# SHIPS & STEAMERS.

**U. S. Mail Steamship Company.**

IN addition to the regular line of steamships between New Orleans and New York, via Havana, connecting with the Chagres steamers, the company have made arrangements to establish a direct line of their first class steamships between this port and Chagres, connecting with the Pacific mail steamships on the arrival of the California mails and passengers. This line will take the government mails hence for California and Oregon and returning will bring the mails destined for this point and the western States, thereby giving them greater despatch; and as New Orleans will be the first point to receive the news from the Pacific, it will be communicated to all parts of the Union through the telegraph. It will also relieve the company's regular line of steamers from the California travel, and thus enable them to accommodate their New York and Havana passengers more comfortably, and also to take more freight. The direct line for Chagres will leave on the 11th and 12th, and that for New York via Havana, connecting with the Chagres steamers, will leave as well on the 10th and 25th, of each month, thus giving New Orleans four first class steamships per month for California and Chagres.

IT was supposed that the great Camp street conflagration had fully developed the fire-defying qualities of

**RICH'S IMPROVED**
**Patent Salamander Safes;**

but the achievements of the article on that occasion were entirely eclipsed by those of another SAFE of the same make, recently tested in Pearl street, New York, which, owing to the protracted intensity of heat, could not be reached by those in search of it until *forty hours after* they commenced their efforts, and when it had been *ninety-one hours* contending with the fearful element. Incredible as it may seem, the subscriber has the testimony of the owner, Mr. JOSEPH O. GILBERT, to prove that its contents, *worth to him over one hundred thousand dollars*, were uninjured, notwithstanding the unexampled ordeal through which their protector had passed, it being *the only one among twelve* Safes or Chests tested at the time, which was not demolished. Certificates of many other tests will be forwarded (post-paid) to any who may desire full information with a view of purchasing, and will send their address to the subscriber.

No Safe of Rich's make, when tested with Books, or other valuable contents, has cost its owner more than one per cent, while some of them have cost *less than one-eighth of one per cent*, on the amount saved. This fact serves to show that true economy would be promoted by possessing such an invaluable depository for articles of small bulk but great value, rather than by saving the cost of one, at the risk of suffering serious loss.

A large stock and good assortment of SAFES are constantly for sale by the subscriber, Sole Agent in this city of STEARNS & MARVIN, successors to C. RICH & CO. — ISAAC BRIDGE,
