GUILD'S PATENT COOKING STOVES CALLED "QUEEN OF THE WEST."

THE undersigned, agent for the sale of this article for the Southern States, has been respectfully solicited by the citizens public, to keep constantly a supply of the above stoves, and he has now received a supply of the above stoves, which he will sell at the manufacturers prices, with the addition of the freight only.

He refers to the subjoined flattering testimony as to its economy, neatness and general utility:

We, the subscribers, having used for some time Guild's Patent Cooking Stove, called the Queen of the West, feel no hesitation in giving our unqualified testimony in its favor. For neatness, convenience, economy and general utility, we think it far superior to other cooking apparatus that we have seen in use. It seems to have supplied one great desideratum not heretofore attained, namely, a stove that, with the same heat used in the old way, will cook all the dishes at one time, and that in half the time, and with the least possible quantity of fuel; and the different dishes may be cooked, or kept from cooking, by simply turning the dampers of all, from the smallest family to the largest hotels and steamboats.
