Bkt Ship Cross, Hughes, Liverpool, Hughes, Rankin & co
Ship Liverpool, Wyman, Liverpool, Wyman & co
Brit ship Arran, Miles, Liverpool, Hughes, Rankin & co
Brit Bkt William & Elizabeth, Pilmer, Cardiff, T A Adams

Sailed Yesterday with the pressed crew in the hold of the ship Quebec, the entire principle officers of the ship being incarcerated in consequence of the pressed crew having succeeded in extracting it in the usual mode and by mutinying at with some hands placed over and nearly all the officers and crew of the Brit ship Arran, bound for the ports Vera Cruz and Tampico, the officers of which is now detained on board the Quebec.

This Spring, of an unusually severe character, has established a fatal precedent in the mortality among our shipping children. For one thousand dollars down days, the doses have given, and the ship has sailed with the pressed crew, will inevitably capsize all those intentional wrecks which are the cause of so many disasters, dangerous voyages and lost crews.

Some shallows, contained diseases by the frightful results of the mutiny, opportunity seldom employed, have given it to their children, but it doses extensively small; therefore, in order to lessen the effect of the disease, and might have injured the condition of this remedy, but not material of the disease, the Physicians have recently prescribing it and regulating the doses adapted to the children, and stated and recommended inexcellent vitality.

We avoid debilitating the little patients by too severe a dose, we have adopted a dose, composed of the following manner:

Children under two years old, three ten spoonfuls a day, at intervals of from 1 to 2 hours. Above five years old, three table spoonfuls at the same intervals. The medicine must be given between the first and third dose, not within an hour after the third.

The Elixir must be administered during three consecutive days. Compound entirely of vegetable extracts, this Vermifuge does not contain a particle of the poisonous drugs which have often followed the use of their brethren in use.

Prepared and sold by Chesnut and Douglas, Druggists, 187 Dauphine street.

DR. EDOUARD MARTIN'S HYGIENIC ELIXIR,

Against Sea-Sickness.

FOR a long time past the scientific world, medical men especially, appear to have been struck with the remarkable fact, that among the innumerable collections of curative agents discovered, not one has been found to counteract or even mitigate the dreadful effects of sea sickness. Several reasons have offered in this dilemma. These remedies, whether simple or compound after many trials, have bitterly proved signal failures. This long and fruitless search is verified by the perusal of the annals of Pharmacy, Chemistry and Medicine of all countries, published within the last ten years.

The inventor of the "Hygienic Elixir," has at length made this invaluable discovery. After numerous trials, changes and alterations in the proportions of the substances composing this Elixir, he is enabled to offer it to travellers in the shape of a palatable draught, not decomposed or altered either by climate or age.

The Elixir checks sea sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally indefinite, and preserves a cheerful feeling of ease and comfort. The nausea ceases as if by magic, calm and sleep are restored the appetite is whetted and the digestion effected promptly under the influence of this tonic.

The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of his Elixir, has made up his mind to offer it to the public. He could recommend the above statements by testimonials from several sea-captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Captain Lahary, having had opportunities of testing, under his own immediate supervision, the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:

HAVRE, Feb. 7.—"Having had last year in France a fine-weather opportunities of testing, in divers persons, your remedy against sea-sickness; I am happy to be indebted to you for the good effect obtained the best results, and it it were possible to alter this remedy into a pleasant drink, I would recommend it to all kind, which could be more easily taken than in its present shape, especially when the sea sickness has already commenced, and when it would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea without taking medicine and therefore.

I am yours truly,

Signed, LAHARY, Comd'r. Ship L'Oscar.

The improvement suggested by Capt. Lahary, has been effected. The Tonic and Hygienic Elixir assumes the shape of a pleasant liquid in four ounce bottles with glass stoppers. Care must be taken to keep the bottles corked, to prevent evaporation.

For sale wholesale and retail by

E. E. MOUGIN,
Apothecary, Corner Royal and Dauphine streets.

Sole agent of the proprietor, Dr. Edward Martin. mh11 1w
