A CARD.

Embalming the Dead

P. CASANAVE,

UNDERTAKER,

No. 97 Marais street, between Customhouse and Bienville. (Second Instant)

HAVING purchased from Dr. HOLMES, of New York, the right of EMBALMING THE DEAD by his celebrated process, not only in the city of New Orleans and its environs, but also on the other side of the Lake, informs the public that orders will be attended to at all hours, by day or by night. He is quite informed of the opportunity to assure the public that the bodies are not opened, nor in any manner whatever mutilated, but remain in their natural state.
He has had a large tomb erected in Cemetery No. Two, Bienville street, similar to those in Greenwood Cemetery, New York, and in Mount Auburn, to receive temporary embalmed bodies previous to their being taken to interment in other cemeteries. The bodies may be embalmed within eight or ten days after death. Relatives and friends of the deceased will be admitted to the inspection of the body embalmed. nov29 ly

DR. WESLEY GRINDLE'S
(CELEBRATED)
MAGIC COMPOUND,
A POSITIVE CURE FOR
Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Chronic Diarrhœa, Bronchial Affections, Diseases of the Urinary Organs, Chronic Rheumatism, General Debility, and all diseases depending upon an impure state of the blood.

PRINCIPAL DEPOT, NO. 54 WHITE STREET, N. Y.

Patients, the prospect sunshine of hope may now be realized; for this remedy not only relieves, but in many instances cures the most dreadful disease. But one trial will surely prove the fact. Do not fail into an early grave, when a sure remedy is at hand.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, the four medicine restore a patient to health, when that disease has entirely destroyed, leaving a cavity? We answer, certainly not; neither is it necessary in order to effect a perfect cure. If the tubercles have been diagnosed in scrofula, but little or no portion of the lungs is lost. It is necessary only to arrest the disease, and when this is done, the concrete substance deposited in the lungs of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little cancerous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation, the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the ulceration, if a portion of the tissue is the result, a cavity is formed which enlarges and does its work of death, unless the deposit of tubercle arrest. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the fluid matter is absorbed or expectorated, and there remains the cavity with a lining membrane, or what is more common, where it is of small size, the sides fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through all the animal economy, becomes more strong, what enlarged, takes on increased action, and sustains the function for that which has been lost.

The medicine is in a powdered state, but readily prepared for using in a liquid form, according to the directions which accompany it. Dispatches are promptly made by mail and express.

Price one dollar per box, $3; three boxes, or forwarded at one time, $8; half dozen, $14, one dozen, or any number greater, $2 a box. The ingredients are from the United States, not over 3000 miles, a 15 cents a box. In all cases the amount should be forwarded in the usual manner. We are responsible for all money sent to us.

AMERICAN
AROMATIC BITTER CORDIAL

THIS CORDIAL, whose delicate flavor and aroma are unsurpassed, is the most agreeable tonic and restorative known in cases of general debility and nervous complaints; it restores the appetite, invigorates the system and tends to the health of the aged, and thereby prevents dyspepsia, so often brought on by sedentary habits, or indulgence in the social conviviality of hot and humid climates. Said Cordial is recommended as the most efficacious to the infirm and the aged, by following the directions for which will be found on the label of each bottle; and its agreeable taste is not the least of its recommendations.
This Cordial has been introduced into general use in the principal cities of the houses of this city, such as Messrs. Cazenave, Roche, Ryan, Ricard, and Bernard, Baker's Chemical Bitters, so celebrated throughout the United States of America, and it will fall together and leave a scar, and the remaining portion of the lungs, the respiratory apparatus, true to a law running through all the animal economy, becomes more strong, what enlarged, takes on increased action, and sustains the function for that which has been lost.
The medicine is in a powdered state, but readily prepared for using in a liquid form, according to the directions which accompany it. Dispatches are promptly made by mail and express.
Price one dollar per box, $3; three boxes, or forwarded at one time, $8; half dozen, $14, one dozen, or any number greater, $2 a box. The ingredients are from the United States, not over 3000 miles, a 15 cents a box. In all cases the amount should be forwarded in the usual manner. We are responsible for all money sent to us.
