PIANOS.

H. GAUDIN, MANUFACTURER OF PIANOS. [illegible] from Paris, an assortment of [illegible] Pianos, from the factory of Kriegelstein, manufacturer for the King and shared with the furniture of the Crown. Mr. Kriegelstein has received in 1844, a premium of Gold Medal by the Great Jury of Arts and Mechanics. Mr. Gaudin, during a residence of ten consecutive years in New Orleans, has studied all causes of the derangement of that instrument in this country, and has communicated his observations to Mr. Kriegelstein, who has put them to profit. To prevent that derangement, he uses an iron armature, which takes the instrument in the whole height, and upon which the strings are fixed; that amelioration gives to the instrument a great solidity. Besides, he has neglected nothing as well for the beauty of sound as for that of the furniture. His pianos are splendid, 3 strings, 6 octaves ¾ finely [illegible] notes.

GAUDIN will warrant his pianos for one year, and if during that time some accident happens either in the mechanism or to the piano itself which could be attributed as a fault in fabrication, he engaged himself to take it back and repay the money. He invites the gentlemen and ladies to call and examine his instruments, at No. 125 Royal street, between St. Louis and Toulouse streets.

☞ He repairs and tunes pianos, and exchanges them. nov24-3m

Messrs. J. PAIVRE & B. ALLOVON, *Already known by the invention of their* IMPROVED SYSTEM.

Incontestibly superior to any ever exhibited before to-day, which their rivals themselves cannot deny, INFORM the public that they now have a fine assortment of Pianos of all kinds, which they will sell at lower prices than all the establishments of this city.

Mr. Allovon having lately gone to France to increase their stock of Pianos, already very considerable, but which the great expense rendered insufficient, now offer to their numerous customers a magnificent assortment of Pianos with elongation of seven octaves, hollow and straight, of seven octaves, of iron of their make, with which no other Piano can struggle as to solidity, tone and melody.

Some manufacturers in France wished, by the counsels and fancied exhibitions of merchants of this city, to try and come as near as possible to this excellent iron system, so well appreciated by the people of Louisiana, and which those gentlemen hope will make the enormous difference between their Pianos and the imported ones.

Besides the varied assortment of Pianos made by those gentlemen, we have excellent Pianos of Erard and Pleyel, like those of the self called iron system of other merchants.

To Let, A large assortment of Pianos of all prices. Conti street, No 46, between Chartres and Royal streets.
