The local advantages of Carrollton are well known.—They have secured the spacious house owned by Mr. Kohn—the garden and premises are extensive, and the establishment in every respect admirably adapted for the object they have in view.

As the institution will be strictly preparatory, they propose limiting the age of pupils to twelve years. The advantages of this arrangement, parents will at once appreciate.

Preparations will be made, as early as possible, for receiving girls, both as boarding and day scholars. The same restriction in point of age will apply to both departments.

The academical year will be divided into two sessions; the winter term commencing on the 5th of January and ending on the 25th of June; and the summer term commencing on the 10th of July and ending on the 20th of December.
