L. MILLER'S
HAIR INVIGORATOR,

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the Hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequaled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unsurpassed preparation have induced a spurious imitation that one trial is only necessary to satisfy a discriminating public of its superiority over any other preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is becoming and will look and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unsurpassed preparation have induced a spurious imitation that one trial is only necessary to satisfy a discriminating public of its superiority over any other preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is becoming old and silvery, restores the color and causes the hair to grow, and restore the growth to those parts which have become bald, thus causing it to yield a fresh novelty of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this invigorator, when all other preparations had failed. It is not in a big advertisement that we can make the public to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has already changed its color, then use this invigorator will with certainty restore it to its original hue, giving it a dark, glossy appearance. As a perfume for the toilet and a hair invigorator it is particularly recommended, being an agreeable fragrance, and the great facilities of its application to the hair, which, when used with the invigorator, can be dressed in any required form so as to preserve the place, whether plain or in curls—hence the great demand for it by the ladies as a standard order article which would ought to be without, as the price places it within the reach of all. Sold

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the fact of his invigorator, in cases where the children's hair inclines to be weak. The use of it keps the fair children in the full bloom of hair, as it removes any impurities that may have crept into the system, and the renewed vigor of which is necessary both for the health of the child and the future growth of the hair.

CAUTION.—Some genuine without the fac simile LOUIS MILLER being on the outer wrapper; also, L. MILLER'S HAIR INVIGORATOR, N. Y., shown in the glass.

Wholesale Depot, 80 Day street, and sold by all the principal Merchants and Druggists throughout the world.

Liberal discount to purchasers by the quantity.

I also desire to present to the American public my

Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An opulent and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the medical profession, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Imperfect or the blood, dyspepsia, nervous debility, and other severe distressing complaints indicate its necessity in almost every case where the blood is impure. Immediate in all such cases in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Somnolence, Hypochondria, Constipation, Sick-ness, Dyspepsia, Indigestion, Costiveness, Scrofulous Tuberculous, Cutaneous Diseases, Menstruation, Weakness, Chlorosis, Liver Complaints, Chronic Diarrhoea, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of GENERAL DEBILITY, whether the result of ill of disease or of the combined influence of nervous and muscular energy from chronic complaint or trifling or severe, it has proved successful to an extent which no description of writing can do justice to the mind reader credible. Invalids so long bed ridden as to have lost the power of walking, and pale bodies, have rapidly recovered in the long way as if just returned from a prolonged travel in a distant climate. Nervous and general weakness of the kind are attended of female sufferers, menstrual derangement, leucorrhoea, or whites, nervous sensations, critical changes, and that comprehension of nervous and general exhaustion to air and exercise which the physician can be alone aware of.

In NERVOUS AFFECTIONS of all kinds, and for those requiring a tonic in medicinal form, this preparation of iron must necessarily be unique, for, on the site of calomel, it is effectual, without hazard, exciting and overbearing; and gently, regularly operated, even the most sensitive constitution, without producing over being stimulate purgative, or indicating a dangerous sensitiveness.

It is the latter property, among others, which makes it so probably effectual and permanent a remedy in scrofula, upon which it has proved curative in many opposite cases, by dispersing the local tendency which it induces.

In DYSPEPSIA, insomnolence is one the causes, a cipher but of these Chalybeate Pills has effected, for the most habitual cases, including the standard *Cyclopedia*.

In confirmed DIARRHŒA, even when advanced to DYSENTERY, confined, consulting, and apparently incurable, it has effected a cure in a few days.

In the local pains, loss of flesh and strength, debilitating cough, nervous hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has proved the chief source of friends and physicians in many instances, and in an interesting case, in which the ECLOPEDIA OF THE PRACTICE OF PHYSIC, the medicinal iron had for more than the good effect of the most approved chalybeate preparations without any other remedy.

The addition of feminine complaint be not conditionally related to this remedy and vulnerable in the same positively affecting the cure.

In RHEUMATISM, both chronic and inflammatory, in the latter, however, more decidedly—it has been particularly well tested, and has proved curative in reducing the swellings and stiffness of the joints and pain.

In IMPERMITTENT FEVERS it must necessarily be a great remedy and so it has proved, and in the cases given in the new settlements of the West will probably be one of high renown and usefulness.

Its remedy has never been discovered in the whole life of the medicine which omens such prompt, happy and fully restorative effects. Quinine, Quinine, Quinine, opium, rapid acquisition of strength, with an unusual feeling of health, and cheerful appetite, have been the result.

Put up in neat flat metal boxes, that fit the vest pocket, for per box; for sale by druggists and dealers, and by mail from us on receipt of the price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents,
290 BROADWAY, N. Y.
