session.

AGENCY FOR THE AMERICAN SOLID-HEADED PINS

THE subscribers are agents for the above pins. These pins are far superior to ordinary imported pins; the points are fine as the points of needles, and the heads are solid—that is, of one piece with the shank—they will not slip or come off; the wire of which they are made is also very stiff and elastic. They received the highest premium gold medal—at the fair of the American Institute of the city of New York, in October, 1842. Dealers can be supplied with the above pins at the manufacturer's prices.
