THE INDIAN'S PANACEA, for the cure of scrofula, king's evil; incipient cancers, syphilitic and mercurial diseases, particularly ulcers and painful affections of the bones; ulcerated throat and nostrils; ulcers of every description; rheumatism; sciatica or hip gout; fever sores or internal abscesses; fistulas; scald head; scurvy; biles; chronic sore eyes; erysipelas; cutaneous diseases, chronic catarrh and headache, from particular causes, pain in the stomach and dyspepsia, proceeding from vitiation; affections of the liver, chronic inflammation of the kidneys and general debility, caused by a torpid action of the vessels of the skin. It is singularly efficacious in renovating those constitutions which have been broken down by injudicious treatment or juvenile irregularities. In general terms, it is recommended in all those diseases which arise from impurities of the blood or vitiation of the humors of whatever form or kind.

The proprietor of this valuable medicine acquired his knowledge of its ingredients from a long residence among the aborigines of this country, and it is a selection from the most approved and successful medicines which they use. It is offered to the public by the proprietor with the consciousness that he is placing within their reach a remedy capable of relieving many of his afflicted fellow beings who are suffering under various chronic and obstinate complaints to which it is applicable. To such it will prove the means, and in many cases, the only means of relieving their sufferings, and restoring them once more to health and happiness. This is not offered as a common remedy that may perchance be equally good with many others now in use, but one which is capable of saving life in many extreme cases, when all the usual remedies fail. This it has done repeatedly, and this is the reputation it has obtained wherever it has been introduced.

This medicine has been found highly useful in many ambiguous diseases not here specified, and it has been used with wonderful success as a spring and fall purifier by those who are subject to various complaints, and whose constitution requires invigorating. Whenever a diet drink is necessary, this panacea, taken in small doses, will answer all its purposes in much less time, at less expense, and in a far more agreeable manner than the common diet drink.

The following certificate, out of hundreds similar which might be produced, are given to show the effect of the Indian's Panacea in the various complaints therein mentioned, and also to exhibit in the most satisfactory manner its superiority over other similar preparations.

Case of Ulcerated Throat, Nostrils, &c.—Charleston, Jan. 20, 1832.—This may certify that I was afflicted with a scrofulous disease for several years, ... employed several eminent physicians ... and Charleston, and also took ... bottles of Swaim's Panacea, but all without permanent benefit. During the last winter I was taken with an ulcerated throat, which soon became so severe as to prevent my taking sufficient food to sustain life. I remained in this situation several days, emaciated and threatened with absolute and unavoidable starvation—when, as a last resort, I had recourse to the Indian's Panacea, and found from it almost immediate relief, recovering so rapidly that in four weeks I found myself quite well as I have remained ever since. ANDREW COZIER, King street.

BY J. A. BEARD. ALABAMA CITY LOTS. 1000 Lots, to be sold without reserve, on Saturday, 6th May 1840, at the St. Louis Exchange, at 12 o'clock.

THIS city is situated on the West side of the Bay of Mobile, on the Red Bluffs, about 16 miles from the city of Mobile, and six miles below Dog river bar. The ground is elevated from 30 to 40 feet above the level of the bay. It is abundantly provided with springs of the purest water; there are no swamps of marshes either in the city or its neighborhood. During the last four years, since the work has commenced, the epidemics, so fatal to Mobile, have not visited this neighborhood. This site is, moreover, very important in a mercantile point of view, offering as it does greater advantages than can be found at any other point on the South. The State of Alabama is increasing rapidly; its population is daily increasing, and their wants require a good sea port. Alabama city must therefore, become a place of importance. Situated at the entrance of the bay, ships drawing 14 feet water can reach it without obstacle. From the shore to the distance of 40 yards, we find a hard bottom and about 10 feet water, and after that distance, there is a soft bottom, and the depth of the water gradually increases to 13 and 14 feet at low tide. The products of the upper country, which descends to Mobile, can easily be brought to this place, as steamboats can go there at all times.

Vessels, on the other hand, can receive their cargoes at the city of Alabama, in more safety and at much less expense, than at their present anchorage. A dock 12 feet wide, of uniform depth, has been made, and a commodious wharf and rail road have also been constructed, so as to give an idea of the important and useful works already completed, and others of an important nature to be made with the proceeds of the sale.

The population increasing, we shall see railroads made to communicate with Montgomery, and other places in the interior of the State, for the purpose of transporting the rich produce of the soil at all seasons of the year.

A rail road can easily be made to Pensacola, as the ground lying between that place and Alabama city, is very level, and there is a distance of only 42 miles. This rail road would join the road now constructing between Pensacola and Brunswick, and thus afford a speedy and safe communication with the Atlantic.

Notwithstanding the present deranged state of affairs; with the conviction that advantages so important as this site offers, will not escape the attention of our enterprising community, who are aware that "perseverance and industry surmount all difficulties." The managers of this project intend to offer a part of these lots at auction, to be sold without reserve.

The conditions are for all sums under $100, cash; from $100 to $200, 1-3 cash, 1-3 at six months, and 1-3 at twelve months; upwards of $200, 1-3 cash, 1-6 at six months, 1-6 at twelve, 1-6 at 18, and 1-6 at 24 months; in notes endorsed to the purchaser's satisfaction, payable and negotiable at the Citizens' Bank of this city.

Purchasers will be charged $1 per lot for being put in possession of the same.

The lines of the lots will be given in all the month of June. Acts of sale to be made at the expense of the company. m4
