HEALTH RESTORED!

TARRANT'S CORDIAL ELIXIR OF TURKEY RHUBARB

FOR THE CURE OF DYSPEPSIA OR INDIGESTION, BILIOUS AND NERVOUS HEADACHE, CONSTIPATION, DIARRHOEA, GOUT, RHEUMATISM, GRAVEL, FLATULENCY, &c.

THIS PREPARATION is made from the best Turkey Rhubarb, and possesses all its valuable properties, combined with such aromatics as will be found materially to assist in its operation, and is thereby rendered an exceedingly useful medicine in a variety of affections where a cordial aperient is deemed requisite.

As a medicine, Rhubarb (the Turkey) has for a considerable period held a high place in the medical world, and has thus far proved itself eminently deserving its great reputation, through the valuable properties universally conceded to be peculiar to it, when procured in its pure state.

In cases of Dyspepsia or Indigestion, it is an invaluable remedy; and as a preventive of the various distressing ailings from that very disagreeable complaint, holds a high place in the estimation of the medical profession.

In cases where griping pains affect the stomach and bowels, this preparation is strongly recommended, whilst as a gentle aperient it will be found a good carminative in relieving Flatulency. To persons afflicted with Gout, (and it has enjoyed high praise from those who have already experienced its good qualities;) it is confidently offered as it can at all times be taken when a cooling purgative would otherwise be attended with danger.

This preparation cannot be too strongly recommended to the many thousands now suffering from Dyspepsia or Indigestion, and its consequences, Bilious and Nervous Headache, Diarrhoea, Constipation, Gout, Rheumatism, Flatulency, Gravel, &c, as the utmost reliance can be placed on it, both as to its innocent nature and highly curative qualities.

Prepared and sold wholesale and retail, by JAMES TARRANT, Druggist, &c., corner of Greenwich and Warren sts, New York.

ALSO, by SICKLES & Co, Wholesale Druggists and Apothecaries, No. 40 Canal and 24 Magazine sts., Agents for the Proprietor.

SANCTIONED AND PATRONIZED BY THE MOST EMINENT OF THE MEDICAL PROFESSION.

"By merely pouring water on a tea-spoonful of this Aperient, a cooling and grateful effervescing beverage is obtained, resembling Soda Water to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer Waters of Germany."

TARRANT'S EFFERVESCENT

SELTZER APERIENT.

"Of all prescriptions made up with a view to alterative effect, none can be compared with Mineral Waters."—Jones Bell, M. D., F. P., &c.

"These waters revive the languishing circulation, give a new direction to the vital energies—re-establish the perspiratory action of the skin bring back to their physiological type the vitiated or suppressed secretions, provoke salutary evacuation, either by urine or stool, or by transpiration; they bring about in the animal economy an intimate transmutation—a profound change."—Patissier.

MEDICAL MEN of eminence commend in the highest terms the preparation known as "Tarrant's Effervescent Seltzer Aperient." Could the numerous flattering testimonials which its successful and valuable medicinal powers have elicited from the most distinguished Physicians be here submitted for inspection or would the columns of a newspaper permit their insertion, proofs of its efficacy Undeniable and Unimpeachable would be exhibited, to satisfy the incredulous and dispel the doubt of even the most sceptical, and it would stand forth to the world in triumphal success, (as in truth it is) the most agreeable, refreshing and effectual medicine ever offered for the cure of those diseases which are engendered under the heat of a Tropical Sun. In the practice of Physicians this Aperient has entirely superseded the Seidlitz Powders on account of its superior medicinal properties—its mild though sure effect upon the system—its agreeable flavor and the certainty of its positive preservation from dampness. The ease and quickness with which the Seltzer Aperient may be prepared—its delightful effervescence and gentle action upon the bowels are qualities which likewise claim for it a superiority and must without fail, enlist in its favor the friendship and patronage of all who have ever tested the beneficial operation of this deservedly celebrated Aperient. The unanimity with which medical men join in its praise, is a sure guarantee that it is deserving of the character they have given it in the numerous testimonials received by the proprietor.

Its success in Bilious Affections, Dyspepsia or Indigestion, Heartburn, Febrile Disorders, Gout, Acidity of the Stomach, &c, and all the various complaints caused by the sudden changes of temperature, so usual in warm latitudes has been so great, that it has been highly recommended and has been in consequence been generally prescribed, and the most satisfactory results have invariably followed. In a torpid state of the Liver, its action upon the system has been so beneficial that its energies have been revived and strengthened restored.

Planters and residents at a distance from medical advice, will find the Seltzer Aperient an useful and in fact an indispensable addition to their medicine chest, and would obtain by its introduction into their families, a remedy possessing high medicinal properties and which would in the various ailments natural to their climate exert a salutary influence upon the system debilitated by the excessive heat, and restore the languishing circulation to an active and healthy condition. Its virtues have been found wholly unimpaired even on shipboard, nor have they been lessened in any climate to which it has been sent. This is a valuable property and deserves the careful notice and attention of travellers and others.

In the Seltzer Aperient, such improvements have been made as are calculated to increase its efficiency by the addition in greater quantities of those ingredients, which impregnate the original spring, and which are esteemed the most valuable, and the process by which it is prepared is one which [illegible] the most approved [illegible], found in every respect superior [illegible] superior in more health restoring than the natural waters.

Creole Table Mustard.

PREPARED BY LARROQUE.

THIS Mustard is, both in taste and odor, of the most pleasant kind, and has over all other preparations of this sort an indisputable superiority. In the first place it is in no way heating, which is a very just cause of complaint in other table mustard. 2d—It stimulates the appetite. 3—This preparation does not contain any ingredients capable of neutralizing constituent parts of the mustard seed, (Sinapis Nigra) which most of the manufacturers are ignorant of and do not scruple to add to their preparations, very strong acids, and the most alkaline salts. Some even go so far as to make use of mustard of which the most essential oily substances are extracted and make up for the deficiency with other ingredients, and give to its worthless powders an artificial tart by adding to it carbonate of ammonia and strongly spiced substances. You can detect the same so injurious to health, by the long continued heat it leaves in the throat and palate, whilst the tart of the genuine article is almost as soon enjoyed as felt.

G. BOYER'S

CLASSICAL AND COMMERCIAL INSTITUTION,

No. 145 Conti Street,

(between Dauphine and Burgundy streets.)

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation, a considerable number of pupils who have quitted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education, from primary instruction to the more abstruse subjects which are specially the province of a collegiate course. Discipline as necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its intercourse with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more requisite as of the greatest possible importance to all living in this community, is, to Boyer's Institution, an object attended to with more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long accustomed to Tuition.

BRANCHES OF TUITION:

The English, French, Spanish and Latin Languages, History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c &c.

TERMS:

Boarders	$20 per month.
Half Boarders	13 "
Day Scholars	5 and 10 per month

No deduction is made for absence. A month's fees must be paid in full. Books, paper, &c form separate charges.
