MANDEVILLE COLLEGE.

THE reiterated requests of many of the parents who have their sons in the Orleans High School, together with the following reasons, induce the undersigned to remove to the establishment well known under the name of Davis' Hotel in the town of Mandeville.

The reasons are:

1st—The uninterrupted salubrity of Mandeville.

2nd—The great disadvantage under which boarding pupils labor in the city from their contact with day scholars.

3rd—The well known advantages which the country possesses over the city for the location of an institution of learning.

The undersigned believes that these reasons require no laboured argument to prove their soundness. They will speak for themselves to all persons who are acquainted with mixed schools, and who know how often the labours, even of the most conscientious teacher are foiled, when compelled, by his position to admit to his private school children from all classes, and frequently brought up under the most unfavorable circumstances. This opinion the undersigned has frequently expressed to many of the patrons of the High School, before he had any removal even in contemplation.

The instructing officers of the College are:

LEWIS ELKIN, Professor of Mathematics, Principal and Proprietor.

Dr. DUNCAN MACAULY, Professor of Latin, Greek and English.

J. C. POIRIER, late from Lyons and Juilly Colleges, Professor of Latin, Greek and French.

FELIX PERRIN, late from Paris, Professor of French.

ZENON GORA, Teacher of Music and Drawing.

The Boarding Establishment is under the charge of Mrs MACAULEY.

Knowing the importance of a well selected body of Professors, to ensure the success of his enterprise, the undersigned, after careful and deliberate reflection, has made choice of the above named gentlemen. He begs the subscribers and the public in general, to extend the confidence hitherto manifested with regard to himself, to his collaborators. Were they not fully worthy of it, in a moral as well as literary point of view, neither the interest of the Institution nor his private feelings would allow him to demand it.

With these few remarks, I offer Mandeville College to the kind consideration of enlightened parents.

LEWIS ELKIN.

FIRST MUNICIPALITY STEAM FERRY FLOATING BATHS.

THE public is informed that this establishment will be opened for the season on Sunday, May 19th, 1844, on the other side of the river, within a few paces of the landing of the Ferry of the First Municipality. The accommodations offered to the bathing community will be such as have never been equalled by any similar establishment in this city.

The dimensions of the bathing room, or basin, are: 140 feet in length by 40 feet in breadth, with a depth of water of from 2 to 12 feet; 150 feet of this basin is of a sufficient depth for almost any number of swimmers—each bather will be furnished with a separate dressing room, &c &c.

There are two spacious promenade decks extending over the whole bath, covered in with awning, which will afford an agreeable resort to the bathers and public at large, they being supplied with a Bar and all kinds of refreshments.—It is scarcely necessary to observe that the site chosen for the Ferry Baths, secures the double advantage of a rapid current of water, unsoiled by any contact with the impurities of the city and of the shipping.

Tickets will be sold at the Bathing Establishment for the sum of 15cts—so as the ferry over and back with the bath will cost but 20cts. Boy's tickets 10 cts. The promenade decks are open to the public are of charge.

PROFESSOR DE BONNEVILLE,

[Late of Harvard University, Cambridge,]

HAVING devoted his whole attention to the subject of ANIMAL MAGNETISM, respectfully informs the ladies and gentlemen of New Orleans that he will deliver a Course of Lectures on this so called Mysterious Science, and that he will strip it of all the terrors and absurdities thrown around it by the misrepresentations and preconceived opinions of men.

The course will be of SIX LECTURES, which will be divided as follows:

FIRST LECTURE.

Give a full History of the Science of Magnetism—Teach how to Magnetize with success—Magnetize several persons, and perform Experiments of the most startling character, to prove the reality of the Magnetic Condition.

SECOND LECTURE.

A Defence of Magnetism—a Lecture on the temperaments or Mental Dispositions of Man, with illustrations, showing who can become a Proper Magnetizer—A demonstration of the Physical Phenomena produced on Man whilst in the magnetic state or the natural state. These Phenomena must be seen to be believed.

THIRD LECTURE.

A demonstration of the truth of Phrenology by Magnetism Plurality of Organs or Nerves in the Brain, demonstrated by Experiments—Magnetic Somnambulism, proving most wonderfully a medium existing between spirit and Matter.

FOURTH LECTURE.

The cure of Nervous and other Diseases by Magnetism—Explanation of the modus operandi. Fever and Ague, ecstacy, Epileptic and Apoplectic Fits produced and cured instantaneously ☞ Persons with weak nerves are requested not to attend this lecture.

FIFTH LECTURE.

On Neurology and Pathetism—giving a history of these branches of Magnetism, and illustrating them by very curious Experiments—Examination of the phrenological Disposition of any person present, without touching the head.

SIXTH LECTURE.

On Clairvoyance—Clear sightedness, or the Scotch Second Sight, giving an exposition of the facts which happened when persons are placed in the Magnetic state.

☞ This Lecture will be ended by the most fascinating experiments performed through the will of the Magnetizer on some of the most respectable citizens residing in this city.

WANTED—A Professor of the English Language—Apply at No ... Chartres street.

FORMERLY THE BELLANGER INSTITUTION, DIRECTED BY L. SIRET.

No. 129 Barracks street, on a spacious and airy piece of ground.

MR LOUIS SIRET, for the last three months Director of this institution, deems it now proper to make known the plan of studies he has adopted in his Seminary.

He is disposed to preserve, as far as practicable, a juste milieu between the hot house system of instruction which, by the ephemeral results, too frequently evanescent in such schools, and the ordinary modes too rigidly and injudiciously adopted in Europe which are ... carried out without due regard to the diversity of vocations and capacities.

In the course of studies already begun or about to be begun—a course which each family may pursue just as far as it may suit them, pupils will find as well in English as in French lessons graduated upon all subjects pertaining to a primary or secondary course of Elementary instruction:

Grammar,	Mathematics;
Geography;	Greek and Latin;
History	Literature, &c.

In the space of six or seven years, the entire circle of studies may be requisite to ensure the degree of Bachelor of Arts, which constitutes the natural and necessary term of a thorough education. Mr Louis Siret hopes that he may thus be enabled, in some degree, to diminish the exile of a number of young men destined for the study of medicine and law, by preparing them in advance, according to the programme published by the University of France, for the examination which must precede their admission to the superior schools.

TERMS:

Elementary Studies, 1 year		$40
Primary	do	5 do
Secondary	do	6 do
Half boarders will pay		
Full boarders (washing included)		25

For further information, apply at the Institution, between the hours of study, i.e. from 1 to half past 2 o'clock, P. M. m8

ORLEANS HIGH SCHOOL—LYCEE D'ORLEANS, Esplanade Street.

THE undersigned, proprietors and directors of the High School, beg leave to inform the patrons of the institution that the rumors lately circulated respecting the removal to Mandeville, is utterly destitute of foundation. In the language of their first prospectus, they feel the permanency of their institution to be of the highest importance to parents, and this principle is now strengthened by the liberal patronage extended to the School during the present year. Professor Elkin, their late partner, being about to leave the institution, the proprietors have secured the services of Professor Macaulay long known as an efficient teacher, and successfully in this city. This gentleman will furnish his valuable assistance to the Directors during the greater part of the day.

The proprietors, who, according to their original plan, devote a large portion of their time to instruction in the school, will continue to be assisted by Messrs R le Tuenier, Professor of Spanish and English; Mr ... Varney, Professor of Music, Jaume Professor of Drawing; Duvert, Professor of Dancing, and by a sufficient number of ushers.

The printed statutes and regulations of the High School may be had in Esplanade street and at the Book stores of J B Steel, V Hebert, A Moret, and Mme. St Rene Delaupay.

Communications must be addressed to one of the undersigned proprietors. ERASTUS EVERETT,
