MEDICAL.

AYER'S
AGUE CURE,
For the speedy cure of
Intermittent Fever, or Fever and Ague, Remittent Fever, Chills, or Bilious Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and other disorders arising from the malaria of marshy districts.

No one recently in border called for by the experience of the American people that fever and ague are free from danger and fatal. Much life has now ended to other, with a perfect certainty that it will continue the disease, and with uncertain, slowly or never, and not unfrequently from an attack not dangerous.
That which protects from or prevents this disease must be of immense service to the communities where it prevails. *Prevention* is better than cure for the reason amongst the risk which has been so widely spread of the baleful disease. The AGUE CURE expels the disease from the system. And Ayer's Cure frequently and prevents the development of the disease, if taken on the first approach of its precursory symptoms. It is the only medicine yet discovered for the cure of ague, and the most certain cure of intermittents is, that it expels from the system or removes, consequently it prevents its return, or other injurious effects whatever upon the constitution. These cured by it are safe as healthy as if they had never had the disease.
Fever and ague, or chills and fever, is the commonest of the miasmatic poisons. A great variety of disorders follow in its train, among which are Neuralgia, Rheumatism, Blindness, Blind Headache, Dumb Ague, Bowelly, Cholera, Asthma, Palpitation, Painful Affections of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralysis and Dropsies, and a long catalogue, all of which, when originating in the cause, yet on the intermittent type, or become periodical. This "Cause" expels from the system the blood, and consequently cures them all alike. Its invaluable powers in immigrants and persons traveling or temporarily residing in the infected districts, if taken constantly or daily while exposed to the intoxicating, shall well secure from the system, and cannot accumulate to melt and quickly to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compound that disease within the range of their action can rarely withstand or evade them. These penetrating properties control disease, and invigorate every portion of the human organism, correcting the diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or strength restored by a remedy so cheap, so simple and inviting.
Nothing do they cure the every-day complaints of every body, and yet there are few who do not need a family physic. Their sugar coating renders them pleasant to take, and they are the safest and most agreeable cathartic for children.
Nothing do they cure the every-day complaints of every body, and yet there are few who do not need a family physic. Their sugar coating renders them pleasant to take, and they are the safest and most agreeable cathartic for children.
Dysentery, Diarrhœa, Dyspepsia, Liver Complaint, Piles, Dropsy, Worms, Gout, Neuralgia, Rheumatism, Ulcers, Dropsy, Tumors, Blindness, Headache, Pimples, Eruptions, Tetter, Salt Rheum, Scurvy, Erysipelas, Sore Eyes, Sore Throat, Ulcerations, Tumors, Blotches, Boils, Tumors, Tetter, Scald Head, Ringworm, Nausea, Nausea, Indigestion, Loss of Appetite, Jaundice, and other kindred complaints arising from a low state of the body or obstruction of its functions. They are the cheapest alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

Its virtues are well known to many, almost every section of country abounds in persons, perhaps known, who have been restored from alarming and even desperate diseases of the lungs by its use. When cases tried, its superiority over every other medicine of its kind is the apparent to every observer. Its power to relieve the most distressing and dangerous affections of the pulmonary organs has indeed become so well established, that no longer hesitate what medicine to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. Where many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and protracted cures too numerous and too remarkable to be forgotten.
