CERTAIN CURE FOR CONSUMPTION, COLDS, BRONCHITIS, WHOOPING-COUGH, ASTHMA, AND CONSUMPTION.

Many years of great, constant and increasing demand for this remedy, is the best testimony we can offer, for it can speak for itself. Its wonderful cures have caused it to be universally esteemed and extensively used throughout the world. While many of the diseases for which it is recommended are of a character to baffle the skill of the most learned physicians, it is a fact well known to many, that in every city, town and parish, there are some who have found it a sure remedy for their complaints, and who, from gratitude for the benefit they have received, and from a desire that others may also be benefited, have given their testimony in favor of the CHERRY PECTORAL, from time to time, for publication, until the catalogue of its cures has become so long that it would be impossible to insert it in any ordinary advertisement. We, therefore, publish only a few of the most recent and remarkable cures, which have occurred in our immediate vicinity, and which we know to be well authenticated.

While it is a fixed rule with the proprietors not to publish any certificate which they have not every reason to believe to be genuine, and which they have not every reason to believe will do good to those who read it, they feel that the CHERRY PECTORAL does not only so a remedy which has proved invaluable to them in their own families, and which they know to be the best medicine they can recommend to their friends and neighbors.
