MARINE NEWS.

OFFICE OF THE DEL. } Friday Evening, January 7, 1859 }

Our general market has not been very active during the past week, although in the leading articles a fair amount of business has been done. Cotton has improved under the influence of favorable advices from Europe, and despite our holidays have continued to gain ground in the prices. Western pork is still inactive, and prices for mess articles are hardly maintained, though for Corn we notice an advance. Freights are without material alteration, but generally still firmer. The Exchange market continues heavy.

The America's advices, embracing Liverpool dates to the 15th, were published by us on Tuesday morning, reporting an advance of ⅛d. in Cotton, with sales of 47,000 bales during the week. The North America's accounts, four days later, appeared in our columns yesterday morning. They reported the Liverpool Cotton market depressed by advices from the United States, the sales of the three days reaching only 23,000 bales, including 3,000 for export and speculation, some authorities quoting a decline of 1-16d. ⅛d.

COTTON.—Arrived since the 31st instant, 66,141 bales. Cleared in the same time for Liverpool 9,417 bales, Barcelona 1,042, Boston 5,997, New York 462, and Philadelphia 38; bales; together, 17,354 bales, making an addition to the stock of 48,787 bales, and leaving on hand, including all on shipboard not cleared this day, a total of 439,842 bales.

ANTI-GOUTY ELIXIR OF HIPPOLYTE BRIEUGNE, INVENTOR OF THE ANTI-RHEUMATISM Tropical Balm.

TRUEL now all medical science has had no power over the gout, this terrible disease which has ever made so many victims all over the earth, and still years daily so many thousands from their occupations to give them up to the most painful sufferings. It is useless to recount the numerous symptoms of this disease too well known to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. Hippolyte Brieugne, already known by the discovery of the anti-rheumatismal TROPICAL BALM, that has had down to this day so great a success. The ANTI-GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power so long great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous patients.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is in no way disagreeable. It can be taken pure or mixed with two or three spoonfuls of best eau-de-vie. Its effects are felt after a few hours, whatever may be the intensness of the fit. In twelve hours at most the sufferings disappear, and all its symptoms vanish away.
