THE DAILY BEE.

FRIDAY MORNING, OCTOBER 16.

THE NORTHERN MAIL failed yesterday from beyond Washington. The mail due the day previous came through.

THE POOR.

Every monetary crisis bears with terrible severity on the laboring classes. The man who esteemed himself worth fifty thousand dollars before the panic, and who finds that, by the depreciation of real estate, the failure of debtors to meet their obligations, and inevitable losses in trade, his possessions are reduced one-half, may still console himself with the reflection that he is comparatively opulent. In fact every man engaged in business who escapes out of the crash with something above the means of providing for the current wants and necessities of the day, has no right to murmur. He has lost the surplus of his wealth—the money used by him to increase his store, not to feed, clothe and shelter his family. Hence he does not suffer materially.

Far otherwise is it with the hewers of wood and drawers of water. Among the earliest results of a financial pressure is the diminution or suspension of manufacturing industry; and this extends from the largest to the smallest institutions. The stoppage of a cloth manufactory in New England throws out of employment from five hundred to a thousand hands. Every failure casts upon the charity of the world a certain number of laborers. The operatives in a manufactory live for the most part from hand to mouth. Their daily wages barely suffice for their daily wants. Few indeed among them have been enabled, even by rigid prudence and economy, to lay by something for a rainy day. Want of employment to this class is slow starvation.

We see it stated that a single house in New York, on suspending payments, dismissed eight hundred and fifty operatives. The New York *Mirror* states that Messrs. Singer & Co., manufacturers of sewing machines, discharged about one hundred and fifty workmen on Saturday evening, they having decreased their business until the financial crisis shall have passed away. Messrs. Hoe & Co., the great press manufacturers, also discharged about one hundred and fifty. A week or two ago a New York journal calculated that during the coming winter there would be in that city over one hundred thousand persons out of employment, most of whom would become a burden on the public. What is true of New York is partially true of every other city in the Union. We shall not, of course, be saddled with the same, or even a proportionate amount of the pauperism that will afflict New York, because there is not the same constant increase of population from foreign immigration to be encountered elsewhere. But, nevertheless, there will be hundreds, if not thousands, whom the hard calamity of the times has rendered destitute, who can find no occupation, no possible field of labor by which they may earn the wherewithal to keep the wolf from their door. These are the people whose prosperity is blighted by a monetary crisis. It is the humbler classes which feel most sensibly and sorely the crushing power of sudden adversity. It is they who appeal to the sympathy and succor of the rest of the community with a force and energy generated by hunger and distress.

It is well that the benevolence of our people is proverbially active and untiring, for we may be tolerably certain that during the coming winter it will be called forth to an unusual extent. Hard times will be the cry for many a day. Business will be restricted, clerks and laborers will be dismissed, and poverty will show its gaunt and ghastly face at many a hearthstone where frugal comfort and content have hitherto presided.

THE BANKS.

Yesterday morning, immediately after the opening of the banks, a disposition to a run upon the specie-paying institution was exhibited. There was no difficulty or delay in the prompt payment of their circulation. In the course of an hour or two the Bank of Louisiana, Louisiana State Bank, and Canal Bank were left entirely unmolested, and by 12 M., there were scarcely half a dozen persons to be seen around these institutions. The run on the Citizens' Bank was maintained with considerable spirit until one or two o'clock, when it subsided likewise. The last named bank was kept during the day's busy in exchanging gold for her notes, as to be compelled to decline responding to the demands of depositors. It is due to the Citizens' Bank to say that the redemption of her circulation was met in a most manful and unflinching spirit. The bank we know to be able and willing to pay dollar for dollar of her circulation, and will undoubtedly, as soon as the foolish panic subsides, honor the checks of her depositors. We regret to learn that a few of the latter partook of the absurd apprehensions of the ignorant holders of fives and tens, and endeavored to crowd the bank by demanding the amounts of their checks in gold. The first duty of the bank is towards her bill-holders, and consequently her course was judicious and politic in attending for the present exclusively to the redemption of her issues. We think if the people are wise they will henceforth perceive the necessity of sustaining our chartered banks in their manly efforts to preserve their solvency. One thing is certain—our banks will not suspend specie payments, unless they are forced into this measure by an unreasoning and causeless popular panic.

With respect to the three suspended free banks, to wit: the Bank of New Orleans, the Mechanics and Traders and the Union Bank, we repeat what we said yesterday, that bill-holders have nothing whatever to fear. Their notes are good, and should be received at par. The business community already understand this fact, and are advertising the public points that they will receive the paper of the suspended banks at the par value of that of the specie-paying institutions. The Bank of New Orleans was yesterday placed in the hands of a receiver, by judicial proceedings had in the Second District Court. ADAM GIFFEN, City Treasurer, was appointed receiver, and will attend to his duties daily during bank hours.

NOTES OF SUSPENDED BANKS.—It will be seen by our advertising columns that the notes of the suspended banks are received at par in payment of goods by Messrs. J. & J. TARDOS, 31 Old Levee street; Mr. R. CHAMPAGNE, Old Levee street, opposite the Meat Market; Mr. H. VALETON, 90 St. Louis street; Mr. R. B. SYKES, Auctioneer; Mrs. FABIO, at the corner of Hospital and Chartres streets; Messrs. D. P. SCANLAN & Co., 12 and 14 Chartres street; Messrs. E. J. HART & Co., 77 and 79 Tchoupitoulas street; Messrs. ELIE & CHASSAIGNAC, 78 Chartres street; Messrs. M. R. HAGGERTY & BRO.; Messrs. LION & PINSARD, 66 and 68 Royal street; Mr. EUG. ROCHEREAU, 17 and 19 St. Louis street.

MRS. FABIO, corner Hospital and Chartres streets, announces in our columns her willingness to take the paper of the suspended banks at par in exchange for her splendid stock of fall and winter goods. See advertisement.

A whimsical history was given in a Liverpool paper, some twenty-one years ago, of the state of the cotton market. It was copied from one of the window shutters of the Exchange news-rooms, where it had been chronicled by some unfortunate speculator, at various times during a period of a few months. On the 20th of April, 1825, Cotton was at 18 to 18d. in the Liverpool market; while on the 1st of February, 1826, it was worth but 7½ to 9d. Almost as great a decline has now taken place in New Orleans, and within nearly three weeks. In the present case, we can but think the decline a temporary one. But to the wind or shutter Liverpool record, which we copy from the Natchez (Miss.) *Ariel*, of July 14, 1826:

April 20, 12 at noon	Hesitation,
	Trepidation,
	Consternation,
	Prostration,
Resuscitation required or	Tribulation,
	Vacillation,
June 17, 12 at noon	Desolation,
August 8,	Desperation,
Sept. 5,	Ruination,
Feb. 1, 1826,	D——————.

Mr. Macaulay has chosen as his new title that of "Baron Macaulay," of Rothley, in the county of Leicester. Rothley Temple was for some years the residence of his maternal uncle, the late Thomas Babington, formerly High Sheriff of Leicestershire, many years member of Parliament for the city of Leicester, and after whom the historian was named. It was Mr. Macaulay's birthplace.

PRESIDENT BUCHANAN has transmitted a handsome pocket chronometer and chain to Captain A. JOHNSON, of the Norwegian bark *Ellen*, as a testimonial of his services in rescuing many of the survivors of the *Central America*. The watch bears the following inscription:

"The President of the United States to Captain A. Johnson, Norwegian bark *Ellen*, for his humane, prompt, zealous, and successful efforts in rescuing persons from the wreck of the steamer *Central America*, 1857."

[TRANSMITTED TO THE NEW ORLEANS BEE.]

MONEY IN BATON ROUGE.—Baton Rouge, October 15.—There is some excitement here in regard to the suspension of the banks in New Orleans.

Our merchants readily take the bills of the suspended banks.

The Branch Bank of the State here takes the Citizens' and Southern Banks notes on deposit, and the notes of all the banks in New Orleans for the payment of debts.

SUSPENSION IN MEMPHIS.—Memphis, October 15.—The Bank of the State of Tennessee has suspended. Business is stagnant. No sales of cotton and receipts small.

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF THE VANDERBILT.

New York, October 15.—The U. S. mail steamship *Vanderbilt*, from Liverpool on the afternoon of Saturday, the 3d instant, has arrived.

Liverpool, October 3.—The sales of cotton for the week amount to only 27,000 bales.

Prices are easier, but quotations are generally unchanged, except for inferior qualities, which have declined ⅛d.

Breadstuffs closed with a declining tendency. All qualities have slightly declined.

Lard closed heavy at a decline.

MONEY.—Consols for money closed at 90½.

GENERAL NEWS.

LATER FROM INDIA.—Advices from India state that Gen. Havelock had again defeated the rebels near Cawnpore.

Lucknow was safe.

CHINA.—The news from China is unfavorable. The Emperor refuses to accept the proposition of England.

[SECOND DISPATCH.]

New York, October 15.—The United States steamship *Vanderbilt* has arrived at this port. She brings advices from Liverpool of the afternoon of Saturday, October 3d, being three days later than brought by the steamship *Atlantic*.

COMMERCIAL.—Cotton.—Inferior grades have declined ⅛d.

The whole stock in port is 336,000 bales, of which 196,500 bales are American.

Our quotations (by the Brokers' circular) are as follows: Orleans Fair, 9¾d.; Orleans Middling, 9 3-16d.; Mobile Fair, 9½d.; Mobile Middling, 9⅛d.; Uplands Fair, 9¼d.; Uplands Middling, 8 15-16d. Breadstuffs slightly declined. Corn is 6d. lower. Wheat is from 2 to 3d. lower. Western Canal Flour, 30 to 31s. Provisions dull. Bacon firm.

London, October 2.—Funds opened with animation and experienced a rise, but was soon changed by the heavy sale of consols.

Foreign exchange is unaltered.

Notwithstanding the large arrivals of gold from Australia, the prospects for the money market are discouraging.

From New York—Money and Business—Country Bank Notes Taken at Par—Meeting of the Legislature Opposed—Stocks Better—Financial News.

New York, October 15.—The city banks have resolved to take all notes of New York country banks at par.

There are strong influences at work against an extra session of the Legislature.

Stocks are better and money is active, but in better supply.

Specie commands 2 to 5c. premium.

Breadstuffs have decidedly advanced.

SUSPENSIONS.—New York, October 15.—The Union Bank, Augusta, Ga., and the Farmers' and Exchange Bank, Richmond, Va., have suspended.

AFFAIRS IN PHILADELPHIA.—Philadelphia, October 15.—The banks show a disposition to repudiate the relief bill. Matters look gloomy.

LATEST.—New York, October 15.—Matters look more cheerful here.

Boston, October 15.—The aspect here is brighter.

Affairs in Mobile—Suspension of the Savings Bank—No Run on the Others.

Mobile, October 15, P. M.—The Savings Bank has suspended, owing to a run by the small depositors.

There is no run on the other banks, and no fears of their suspension.

The agent of the Associated Press is indebted to a commercial house in this city for the following private dispatch, from a most reliable source:

New York, October 15.—The banks have suspended specie payment, but receive notes of the State banks at par.

They have all resumed business, and the general feeling is more buoyant.

STEAMBOAT COMING.—Vicksburg, October 15.—The McGill passed down at 8, the Republic and Twitchell at 9 last night, the Arkansas at midnight, and the Ben Franklin at 3 this morning; the Henry Chouteau at 4 P. M.

THE NEW YORK BANKS.—The constitution of New York contains a provision respecting the banks identical with our own. It is in the following words:

The Legislature shall have no power to pass any law sanctioning in any manner, directly or indirectly, the suspension of specie payments by any person, association or corporation issuing notes of any description.

The banks of New York which have suspended are therefore legally defunct.

The Boston *Post* occasionally furnishes some striking incidents of the prevailing financial crisis. From the police reports in last Wednesday's issue we clip the following:

James Fleming, assault on his wife Ellen, originating in the heinous offense of taking a bill on the Providence Bank, which she failed to get rid of, was sentenced to two months in the house of correction.

National Chess Congress.

The session of the congress yesterday, the 7th inst., was a full one, and the interest caused by the publication of the first day's proceedings seemed to hourly increase until nightfall, when the rooms were almost uncomfortably crowded. A number of gentlemen called on the Secretary during the day and inscribed their names as members.—Among the list of the members are the Hon. Fernando Wood and the Marquis de Montholon. Lieut. General Scott, who is a fair player and an ardent admirer of the game, is also expected to honor the congress with his presence.

Mr. Paulsen last night had beaten his opponent three straight games, thus being clear of the first section of the tournament. Mr. Hardman Phillips Montgomery, of Philadelphia, won two additional games from Mr. Aunson, of Minnesota, completing the best three in five, and is therefore also clear. Mr. Fiske beat M. N. Marache in a hard-contested game, while Judge Meek succumbed to Mr. W. J. A. Fuller after 68 moves. Dr. Raphael turned the tables upon Mr. Kennicott—these gentlemen now standing one to one. Messrs. Thompson and Paul Morphy did not play in the match yesterday. Mr. Perrin gained once from his antagonist, Mr. Knott, thus standing one to one.

Although Mr. Paul Morphy did not engage in the tournament yesterday, a number of distinguished amateurs tried their best against him. Mr. Hammond, of Boston, was beaten twice by him, and the same number of times by Col. Mead, President of the New York Chess Club. Mr. Morphy also beat Mr. Thompson; the latter gentleman essaying the Evans Gambit upon him without success.

It is probable that Mr. Paulsen will shortly play four blindfold games simultaneously against four strong players; we shall not omit announcing the time and the result to our readers. There seems to be a general opinion that the first two prizes may fall between this gentleman and Mr. Paul Morphy. The latter is remarkable for the brilliance of his attack, and the former for the obstinacy of his defense, and when the two come together there will be seen some magnificent playing.

The list is now open for candidates to the Minor Tournament, which commences next Monday. The names already inscribed are Messrs. Frere, of Brooklyn, Keyes, of Boston, Mass., Adolphe Mahle, of New York, D. Julien, of New York, M. Mantin, of New York, Anderson, of New York, and John S. Dunning, of New York. Gentlemen desirous of entering this tourney are requested to hand in their names to the Secretary.

The automaton chess player, which is exciting much curiosity among the chess world, is expected to be produced at the congress in the course of next week. As it is a curiosity, otherwise than in a mere chess view, it will probably be one of the chief attractions of the occasion.

The arrivals yesterday from adjacent States were numerous. Mr. Lewis Elkin, of Philadelphia, and several of the Athenæum players presented themselves, and announced that others would shortly join them.—Mr. Brady, the photographist, ever on the qui vive after celebrities, is now engaged in taking the portraits of the sixteen champions in the Grand Tournament.—*N. Y. Tribune.*

THE REPORTED FALL OF LUCKNOW.—The following is that portion of the New York *Herald's* Calcutta correspondence which refers to the fall of Lucknow:

CALCUTTA, August 10, 1857.

The overland mail for England closed on Saturday, the 8th inst. I write this to send by the after packet, which goes down the river this morning, and will overtake the mail steamer (the *Bentinck*) off Saugor Island. We received very bad news from the interior on Saturday; but as the government has kept it back from the newspapers you will not probably hear of it, in the ordinary course of intelligence, until the next mail.

Lucknow, the capital city of Oude, has fallen; all the Europeans have been massacred by Nana Sahib; and the relief force under General Havelock has been obliged to fall back upon Cawnpore, terribly decimated by the cholera. There is every reason to believe that this news, discouraging as it is, is true. It is not stated on what day the garrison of Lucknow surrendered, or was overcome by the rebels; but it must have been about the 1st of the present month. That city contains a population of about 300,000 Mohommedans, who probably fraternized with the besiegers, and rendered the destruction of the Europeans speedy and certain. We have intelligence this morning that General Havelock, at Cawnpore on the 4th instant, had received a reinforcement and had moved on again towards Lucknow in pursuit of the rebel army. The rebellion and carnage are now getting nearer and nearer to Calcutta.

THE CROPS.—The Natchitoches *Chronicle* says:

The recent heavy rains have produced quite an injury to the crops of our parish. Picking is progressing slowly, full weights being of rare occurrence. All the signs at present before us induce renewed confidence in our previously expressed opinions that we should have a very short crop.

THE NIAGARA'S NEWS.

The R. M. steamship *Niagara* arrived at Halifax on the 7th, with dates from Liverpool to the 26th ult.

GREAT BRITAIN.—The Paris *Pays* says there has been received a private letter from London stating that Lord Elgin would soon be appointed Governor-General of India, and Lord Canning be nominated to another office.

The offer of a commission in the army to any qualified party raising one hundred recruits has been withdrawn.

An express train from Manchester to London on the Great Northern Railway ran off the track and over the viaduct. Four persons were killed, including the Hon. Windsor Olive, and a large number injured.

The subject of creating an army brigade from the middle class of Englishmen was daily attracting more attention, and it was supposed that the pressure of public opinion would induce the government to take the matter up.

Messrs. Harrison, Watson & Co., bankers in Hull, have failed. Their liabilities are supposed to be large.

A collision occurred between the police and militia at Limerick on Saturday, the 26th. Some persons were injured, but no lives were lost.

Advices from Palermo state that the telegraph between Malta and Sicily will be ready by the middle of October, and the British government will then only have to lay a cable between Alexandria and Malta to bring Bombay within fifteen days of London.

The *Globe* says that the Privy Council have fixed Sunday, the 4th of October, as a day for national humiliation and prayer, on account of the Indian troubles.

The Sultan of Turkey has contributed £1000 to the Indian Relief Fund. Considerable political importance is attached to this act of the head of the Mohammedan religion.

The cattle disease has made its appearance in Kerry, Ireland.

The Latest.

LONDON, Saturday.—There was a further increase in the demand for money both in the Stock Exchange and at the bank, but not beyond what was to have been anticipated from the near approach of the end of the quarter and the largeness of the government balance.

It is stated that within the last few days a large quantity of Ibraila maize has been sold to be shipped to the United Kingdom in the course of the year in Greek vessels—the price mentioned per quarter, cost and freight, being a considerable reduction from the price now nominally current in London.

FRANCE.—Napoleon left the camp at Chalons on the 23d, was at Strasburg on the next day, and at Stutgard on the 25th.

A telegraphic dispatch from Stutgard gives the following programme of the Imperial meeting: The Emperors meet on Friday, the 25th. They will give a grand banquet on that day, and an evening party at the Princess Royal's country seat. On Saturday they will pay a visit to the royal breeding stud at Hohenheim, and attend an evening party at Wilhelmsohloss, the garden to which regal palace will be illuminated. The Minister of Foreign Affairs will have an assembly on the same evening of all the members of the diplomatic corps. The festivities will terminate on Sunday by a grand banquet at the Court, and a gala spectacle at the theatre. The Emperors will take their departure on Monday morning.

A Vienna dispatch says that the Emperors of Austria and Russia will have an interview at Weimar on the 1st of October.

The Paris *Patrie* says the furthering of a common spirit of amity and good intelligence between the Courts of France and Russia is the only object of the interview.

Inundations in the South of France have been very disastrous. The destruction of property was immense, and several lives were lost. The Emperor contributed 10,000 francs from his private purse for the relief of the sufferers.

The grape harvest was progressing in the South, and the vintage was most abundant.

A telegraphic dispatch from Stutgard, of the 25th, to the *Times* says that Napoleon arrived there on that afternoon at 4½ o'clock. The King of Wurtemberg received him at the railway station, and conducted him to the palace, where they were immediately joined by the Emperor of Russia. Contrary to all expectations, the Empress of Russia was to join the party the next day.

The trial of those charged with the committal of frauds on the French railroad had terminated. Parot was acquitted. Grelet was found guilty and sentenced to eight years' imprisonment. Carpentier and Guerin were also found guilty and sentenced to five years' imprisonment. Furthermore, Carpentier, Grelet and Parot are required to restore 4,332 shares, and Guerin 1,600.

The funeral of M. Manin was attended by 1,500 persons, of whom many were refugees. No funeral oration was permitted. Police precautions were taken, but no trouble occurred.

SPAIN.—Mexico has accepted the mediation of England and France in her quarrel with Spain.

Notwithstanding the Madrid journals say the ministerial crisis is over, it was rumored that Gen. Figueras was to resign the Ministry of War and to be succeeded by Serrano, and that several high functionaries at the palace were to be dismissed. A royal decree convokes the Cortes for the 30th October.

PORTUGAL.—Lisbon dates are to the 19th. Great excitement existed at the supposed outbreak of yellow fever, although it was asserted it was only typhus.

DENMARK.—A Berlin dispatch says that the separate negotiations between Prussia and Denmark had been broken off, and that Prussia and Austria had determined for the present not to carry the affairs with the Duchies before the Diet, but to await the representations of Holstein.

The rumors of a French note in favor of Denmark are contradicted.

SWEDEN.—A Stockholm dispatch, of the 24th, says that the four estates which form the Swedish Parliament have accepted the King's proposal, that the Crown Prince should be regent during his illness. The proposals met with opposition only from the citizens and peasants.

RUSSIA.—A fire at St. Petersburg is reported to have consumed 170 vessels and lighters.

It is stated that the Russian government is constructing a large fortress at Kertsch to command the Straits of Yenikale.

A Berlin letter says the Czar, before leaving St. Petersburg, approved the draft of a project for the partial abolition of serfdom, and on his return the project will become a law, and a proclamation be issued inviting owners to arrange for the liberation of their serfs.

Letters from St. Petersburg report that the reduction to a peace footing of the three divisions of cavalry of the Imperial Guard had been accomplished.

TURKEY.—Omer Pacha is nominated Governor-General of Bagdad, a very lucrative post. He is charged with the duty of establishing a line of steamers upon the Tigris and the Lower Euphrates, and with the protection of commerce against the Arabs.

Three Russian corvettes were in the Dardanelles, waiting for a firman to enter the Black Sea. These vessels, it is understood, are intended for a guard of the ships in ports designated by the treaty of Paris.

It is stated that the Porte, under the pressure of events, has come to the resolution of taking the initiative on the question of the Principalities, and is about to propose an administrative union extending even to the army.

INDIA.—Nothing later has been received from India; but the government dispatches are momentarily expected.

The Indian mail steamer *Colombo* has arrived at Southampton with numerous fugitives from mutinous districts in India. They give a frightful account of the state of Calcutta and the Upper Provinces of India.

The East India Company announce that they have taken measures to render prompt assistance to all sufferers in India.

Five hundred French troops had arrived at Calcutta from China, to defend French interests at Chandernagore.

A doubt had been thrown upon the reported mutinies among the Bombay troops in Dharwar.

A battalion of French marines would probably be sent to reinforce the garrison at Pondicherry.

CHINA.—A letter from Hong Kong, received at Paris, says that the United States corvette *Levant*, in order to avenge the pillage by a gang of pirates of an American ship, had burned down a village on the island of Formosa, which the pirates occupied.

Telegraphic Items.

NEW YORK, Oct. 8.—A rumor has reached here from Boston that ex Mayor Samuel A. Elliot, of that city, has become insane, and was taken to the Insane Hospital on Saturday, in consequence of the loss of the whole of his estate by the failure of C. H. Mills & Co.

PITTSBURG, October 8.—A revolting murder was committed here last night. Three persons entered the second story of the house of an aged German named Wissman, who lived with his daughter in a secluded spot on the East Liberty road, near Pittsburg. Their object was supposed to be to commit a rape on his daughter, who first discovered their entrance into the house. Wissman, while protecting her, received several blows on the head from a heavy iron bar, which fractured his skull, and he died shortly after. James Kelly, John Richards, and Daniel Deviney were arrested to-day as the perpetrators of the murder. They are strongly implicated by circumstances.

ST. LOUIS, October 8.—At about 4 o'clock this morning a violent shock of an earthquake was felt, and seven minutes later another shock, less severe, accompanied by deep and heavy rumbling, making the most substantial buildings tremble, and overturning small articles in the dwellings. The shocks were felt at Springfield, Illinois.

CENTRALIA, Illinois, October 8.—There were distinct shocks of an earthquake, lasting five minutes, felt here at 4 o'clock this morning. The first shock was so violent as to demolish chimneys, and very generally awaken the citizens.

SUICIDE IN TROY.—Troy, October 7.—Col. Richard J. Knowlson, a resident of Sand Lake, in this county, and formerly an extensive and wealthy business man in this city, committed suicide, in a fit of temporary insanity, at 4 o'clock this morning. He first cut his throat and then threw himself before a train of passenger cars on the Hudson River railroad. His body was dreadfully mangled. The event has caused a profound sensation here.

FIRE NEAR MOBILE.—The *Tribune* of Wednesday says:

A saw-mill located on Mill Creek, near Malone's, on the McGhee road, about thirteen miles distant from Mobile, was destroyed by fire on Sunday last, between the hours of ten and twelve o'clock, A. M. The property was valued at $6,000. No insurance. It belonged to Mr. Thos. Hatters. It is believed to have been the work of an incendiary.

HELPING ONE ANOTHER.—Chickering & Sons, the piano forte makers, Boston, employ some three hundred mechanics and many laborers, and, as a matter of course, their weekly disbursements are large. On the last pay day, in consequence of the non-arrival of funds due at a distance, they were obliged to expend the funds in hand in the redemption of matured paper, and, consequently, had to forego the pleasure of paying their hands their accustomed weekly allowance. What did the men do then?—did they "strike?" No! but, like rational Boston mechanics, they met, consulted together, and passed resolutions expressing sympathy with and confidence in their employers, and tendering to them a loan of six or eight thousand dollars, the proceeds of their own savings. There is a great deal of nobility in the conduct of the men—so much of unselfishness and consideration that one cannot but feel proud of our species. This incident will survive the crisis.

SHOCKING MURDER.—Richard A. Stewart, a planter in Sumter county, Alabama, was murdered, some weeks ago, and buried in a corn field by a number of his slaves. A letter from that place, published in the Mobile *Tribune*, says:

Ten of his negroes are implicated, and, with the overseer, are now in jail at Livingston.

Five of these negroes say they murdered him about midnight, killing him with a mallet; then hauled him off in his wagon and buried him; then took his horse and saddled him and led him to the back part of his farm, and there hitched him. The other five helped to bury him. The negroes implicate the overseer. A most horrid and fiendish murder, and the strong arm of the law must vindicate our lives, or we will soon have no security.

The New York *Times* says:

The bark *Jerome Knight*, of Boston, foundered at sea on the 23d ult. Captain Perkins, his wife, and two children, one of them an infant of nine weeks, and seven of the crew, were five days lashed to the rigging and on the wreck, without food or water, much of the time suffering horribly. They were all saved, however, and brought to this port on board the brig *Alteveola*. We obtain the story from Mrs. Perkins, who still remains in the city, rapidly improving from the effects of this her tenth and most unfortunate voyage to sea.

CITY INTELLIGENCE.

VANNUCCHI'S MUSEUM REOPENED.—The run on the Citizens' Bank yesterday having satisfied the timid and panic-stricken portion of the people that that institution was a perfect Gibraltar, capable of sustaining the lashing waves of any financial storm, the "run" spent itself on various places of amusement, which were consequently largely attended—among others Vannucchi's Museum. Here small deposits were very freely made in exchange for the rare sights to be seen, such as are afforded in two excellent wax representations of the noted Mrs. Cunningham, her "blessed baby," Dr. Catlin, &c., &c. We notice that a number of new attractions have been added to the very interesting stock on exhibition.

BOARD OF ALDERMEN.—This Board met last evening—Mr. Summers presiding.

The Mayor's message advising the withdrawal of the injunction sued out to prohibit the Central Board of Commissioners from appointing inspectors, &c., for the November election, was read, and laid on the table subject to call.

Various other matters, brought to the notice of the Board by another message from the Mayor, were referred to appropriate committees.

Two communications from the Surveyor were read and referred to the Committee on Streets and Landings. The first was in relation to an improved system of drainage from the city; the other gave an account of the present condition of the public wharves.

Committees of conference were appointed on several unimportant matters.

The resolution passed by the other Board authorizing the Mayor to withdraw the injunction granted by the Fifth District Court against the Central Board of Commissioners, was concurred in by a vote of 4 yeas to 2 nays.

A resolution, passed by the other Board, authorizing the publication of 1000 copies of the Mayor's message, at a cost not exceeding $400, was amended, reducing the number of copies to be printed to 300, and the cost to $100.

Various petitions were read and referred to appropriate committees. One petition was from citizens residing on Gravier street, complaining of a slave depot kept by Mr. Reeves, and asking for its removal, was ordered to be sent to the Mayor, as he has power to act in such cases.

Resolutions were adopted giving to the chairman of the Finance Committee the appointment of additional clerks for the Controller's office, and for authorizing the establishment of a pistol gallery at No. 122 Chartres street.

Various resolutions for improvements passed by the other Board were taken up and concurred in.

The Board then adjourned.

THE FISCAL PANIC.—In the Second District Court a suit was instituted against the Bank of New Orleans, on a protested note of its issue for $500, which the officers of the bank had refused to redeem. The order of the Court in the case runs thus:

"Let a writ of sequestration issue in the case as prayed for, when plaintiff furnishes bond and security, conditioned as the law directs, in the sum of $600. Let Adam Giffen, Esq., be appointed receiver to take charge of all the assets of the Bank of New Orleans, defendants herein. Let the seal of the Court be affixed upon the same until further order of the Court. Let the defendants be cited, within ten days from the service of the within petition, why the note sued on was not paid on presentation, and why, in default of cause shown to the contrary, judgment of insolvency should not be pronounced against said bank and the affairs of the bank liquidated.   P. H. MORGAN, Judge."

INQUEST.—An inquest was held yesterday on the body of Catherine Levine, a native of Louisiana, aged two years, found dead in house No. 112 New Levee street. Verdict—"Accidentally poisoned." It appears that her father had been using some aquafortis for a sore on his leg, and the child accidentally got hold of the vial or bottle and sucked from it a sufficiency of poison to kill her.

RECORDER SMITH'S COURT.—Paddy Leary is held to answer for kicking and beating Mary Dolan, in a house on Girod street.

Theodore Bodelpher is held to answer to the charge of having feloniously pocketed $200, the proceeds of biscuits which had been entrusted to him for sale by John Watson, of No. 23 Orange street.

Peter Harbarrow was fined $25 for driving a dray furiously along Tchoupitoulas street, and talking to the powers represented by a crescent and a club.

RECORDER FABRE'S COURT.—Isaac Block was yesterday arrested and sent to prison to await an examination on a charge of having broke the bar by whole Joseph Ralon's $1200 in gold from under a mattress, in a house on Main street. It will be remembered that another person was previously arrested for the same offense.

H. Marry was yesterday morning caught in the act of stealing a half barrel of sugar boxes in classes from the Sugar Landing on the levee.

RECORDER SOLOMON'S COURT.—Patrick Hussey and John W. Hartley were arrested for obtaining their respective teams together and driving them on police directions, in order to try their strength. They were requested to pay jail and pound fees.

Michael Razer had to pay a fine for disturbing the peace of a wedding, and insulting the bride by words unfit for ears polite.

F. V. Adams had to pay $5 for raising a muss on Moreau street.

Wm. Hornsby, alias Osborne, alias Hockworth, was arrested and sent to prison to await a hearing on the charge of being a fugitive from justice in two cases—one being a burglary, and the other the robbing of M. Gil..., of $1,700 in the latter part of July, 1855, over the Lake. The burglary was there perpetrated in Mr. Gottschalk's jewelry store, on the Levee, in July, 1855.

We are requested to call the attention of buyers to the sale of Brandy and Whisky, which will take place THIS DAY, at 10 o'clock, A. M., at 73½ Magazine street, in lots to suit purchasers, by D. E. Morphy, auctioneer.

Victims of Rheumatism, Read This:
CLEARPORT, Fairfield Co., (O.) June 4, 1857.
Dr. C. W. ROBACK, No. 6 East Fourth street, Cincinnati, (O.)—*Dear Sir:* This spring I hired to work on a farm during the summer, but I became so severely afflicted with rheumatism, and it disabled me so much, that I was compelled to quit work. After being confined to my room for some time, I procured of your agents in this place, Messrs. Abbott & Sons, a bottle of your Scandinavian Blood Purifier and a box of your Blood Pills, and after the use of them I was restored to perfect health. One bottle of your Blood Purifier and one box of your Blood Pills performed a perfect cure. Being satisfied that it is an invaluable remedy, I send you this to be published, if you think proper, that others similarly affected may have the benefit of my experience.
1y24   SILAS SPRINGER.

SPECIAL NOTICE.
Every person should read the advertisements of GRINDLE'S CELEBRATED MAGIC COMPOUND and ANCIENT JAPANESE LIFE PILLS, which appear alternately in another column. They are the two most successful remedies in the world! *Try them and be cured.*

DR. WESLEY GRINDLE'S
CELEBRATED
MAGIC COMPOUND,
A Positive Cure for
PULMONARY CONSUMPTION.
Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending upon an impure state of the blood.
PRINCIPAL DEPOT, NO. 54 WHITE STREET, N. Y.
Patients, the gorgeous sunshine of hope may now be realized; for this remedy not only relieves, but cures actually cure this terrible disease. But one trial will surely prove too fast. Do not fall into an early grave, when a sure remedy is at hand.
Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is the necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to arrest the disease, and when this is done, the concrete substance deposited in the tissue of the lung, technically known as tubercle, becomes absorbed leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung, the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does the work of death, unless the power of disease be checked. Now, does your remedy effect a cure? Not *generally* it does. As soon as the disease is arrested, the further matter is absorbed or expectorated and nature either furnishes the cavity with a new membrane, or the remaining portion of the lung enlarges to supply the place of the part lost, where it so large sins, its walls fall together and heal up, leaving a scar, and the remaining portion of the lung enlarges sufficiently to supply the place of the part lost; and thus lungs partially destroyed... by compensation for that which has been lost.
The medicine is a powder that, will readily prepared for using in a liquid form, according to the directions which accompany it. Dispatches are promptly made by mail and express.
PRICE—One box, $3 00; three boxes ordered at one time, $8 00; half dozen, $14 00, one dozen, or any number greater, $2 00 a box. The postage in the United States, on one box, 500 miles, is fifteen cents; in all cases the amount should be included in money or stamps. We are responsible for all moneys sent us by mail.

Chien's Bi-Sulphite of Lime.
TO SUGAR PLANTERS AND MERCHANTS.
I BEG leave to call your attention to the article of BI-SULPHITE OF LIME manufactured by me, and respectfully solicit your orders.
During the past year I have had erected on Canal street such works as will warrant me in assuring you that all the machinery necessary for making this article in perfection has been constructed, together with all the necessary buildings for storage, cooperage, &c. With such facilities, I hope to make as good, and, if possible, a better article, and ship it in better order than heretofore.
The highest market price will be paid for whisky barrels and for barrels sent to me to be refilled.

TO SUGAR-PLANTERS.
F. MARCELIN has the honor again to inform sugar-planters, commission merchants, and the public in general, that, many months ago, he has broken the partnership which was existing between Mr. Julia Bonnabel and himself, under the style of H. BONNABEL; and that he does no more manage the manufacturing of BI-SULPHITE OF LIME of the "New Orleans Southern Chemical Works."
JOSEPH ALBRECHT has the honor to announce also to sugar planters, commission merchants, and to the public in general, that the partnership which took place between Mr. Bernard and himself, under the style of BERNARD & ALBRECHT, has been dissolved by common consent.
BI-SULPHITE OF LIME OF
MARCELIN & ALBRECHT.
NEW ORLEANS MANUFACTORY OF BI-SULPHITE OF LIME, CLAIBORNE STREET BETWEEN CANAL... RAILROAD DEPOT.
MARCELIN & ALBRECHT have the honor to inform sugar-planters, commission merchants, and the public in general, that they have just erected a new establishment for the manufacturing of BI-SULPHITE OF LIME, by an entirely new process, of their own, for which they have secured letters patent, as inventors, and that they are now prepared to fulfill all orders with which they may be favored.
The late improvements introduced by them in the manufacturing of this important article, and the vast proportions of their new establishment, enable them to supply a pure article of a density from 10 degrees Beaumé to 12 degrees, if required, and in any quantity, according to orders.
The BI-SULPHITE OF LIME which they offer, manufactured by them out of the best MARBLE LIME and CLARIFIED river water, is warranted free from all foreign acids.
Their long experience in the manufacturing of this article, together with their late improvements, has placed them beyond all possible competition.
They invite all sugar-planters to make experiments to ascertain the superior quality of their Bi-sulphite, the best article to the market. They warrant it to be of a uniform density of 10 degrees Beaumé, and their warranty expresses to each and every barrel sold by them, at the uniform rate of $5 per barrel.
A long list of respectable references might be appended, but they deem it best to refer directly to the article, whose unrivaled superiority will speak for itself.
Messrs. A. MILTENBERGER & CO., No. 30 Carondelet street, UP STAIRS, are their sole agents in New Orleans, to whom sugar-planters and commission merchants are respectfully requested to forward their orders, which will be personally attended to.
Planters who wish to examine the Bi-Sulphite of Lime of Marcelin & Albrecht before buying, and ascertain its density, are requested to call at their store complete at the office of Messrs. A. Miltenberger & Co., or at the establishment of Marcelin & Albrecht, Claiborne street, near the Jackson Railroad depot.
PAUL MARCELIN,
JOSEPH ALBRECHT.
N. B. Planters wishing to return their empty barrels will be paid, on shipping the same to the consignment of Marcelin & Albrecht, New Orleans, through the captain of the boat, the highest cash market price for each barrel returned in good order.

BONNABEL'S
BI-SULPHATE OF LIME.
THE proprietor of the NEW ORLEANS SOUTHERN CHEMICAL WORKS, anxious to disappoint none of the regular customers of the establishment, is compelled, in view of the difficulty anticipated of finding the unprecedentedly large orders that are being daily received, to inform all the old patrons of the SULPHATE OF LIME manufactured at the Southern Works, that unless they send in their orders early, so as to secure them an eligible place on the order books, some disappointment may be experienced in their forthcoming supplies. Already preparations have been completed at the Works to make sure of having at least TWENTY THOUSAND BARRELS of the BI-SULPHATE prepared; but even this quantity would seem to be insufficient, so unusually heavy are the orders received from old customers, and many new ones, who heretofore have either not employed this most valuable defecator, or have procured it from other manufacturers.
The strength of the BI-SULPHATE now being manufactured at the Southern Chemical Works of H. BONNABEL will be found uniform and of greater strength than at any other period, no pains or expense having been spared to bring this invaluable chemical product to some perfection; and in order to make it worthy of the high character the Southern Works have already acquired with the sugar planters of the State.
Planters desirous to have the GENUINE BI-SULPHATE OF LIME, manufactured at the Southern Works, should specify it particularly in their orders through their merchants, or address themselves direct to

TO FAMILIES.
BALSAMIC AND PECTORAL SYRUP.
THE excellent effect of the Balsamic and Pectoral Syrup induces us to recommend it to all those afflicted with the following diseases, either acute or chronic: Inflammation or irritation of the throat or chest, colds, hoarseness, coughs, bronchitis, pulmonary phthisis, pleurisy, spitting of blood, &c. It is also an invaluable remedy for cutaneous diseases, such as erysipelas, measles and the small-pox. Its pleasant taste, together with its indisputable efficacy, has caused it to be preferred to all other syrups used in the same cases.
The Antophthalmic Salt, the Vegetable Powder, and the Castor Oil Syrup, the effects of which are already known, are for sale at the same drug store.   HENRIQUEZ,

ANTHRACITE COAL
AND
Martin's Self-Weighing Carts
COAL   SPENCER FIELD & CO.
Are now receiving, per ships Tempest, Hannah Crocker, &c.,
Steel and Peachmond, 1500 tons of the following kinds of Lehigh and Schuylkill Coal, viz.: COLERAINE, BEAVER MEADOW, SWATARA, LOCUST MOUNTAIN, PEACH ORCHARD and SPOHR VEIN. The two first are White Ash Lehigh, of the very best quality, the others are Red and White Ash Schuylkill prepared, egg, nut, for stoves, grates and ranges. The Swatara and Spohr Vein are entirely new to this market, are a pure red ash coal, and have been thoroughly tested by experienced persons. One of these varieties, as best adapted to this climate, as they are free burning, igniting speedily and also durable; and for kitchen and steam use superior to the other coals. The above list of coals, although of different names, are essentially differing otherwise, are all of the purest quality, and for their several purposes each one we will recommend most.
In connection with the above we will introduce
Martin's Self-Weighing Carts,
THE GREATEST INVENTION OF THE AGE.
These carts weigh their own load at the door of the consumer, and give every one the satisfaction of seeing the weight they carry, can be tested by any one, on the street or elsewhere, at any moment. They are simple in construction, and highly so finished; they are constructed of good material, with iron axles, and resting on springs, will not grind up the coal into dust and render it partially useless to the consumer. The unknown fraud is detected and the weight they carry is guaranteed. In short, their superiority over any thing of the kind ever yet known is evident at sight; consequently they need no puffing. We therefore leave the cart itself to stand on its merits.
All coal delivered with these carts will be sold by the ton of 2000 lb. Purchasing as well as Anthracite, and always at the price.
