ARE YOU IN AGONY?

A well spring of hope for all can be found in HOLLOWAY'S PILLS.

Be of good cheer! The Sinking may be saved! By the use of HOLLOWAY'S OINTMENT.

The history of these great Remedies is the most wonderful medical revelation that the world has ever known. It establishes the all-important fact that WHEREVER, and in WHATEVER SHAPE, internal disease exists, the disinfecting, searching and healing properties of the Pills are fully equal to its subjection and cure, and that, with the Ointment, they are

The Great Ambassadors of Health to all Mankind.

This is not a history written by one man or even derived from the experience of one nation. It consists of a compilation of testimonials from the sick of every country—an unimpeachable record, the like of which has never been adduced in favor of any discovery or invention since time began.

These Mighty Healers, World-known and World-tried, are a Boon to the Sick.

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all-powerful medicine was ushered into the world. HOLLOWAY'S INVALUABLE PILLS have become the HOUSEHOLD REMEDY of all nations. They attribute is to PREVENT as well as to CURE; they attack the RADIX or ROOT of the complaint, and thus, by removing the hidden cause of disease, reinvigorate and restore the drooping energies of the system, assisting nature in her task of VITAL and FUNCTIONARY REFORMATION.

Disorders of the Stomach

Are the sources of the deadliest maladies. Their effect is to vitiate all the fluids of the body, and to send a poisonous stream through all the channels of circulation. Now, what is the operation of the Pills? They cleanse the bowels, regulate the liver, bring the relaxed or irritated stomach into a natural condition, and, acting through the secretive organs upon THE BLOOD ITSELF, change the state of the system from sickness to health, by establishing a simultaneous and wholesome effect upon all its parts and functions.

Woman in all her Difficulties

Is invited to test the regulating and renovative powers of this harmless but effective preparation. At the two epochs of life in which the female system undergoes the most important and critical changes, the Pills will prove a positive safeguard against evil consequences. They are also confidently recommended as a specific in every disorder to which females are exclusively subject.

Be it Understood,

That the above statements can at all times be verified by written testimony (extending through a quarter of a century) of tens of thousands of unimpeachable witnesses.

Billious Maladies, &c., &c.

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless, and irresistible curative. Billious remittents, bilious purging, and all the ordinary disorders of the organ, indicated by pain in the right side and between the shoulders, yellowness of the whites of the eyes, weakness and debility, etc., are relieved and removed by the remedy, with a celerity which astonishes the sufferers and their friends. Let the sick, whom the faculty have abandoned, resort with confidence to this powerful anti-bilious agent, and a restoration to health and activity will be the unvarying result.

Dyspepsia, Diarrhea, Weakness, &c.

The terrible bodily and mental pangs which characterize dyspepsia are at once mitigated by the Pills. Diarrhea, constipation, headache, physical prostration, nervous tremors, bad dreams, spasms, affections of the kidneys, heartburn or piles, and, in fact, all internal complaints, from whatever cause arising, give way before the salutary influence of this extraordinary remedy. As a specific for dyspepsia and the disorders connected with it, or growing out of it, the Pills are always to be relied on when every other medicine and mode of treatment has utterly failed.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma,	Headaches,
Bowel Complaints,	Influenza,
Coughs,	Indigestion,
Colds,	Inflammation,
Costiveness,	Inward Weakness,
Chest Diseases,	Lowness of Spirits,
Dyspepsia,	Liver Complaints,
Diarrhea,	Piles,
Dropsy,	Stone and Gravel,
Debility,	Secondary Symptoms,
Fever and Ague,	Venereal Affections,
Female Complaints,	Worms of All Kinds.

CAUTION!—None are genuine unless the words "Holloway, New York and London," are discernible as a Water-mark in every leaf of the book of directions around each box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable druggists and Dealers in Medicine throughout the United States and the civilized world. Holloway's PILLS and OINTMENT are now retailed, owing to the great price of drugs, &c., at 30 cents, 75 cents, and $1 10 per box or pot.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Druggists and Merchants, and all Dealers in any of the articles contained in the above, will find it to their advantage by calling or sending their orders where will be found the most extensive assortment of genuine Patent Medicines in the United States, and at the lowest prices. Please address

OFFICIAL ORDER.

Headquarters Department of the Gulf,
NEW ORLEANS, Feb. 3, 1864.

GENERAL ORDERS No. 23.

The following general regulations are published for the information and government of all interested in the subject of compensated plantation labor, public or private, during the present year, and in continuation of the system established January [illegible] 1863:

I. The enlistment of soldiers from plantations under cultivation in this Department, having been suspended by order of the Government, will not be resumed except upon direction of the same high authority.

II. The Provost Marshal General is instructed to provide for the division of Parishes into police and school districts, and to organize from invalid soldiers a competent police for the preservation of order.

III. Provision will be made for the establishment of a sufficient number of schools, one at least for each of the police and school districts, for the instruction of colored children under twelve years of age, which, when established, will be placed under the direction of the Superintendent of Public Education.

IV. Soldiers will not be allowed to visit plantations without the written consent of the Commanding Officer of the Regiment or Post to which they are attached, and never with arms, except when on duty, accompanied by an officer.

V. Plantation hands will not be allowed to pass from one place to another except under such regulations as may be established by the Provost Marshal of the Parish.

VI. Flogging and other cruel or unusual punishments are interdicted.

VII. Planters will be required, as early as practicable after the publication of these Regulations to make a Roll of persons employed upon their estates, and to transmit the same to the Provost Marshal of the Parish. In the employment of hands, the unity of families will be secured as far as possible.

VIII. All questions between the employer and the employed, until other tribunals are established, will be decided by the Provost Marshal of the Parish.

IX. Sick and disabled persons will be provided for upon the plantations to which they belong, except such as may be received in establishments provided for them by the Government, of which one will be established at Algiers, and one at Baton Rouge.

X. The unauthorized purchase of clothing, or other property from laborers, will be punished by fine and imprisonment. The sale of whisky or other intoxicating drinks to them, or to other persons, except under regulations established by the Provost Marshal General, will be followed by the severest punishment.

XI. The possession of arms or concealed or dangerous weapons, without authority, will be punished by fine and imprisonment.

XII. Laborers shall render to their employer, between daylight and dark, ten hours in summer, and nine hours in winter, of respectful, honest, faithful labor, and receive therefor, in addition to just treatment, healthy rations, comfortable clothing, quarters, fuel, medical attendance, and instruction for children, wages per month as follows, payment of one half of which, at least, shall be reserved until the end of the year:

For first class hands	$8 00 per month.	
For second class hands	6 00	do.
For third class hands	5 00	do.
For fourth class hands	3 00	do.

Engineers and foremen, when faithful in the discharge of their duties, will be paid $2 per month extra. This schedule of wages may be commuted, by consent of both parties, at the rate of one-twentieth part of the net proceeds of the crop, to be determined and paid at the end of the year. Wages will be deducted in case of sickness and absence, and rations, clothing, &c., forfeited. Indolence, disobedience, insolence, crime, or disorder will be suppressed by forfeiture of pay, and such punishments as are provided for similar offences by Army Regulations. Sunday work will be avoided when practicable, but when necessary, will be considered as extra labor, and paid at the rates specified herein.

XIII. Laborers will be permitted to choose their employers, but when the agreement is made, they will be held to their engagement for the year, under the protection of the Government. In cases of attempted imposition, by feigning sickness, or stubborn refusal of duty, they will be turned over to the Provost Marshal of the Parish, for labor upon the public works, without pay.

XIV. Laborers will be permitted to cultivate land on private account, as herein specified, as follows:
1st and 2d class hands, with families, one acre each.
1st and 2d class hands, without families, one half acre each.
3d and 4th class hands, with families, one half acre each.
3d and 4th class hands, without families, one quarter acre each.

To be increased for good conduct at the discretion of the employer. The encouragement of independent industry will strengthen all the advantages which capital derives from labor, and enable the laborer to take care of himself and prepare for the time when he can render so much labor for so much money, which is the great end to be attained. No exemption will be made in this department, except upon imperative reasons, and it is desirable that the greatest quantity be increased, ... be allowed to cultivate extensive tracts, returning to the owner an equivalent of the product in rent of soil.

XV. To protect the laborer from possible imposition, no commutation of his supplies will be allowed, except upon ... and at the rate of ... in similar proportion for other ... The crops will stand pledged, wherever found, for the wages of labor.

XVI. It is advised, as far as practicable, that employers provide for the ... wants of their hands, by perquisites ... by appropriation of land for ... wages, ... monthly payments so far as may be ... so as to secure ... the end of their yearly wages.

XVII. A Free Labor Bank will be established for the safe deposit of all accumulations of wages and other savings; and in order to avoid a possible wrong to depositors, by official defalcation, authority will be asked to connect the Bank with the Treasury of the United States in this Department.

XVIII. The transportation of negro families to other countries will not be approved. All propositions for this privilege have been declined, and application has been made to other Departments for surplus negro families for service in this Department.

XIX. The last year's experience shows that the Planters and the Negroes comprehend the Regulations. The Government, having little interest in capital, and no sympathy with its ... and ... the products of ... , and disposed to ... the laborer ... past, ... The ... for what ...

XX. These Regulations are based upon the assumption that labor is a public duty, and idleness and vagrancy a crime. No civil or military officer of the Government is exempt from the operation of this universal rule. Every enlightened community has enforced it upon all classes of people by the severest penalties. It is especially necessary in agricultural pursuits. That portion of the people identified with the cultivation of the soil, however changed in condition by the revolution through which we are passing, is not relieved from the necessity of labor, which is the condition of existence with all other classes. The revolution has altered its ... but ... This universal law of labor will be enforced upon just terms, by the Government, under whose protection the laborer rests secure in his rights. ... disorder and crime will be suppressed. Having exercised the highest right in the choice and place of employment, he must be held to the fulfillment of his engagements, until released therefrom by the Government. The several Provost Marshals are hereby invested with plenary powers upon all matters connected with labor, subject to the approval of the Provost Marshal General and the Commanding Officer of the Department. The most faithful and discreet officers will be selected for this duty, and the largest force consistent with the public service detailed for their assistance.

XXI. Employers, and especially overseers, are notified that undue influence used to move the Marshal from his just balance between the parties representing labor and capital, will result in immediate change of officers, and thus defeat that regular and stable system upon which the interests of all parties depend.

XXII. Successful industry is especially necessary at the present time, when large public debts and onerous taxes are imposed to maintain and protect the liberties of the people and the integrity of the Union. All officers, civil or military, and all classes of citizens who assist in extending the products of labor and increasing the products of the soil, upon which, in the end, all national prosperity and power depends, will render to the Government a service as great as that derived from the terrible sacrifices of battle. It is upon such considerations only that the planter is entitled to favor. The Government has accorded to him, in a period of anarchy, a release from the disorders resulting mainly from insensate and mad resistance to sensible reforms, which can never be rejected without revolution and the criminal surrender of his interests and power to crazy politicians, who thought by ... to improve the laws of God. It has restored to him in improved condition, rather than impaired condition, his due privileges, at a moment when, by his own acts, the very soil was wasted from beneath his feet.

XXIII. A more enlightened and wise clemency human history does not exhibit. The liberal and just conditions that attend it, cannot be disregarded. It protects labor by enforcing the performance of its duty, and it will assist capital by compelling just contributions to the demands of the Government. Those who profess allegiance to other Governments, will be required, as the condition of residence in this State, to acquiesce, without reserve, in the demands presented by Government as a basis of permanent peace. The non-cultivation of soil without just reason, will be followed by temporary forfeiture to those who will secure its improvement. Those who have been exercised, or are entitled to the rights of citizens of the United States, will be required to participate in the measures necessary for the re-establishment of civil government. War can never cease except as civil governments crush out contest, and secure the supremacy of moral over physical power. The yellow harvest must wave over the crimson field of blood, and the representatives of the people displace the agents of purely military power.

XXIV. It is therefore a solemn duty resting upon all persons, to assist in the earliest possible restoration of civil government. Let them participate in the measures suggested for this purpose. Opinion is free and candidates are numerous. Open hostility cannot be permitted. Indifference will be treated as crime, and faction as treason. Men who refuse to defend their country with the ballot box or cartridge box, have no just claim to the benefits of liberty regulated by law. All people not exempt by the law of nations, who seek the protection of the Government, are called upon to take the oath of allegiance in such form as may be prescribed, sacrificing to the public good and the restoration of public peace, whatever scruples may be suggested by incidental considerations. The oath of allegiance, administered and received in good faith, is the test of unconditional fealty to the Government and all its measures, and cannot be materially strengthened or impaired by the language in which it is clothed.

XXV. The amnesty offered for the past, is conditioned upon an unreserved loyalty for the future, and this condition will be enforced with an iron hand. Whoever is indifferent or hostile, must choose between the liberty which foreign lands afford, the poverty of the rebel States, and the innumerable and inappreciable blessings which our Government confers upon its people.

May God preserve the Union of the States!
