MRS. PARENT'S INSTITUTION,
Corner Royal and Hospital streets.
DAY AND BOARDING SCHOOL FOR YOUNG LADIES.

THIS establishment has been removed to corner Royal and Hospital streets. The building is vast, well ventilated and well adapted for class rooms, dormitories, &c. Madame Parent avails herself of the occasion to thank her numerous families who have so largely patronized her institution, and would assure them that their daughters will receive the same maternal care as heretofore. The long known reputation of her institution is the best guarantee to that effect. The course of study embraces the same system, in both English and French, as that employed in the first class institutions in the North and in Europe. Music, instrumental and vocal, including College, is taught by the most eminent Professors, also Drawing and Painting; Dancing by Professor Vegas.

Madame Parent will remove her institution among the Lake during the summer months, but will keep her school open in the city throughout the year. Finally, there will be nothing wanting to complete a literary as well as refined education; also to create in the hearts of young persons that pure morality which is the fundamental base of the institution, combining that easy elegance of manner so necessary for young persons. For further information address Madame Parent, at the Institution, where prospectuses can be obtained. oct4

MISCELLANEOUS

AYER'S AGUE CURE,
FOR THE PREVENTION AND CURE OF THE
Intermittent Fever, or Fever and Ague, Remittent Fever, Bilious Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Diseases, in fact, for the whole class of diseases originating in military derangements, caused by the malaria of miasmatic countries.

No one remedy is tender called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use to any constitution.

That which protects from or prevents this disorder must be an immense service to the community where it prevails. *Prevention* is better than cure for the patient, among the rich which in most can be visited sickness of this baleful disemperer. This "Cure" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach or its premonitory symptoms. It is not with this as with remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply, and a dollar brings it within the reach of every body; and in billious districts, where Fever and Ague prevails, every body should have it and use it freely, for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great saving of life the remedy done any other ever discovered for the speedy and certain cure of intermittents is, that it contains no quinine or mineral, consequently it produces no giddiness or other injurious effects whatever upon the constitution. These cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation. Among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Numbness of the limbs, and all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. It takes occasionally or daily while exposed to the infection, that will be absorbed from the system, and cannot accumulate to suffi ient quantity to repeat into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittent fever avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human frame, correcting the disordered action, and restoring its energy to health. As a consequence of these properties, the world who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every day complaints of every body, but also many formidable and dangerous diseases. The agent below is prepared to furnish gratis my American Almanac, containing the certificates and testimonials of the cures by these pills, and directions for their use in the following complaints: *Costiveness, Dyspepsia, Headache arising from Disordered Stomach, Nausea, Biliousness, Jaundice, Dysentery and Diarrhœa, Flatulency, Loss of Appetite, Jaundice, Worms*, and hundred complaints arising from a low state of the system of the functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, perhaps known, who have been rescued from alarming and often desperate diseases of the lungs by its use. When once tried, its superiority over all other medicines of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate to resort to it for relief in the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies have been tried and found wanting, have fallen and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and provided cures too numerous and too remarkable to be forgotten.

MISCELLANEOUS

G. DUPUY,
64 Royal street, between Bienville and Customhouse streets.

HAVING received a portion of the spring and summer goods, and a liberal discount having been allowed me on articles sold plain, I am now enabled to offer the new and splendid stock fully equal to America and England, in trends superior composition.

Pins, Clamps, Tweezers, Lancets, Syringes, Lancets, Rhum Tinct, Hand Saws, Knives, &c.

An immense selection of Stereoscopes and Stereoscopic Views, which are mentioned particularly on account of the finish and prices at which they can be had.

The French Looking-glasses, most carefully selected by me, are now being framed, and then will be got a magnificent article in a bargain, are informed that upwards of 500 Glasses, with the most tasteful and latest style frames, are exhibited at my store. They are invite to call and judge for themselves.

Merchants and keepers of public places will please call and examine a remarkable piece of work—a Diamond Base between the Baltic and the Plata on the Mississippi river. This lithographic picture represents a moonlight scene, which cannot fail to be universally admired in every respect.

Dealers will be offered greater inducements than any other establishment of the kind in New Orleans. oct20
