The happy results obtained by its usage in the affections of the lungs and consumption, have rendered it invaluable.

This paste has the power of calming irritations of the lungs immediately, facilitates the expectoration, and stops the cough. It is one of the best remedies in colds, catarrhs, &c., which yield immediately to its effects. Physicians of the best standing in Paris have tested its effects in many cases, and have recommended its use in all lung affections, and cases of consumption as the best remedy now known.

There is an entrance in St. Louis street, near the vestibule of the Exchange and Rotunda, and the main entrance is in Royal street through a handsome vestibule with a large winding stair way leading to the upper part of the building.

The second floor is comprised of one large dining room or ordinary 95 feet in length, 40 feet wide and 19 feet high.

One ladies dining room or ordinary, and one parlor, each 42 feet by 31 connected by large sliding doors 23 feet wide, two small rooms in the rear, divided by a passage, leading from the ladies rooms above described to the stair way in St. Louis street, also the splendid ball room over the exchange, but which does not form part of the premises to be leased.

GUILD'S PATENT COOKING STOVES CALLED "QUEEN OF THE WEST."

THE undersigned, agent for the sale of this article, for the first time introduced to the notice of the New Orleans public, begs leave respectfully to solicit public attention thereto.

He refers to the subjoined flattering testimony as to its economy, neatness and general utility.

We, the subscribers, having used for some time Guild's Patent Cooking Stove, called the Queen of the West, feel no hesitation in giving our unqualified testimony in its favor. For neatness, convenience, economy and general usefulness, we think it surpasses any other cooking apparatus that we have seen in use. It seems to have supplied one great desideratum not heretofore attained—an oven, capacious, and at the same time heated, and truly and equally on every side—and the fire being placed over the oven brings the heat immediately in contact with the boilers, so that it performs all the different offices of boiling, baking, broiling, and heating smoothing irons at the same time, and with the least possible quantity of fuel; and the different sizes manufactured are capable of supplying the wants of all, from the smallest family to the largest hotels and steamboats.

LIFE INSURANCE.

OCEAN INSURANCE COMPANY.—The absence of any institution in this city for insuring lives, and the extravagant rates of premium demanded by the northern and European companies for granting life policies to persons residing in Louisiana, have determined the Board of Directors of this Company to put into operation that clause in their charter which authorizes insurance upon lives, on a scale of premiums which will enable every one who is in receipt of a moderate annual income to secure for those who are dependent on them a comfortable provision in case of their death.

The scale determined on is, as nearly as possible, the average of those adopted by the London offices for insuring lives in England, no addition whatever being made for difference of climate, and by this scale an annual premium of twenty dollars paid by a person 25 years old will secure the payment of one thousand dollars to his assigns should he die within the year—an annual premium of one hundred dollars will secure five thousand dollars—and so on in proportion for any larger amount.

The Company will issue policies for any term from one to seven years and the premium can be paid quarterly, half yearly or yearly.

Any further information that may be required will be furnished on application to the office No. 36 Camp street, corner of Gravier street.

By order of the Board. GUS. BRIGGS, Secretary. m3

CARROLLTON ACADEMY.—The subscribers have the honor of announcing to the heads of families in Orleans and Jefferson as well as the adjoining parishes, that on the second of November next, the above institution will be opened, under their superintendence, for the reception of boys, both as boarding and day scholars. They pledge themselves that the most zealous attention shall be devoted to their moral and intellectual improvement.

The local advantages of Carrollton are well known.—They have secured the spacious house owned by Mr. Kohn—the garden and premises are extensive, and the establishment in every respect admirably adapted for the object they have in view.

As the institution will be strictly preparatory, they propose limiting the age of pupils to twelve years. The advantages of this arrangement, parents will at once appreciate.

Preparations will be made, as early as possible, for receiving girls, both as boarding and day scholars. The same strictness in points of age will apply to both departments.

The academical year will be divided into two sessions, the winter term commencing on the 1st of January and ending on the 30th of June, and the summer term commencing on the 10th of July and ending on the 24th of December.
