MEDICAL.

FOR FEMALES AND MALES.
"Be not beautiful and Healthy."
Dr. Lorenzo's Pills, No. 50 POYDRAS STREET.
Dr. Lorenzo's Sarsa Compound, Cheapest, Preferable Sarsa.

THIS is the only secret remedy ever discovered for impoverished blood, debility, nervous sensitiveness, and all diseases occasioned by certain habits, for many of the medicines generally recommended for the complaints are worthless imitations which in unrivalled elegance, have recently been brought into the market. The medical faculty of Europe and the United States are unanimous in their recommendations of the Jura Cordial, and have not given their sanction, in a single instance that has been authenticated, to any compound for the same purposes. The nature of the maladies relieved by the Jura Cordial are greatly such as to leave the publication of certificates of cures out of the question, or the proprietor could produce a host of the most conclusive testimony to show that the great reputation that it enjoys was not accidentally obtained, but is firmly based upon its positive, and apparently miraculous virtues. In all healthy offspring, who would not have been an hour for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Objection has been naturally made to the price of the Jura Cordial, because the trash that has sold cheaper; but the fact is, the Cordial cannot be afforded for less, and ought to be much dearer, as many of the ingredients which compose it are among the costliest things in nature, whereas the others are made up of cheap drugs, worth but little in money, and less in merit. We assure the reader that the utmost reliance may be placed on the Juno Cordial in the cure of the maladies mentioned below, and also of those which follow, viz: loss of muscular energy, physical lassitude and general prostration, irritability, and all nervous affections, indigestion, derangement of the liver, gleet, or leucorrhoea or whites, and fluor albus, and every disease in any way connected with the disorder of the procreative organs, Fantasiones and Velvets.
