HOWARD'S HOTEL, (formerly, corner of Maiden Lane, New York.)—This Hotel is one of the most conspicuous in the Metropolis, and is kept upon Broadway of over 100 feet, and upon Maiden Lane 90 feet, with two large wings extending in the rear 150 feet. It is six stories exclusive of basement, and under cellars, and containing over 200 bed chambers, with all the hall and ventilated with grates, besides numerous private parlors with sleeping rooms attached, and public parlors, dining, reading and other rooms. There are two bigeant dining saloons, the floors of which, as well as the spacious halls in the first and second stories, together with the reading and other public rooms, are paved with italian marble. There is also an extensive and pleasant room fronting upon Broadway, fitted up for a Ladies' ordinary, and the ladies are provided with attractive rooms, with parlors, and a private entrance to the Hotel from Maiden lane.

The subscriber having for nine years past received a liberal patronage from this and principally from gentlemen of business at his former Hotel in Broad street, is satisfied from experience that entity ready to many are more acceptable; therefore, he has this hour re-constructed as to be able to serve meals at such early hours. The hours adopted for meals are as follows, viz:—In gentlemen's dining room upon 1st floor, Breakfast at 7, or half past 7, with reference to the season of the year; Dinner in summer at 2 o'clock. In gentlemen's dining room upon 2d story, and also in Ladies' ordinary, Breakfast from 8 to 10 o'clock, and Dinner at half past 5 o'clock. Tea at 7 o'clock, and set up for the different dining rooms, as it is optional with Gentlemen to take their meals in either of the Gentlemen's dining rooms, or upon their private parlors of their choice, the subscriber hopes the extra trouble and expense in the attempt to suit the gentlemen in this respect will be properly appreciated. As a generous public, and that a commensurate patronage will result therefrom.

This house possesses every convenience that the subscriber could devise, and is in every respect constructed to be the most replete in its internal arrangements—its construction for light and air being superior to any other house in the city.

In addition to the many advantages and comforts over most Hotels, it has a living spring of pure soft water upon the premises, which, apart from its intrinsic worth as a whole-some beverage, is unusual to be found in the lower part of the city, adds very much to the safety of the establishment in case of fire on or near the premises; a powerful force pump being attached to the well to force water above from, as well as from the various cisterns in the yard, to the reservoirs under the roof, from which, by use of the hose, water can be forced over any part of the premises in an instant.

In short this establishment has been got up without reference to cost, and it is the intention of the subscriber to have it stand among the very best Hotels in the country—He hopes to be favored with a share of public patronage.
j8-6t D. D. HOWARD.

GLOBE HOTEL.—The subscriber has recently added to his establishment the house 84 Broadway, which he has fitted up and furnished appropriately, more particularly with reference to the accommodation of families and those desirous of having parlors attached to their sleeping rooms. A private entrance to No 84 is on Broadway, also a hall communicating the hotel.

The house will be continued on the European plan, which has given so much satisfaction to all. The bathing apartments in the lower part of the house are in readiness for use from 7 o'clock, A M. till 1½ P M.

The proprietor takes this opportunity of returning his most grateful acknowledgments to those who have so handsomely patronized him, from the first moment he was identified with the Globe, and pledges himself to endeavor by the most unremitting attention, to merit a continuance of their kindness. F BLANCHARD.

MENJES, FLEYEL & Co., of Paris, anxious to preserve the confidence which has hitherto been placed in the instruments manufactured in their establishment, have sent one of their principal workmen to our city, in order to have altered and repaired all those pianos called piccolos or pianinos, in the construction of which they have applied from tubes.

Mr. Pierron, who arrived here in the Alexandre Tousain, will repair all such pianos, at the expense of Messrs. Pleyel & Co. in such a manner as to protect their instruments against all accidents arising from the effects of this most struction in this climate, and particularly so as to guarantee their keeping well in tune.

All persons in possession of Pianos of this description will please call upon him, and bring all the improvements which are to be introduced by Mr. Pierron. j11
