Hostetter's Stomach Bitters.

Let the Afflicted Speak for Themselves.

From more than one thousand communications, we extract the following statement of the effects of HOSTETTER'S STOMACH BITTERS upon individuals who for years labored under the disease of the dyspepsia and nervous organs, and from ground and long established testimony of every variety of nature. By thus putting into a small compass the substance of a mass of unbounded testimony, which, if published in full, would fill a volume, we present at one glance all the prominent reasons given by converted patients for their conclusions. It is a testimony which has restored them from a state of bodily suffering and mental despondency that rendered life a burden, to a condition of perfect health. Let it be clearly understood, then, that the statements set forth in advertisements of the proprietors of HOSTETTER'S STOMACH BITTERS, but of extracts of one thousand of its patrons, the pith of whose opinions and experiences of its merits are simply reproduced in this form for the information of the whole original testimonials are in their possession. The letters thousand, verifying every word in this article, are on file, and accessible to any one who desires to read them. It appears, from these documents, that confirmed Dyspepsia, of the most distressing kind, is almost invariably cured by Bitters in a period varying from one to six weeks, and that the remaining cases have all been greatly benefited, proven preserved in the future step by a subsequent occasional use of this remarkable tonic. The Bitters, as a general solution, from Dyspepsia, would seem to have an almost infallible valuey of symptoms. Among these are constipation, costiveness, flatulence, of the stomach, approximation after eating, spasms in the stomach and bowels, pain in all cases, through which there will be a constant circulation of air from many windows.

Great care will be taken to be the physical improvement of pupils in the French language. For this purpose, Madame Charpaux will give her pupils a table exclusively in the department of instruction.

The English and French languages, Geography, Arithmetic, and in short all the branches of a public education, will be taught in the Seminary.

Music, Drawing, Dancing, and desirable branch of the education of young ladies, Mr. Guerpon, from the best Theatres in Paris, and who is the leading Ballet Dancer, will devote all his time to the Boarding Scholars.
