Holloway's Ointment and Pills, the best remedies in the world for Diseases of the Skin. The youngest son of Mr. Edward Wright, of Aberdeen, Mississippi, had the misfortune to be afflicted with a most malignant disease of the skin, which rendered the child's life one of misery and suffering. As the mother had tried every remedy likely to benefit him without receiving the desired result, she became intensely worn out with trouble and anxiety in the matter, and was lamenting the same to a friend, who recommended Holloway's Ointment and Pills, which the mother commenced using, and by persevering with the same for six weeks, the child was completely cured.

Sold at the Establishment of Professor Holloway, New York and London; also by all respectable Druggists and Dealers in Medicines throughout the United States, in pots and boxes, at 25 cents, 62½ cents, and $1 each. To be had wholesale of the principal Drug Houses in the Union.

N.B. There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box and Pot.

No longer a Doubt as to the nature of Diseases, or their Successful Treatment.

A New System for curing all Diseases, by an Analysis of the Urine.

THE greater number of maladies are alone incurable from uncertainty as to their true nature; the surest means of ascertaining and curing them is obtained from an analysis of the Urine. By this mode it is impossible to be led astray, and this, we believe, is the chief aim of medical science.

MR. NADO,

An Elève of the Marine Hospital of France,

of Mr. A. Barrosl, and of G. Bertin, a learned French Chemist, has just established his Laboratory at No. 57 BLANCHE, BETWEEN CONDROUSES AND BERVILLE STREETS, where, in pursuance of the infallible method he professes, he will most deserve the confidence of the inhabitants of New Orleans, by the numerous cures effected by such means.

Mr. Nado cures all diseases, Yellow Fever included, and moreover, preserves health, which, as all are fully aware, is alone dependent upon the regularity of the functions of the stomach; and for the purpose of arriving at a correct knowledge of the chemical reactions which occur in the organization, and particularity of the metamorphoses undergone by organic matter diffused through the system by the action of the functions regulating nutrition, there is no more certain course to be observed than an analysis of the Urine.

The course of treatment and medication followed by several of the most learned physicians of the hospitals of Paris, especially in cases of grave illness, are based alone upon the data obtained from an analysis of the Urine. And it is due, that throughout Europe, even in remote rural districts, persons possessing no other knowledge of the art, are that derived from a chemical examination of the Urine, are miraculously successful in their cures of all maladies.

Note: For the purpose of consultation at the laboratory, persons calling must bring with them a certain quantity of Urine newly emitted by the sick. Persons residing in the country can, after one visit, be treated and cured with the same certainty.

Mr. Nado will also analyze Urine submitted to him by city and country physicians. on Saw
