SANDS' SARSAPARILLA,

For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or Habit of the System.

IF we read the history of Diseases we are astonished that men live; if of Cures, we are still more astonished that they die. And yet in fact nearly all diseases have a common origin, viz: in the organs which prepare and modify the blood, with a remedy, directed to the seat of disease, will remove a host of its phenomena. It is the peculiar characteristic of Sands' Sarsaparilla, that its searching operation reaches the causes of disease, and the cures it performs are therefore radical and thorough. The health of the human system depends almost entirely upon the state of the blood. If the vitalizing fluid, which pervades every tissue, every membrane, fibre, filament, gland, or other organ primary or secondary, [illegible] be charged with the elements of disease, sickness must be the consequence, and until the causes of disease existing in the blood, are eradicated, no permanent relief can be expected. It is here that the powerful health restoring properties of Sands' Sarsaparilla are manifested; and for this reason, in Scrofula, Salt Rheum, and all eruptive diseases, as well as to all derangements of the secreting organs, it is considered invaluable.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

New York, July 25, 1844.

Messrs. Sands—Gents: I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an obstinate Cancer. [illegible]

I was attacked eighteen months by a regular and skilful physician, assisted by the advice of a counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were resorted to, for five weeks in succession my breast was burned with caustic three times a day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an ounce of the solution. The Doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by an operation, or an operation the result would be fatal. I was advised to have the breast laid open and the bones examined, but finding no relief from what had been done, and feeling that I was rapidly getting worse, I almost despaired of recovery, considered my case nearly hopeless.

Seeing various testimonials and certificates of cure by the use of "SANDS SARSAPARILLA" in cases similar to my own, I concluded to try a few bottles, several of which were used, but from the long seated character of my disease produced no very decided change; considering this to be the only probable cure for my case, I persevered, until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return. I, therefore, pronounce myself well and the cure entirely effected by "Sands' Sarsaparilla," as I took no other medicine of any kind during the time I was using it, nor have I taken any since. Please excuse this long deserved acknowledgement, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else would, and I feel myself under lasting obligations to you. I can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been to call upon me and I will satisfy them fully of the truth as stated above and many other things in reference to the case.

NANCY J. MILLER, 271 Sullivan st.

Nantucket, Mass., 8th mo. 21, 1844.

A B & D Sands—Esteemed Friends:—Although an entire stranger to you, I do not feel at liberty any longer to [illegible] acknowledgment of a great indebtedness to you for your invaluable Sarsaparilla, which has been the means under a kind Providence, of my inexpressible relief. I am also urged to this acknowledgment by reflecting, that by my testimony hundreds of sufferers, miserable as I have been, may be induced to try this remedy, and experience a cure as speedy and happy as mine. For ten years I have been suffering under a scrofulous affection of the bones in my head and during a great part of this time my pain and suffering were so severe, that but for a reliance on the Great Disposer of events, I should have desired, and much preferred death itself. At different periods during my sickness, twenty pieces of bone have been taken from my head at various ways, besides all my upper teeth, and the entire upper jaw, rendering the mastication of food quite impossible. After expending about six hundred dollars for medical aid, I had recourse to your justly celebrated Sarsaparilla, and within the last three months the use of twelve bottles has, with the most beneficial operation, completely arrested the disease, the healing process is going forward, and I am rapidly approaching to a perfect cure. Being extremely anxious that others laboring under similar complaints may have the advantage of my experience, I shall be most happy at any time to communicate to them or to you, such further information as may be desired. Please accept assurances of my great obligation and regard.

BENJAMIN M. HUSSEY.

Nantucket, 9th Mo. 3d, 1844.

A B & D Sands—Respected Friends: Benjamin M. Hussey is a person of perfect respectability, his statement is referred to the wonderful effects of your Sarsaparilla upon him, may be implicitly relied upon. His case here is considered a very extraordinary one, and the cure altogether is such as to entitle the Sarsaparilla to be ranked as a great blessing to the human family, and we consider it as such.

Yours with true regard, WILLIAM MITCHELL,
Cashier of the Pacific Bank, Nantucket.

OLD CLOTHES MADE NEW.
LONDON DYEING & SCOURING ESTABLISHMENT

JOHN J. JACKSON, lately from London, respectfully informs the citizens of New Orleans and its vicinity, that he has taken the store No 95 CAMP STREET, next to Marsison's Temperance Intelligence and General Agency Office, a few doors below Poydras, for the purpose of Dying, Renovating, Repairing and Scouring

GENTLEMEN'S WEARING APPAREL,
upon an entirely new principle. All clothes made to appear as when new, without any injury to the cloth, and if not done to satisfaction, no charge will be made.

From the long and practical experience which I have had during my apprenticeship in London, and in working for the officers of the Horse Guards, and other officers of other regiments, I am enabled to dye SCARLET and other colors in a superior manner; also to extract grease spots and stains of all descriptions from military and other garments.

Gentlemen composing volunteer companies in this city, who have military clothes out of order, from the effects of grease spots, stains, &c. are respectfully invited to call and give him a trial.

Gold, silver and silk lace, epaulettes, &c. tarnished from use, can be restored to their original lustre and brightness.

LADIES' WEARING APPAREL, (including silk, satin and velvet dresses,) dyed in the most approved fashion and in the latest style and finish.

Carriage cushions, hangings, pulpit covers, sofa and chair covers, window hangings, carpet and hearth rugs, cleansed, dressed, &c. and made to appear as when new.

Many gentlemen and ladies hesitate to have their garments, carpets, &c. renovated or dyed, in consequence of the numerous impostors that do not understand their business. The subscriber requires but one trial to prove the character of his workmanship.

From a strict attention to business I hope to meet a share of public patronage.

All work entrusted to my care will be ready for delivery in forty eight hours after being left with the subscriber.
JOHN J. JACKSON.

DYEING AND SCOURING IN GENERAL.

NOTE—Messrs MONDELET & Co., have the honor to inform the public, that on the 1st June last, they have opened, at No 150 Chartres street, opposite the Orleans Hotel, A DYEING AND SCOURING Establishment.

The knowledge they have acquired of this art, by many years labor in the first houses in Paris, and by a diligent study of chemistry applied to dying, induce them to hope that no hesitation will be felt in entrusting to them the most valuable articles either for dying or scouring, convinced as they are that such articles will be as carefully and properly attended to as at Paris. Those who may honor them with their confidence will be convinced of their skill, by the care and elegance of their work, and by the finish imparted to it.

They dye and scour all kinds of articles, such as silks, merinos, mousseline laines, cashmeres, crapes, tul es, velvet plain or figured, straw hats, furniture covers, carpets, church ornaments, ball and theatrical costumes silk and thread gloves, silk stockings; they clean silk dresses without changing the colors. By new chemical processes they bleach muslins, jaconets and print dresses, giving them the appearance of new materials. They clean and dye kid gloves, all kinds of feathers, gentlemen's clothing without injuring them, and giving them all the neatness of new articles. They dye clothing black for mourning in twenty-four hours, and warrant the durability of the colors.—They likewise re-dye black stuffs, giving them various colors.
