MEDICAL.

Dr. CULLEN'S INDIAN VEGETABLE PANACEA.

FOR the cure of Scrofulas, Kings' Evil, Cancer, Erysipelas, Old Sores, Ulcers, Tetter, Mercurial diseases or any other disease that may arise from impurities of the blood—warranted to cure.

In offering the medicine to the public, the proprietors wish to stand the consequences of applying truth in its favor, preferring rather to say no more; yet, after having thoroughly tested it, and the best skilled in medicine being unable to cure the most inveterate complaints and for the cure of all diseases mentioned above, it is unnecessary to say more.

We will honestly recommend it as an efficient purifier of the blood, but cannot, consistently, pretend to inform the public that the Panacea contains the most highly concentrated extract of that medicinal root which can be obtained by any known process, with which are combined several other extracts, from roots, the medicinal qualities of which were made known by an Indian in the far West.

The Panacea contains no Calomel, Corrosive Sublimate, or any other Mercurial preparation, and may be taken by persons of either sex, and at any age, without the slightest danger of injuring the system.

Dr. Cullen's Indian Vegetable Specific, *For Leucorrhea Community, or Common Whites.*

This vexatious, and often dangerous disease, is unfortunately so well known among all classes of females, that a detail of its symptoms seems unnecessary.

To the patient herself, the disease manifests itself by unequivocal signs; yet from a delicacy, false, and often fatal, she frequently neglects to make known her condition even to her most intimate female friends, till her constitution is seriously impaired, and the foundation laid for a long catalogue of other diseases, such as Slow Fever, attended with difficult respiration, Palpitations, Faintings, and Swelling of the Lower Extremities, and where the disease is not cured, it is frequently followed by others, still more serious and fatal, such as Prolapsus or falling of the Womb, Ulcerations, Atrophy, and Dropsy, which bring on death.

To enjoy good health, all the secretory organs must be in a sound condition.

The fashionable and worldly search depart further from this object than to have it pass bloody tears, than do the uterine organs when receiving the fluid which gives its name to the disease in question. Whenever, then, the disease manifests itself, let the patient have immediate recourse to a remedy which will restore the diseased organs to healthy condition, and all the distressing symptoms will speedily disappear, and the dead like pallor of the cheek be succeeded by the roseate hue of health.

Such a remedy may be found in "Cullen's Specific."—It is not only a pleasant, safe, and certain remedy for leucorrhœa, but for suppressions and painful menstruations. In truth, it is what its name indicates, a "Specific" for all uterine diseases, and at the same time entirely free from all injurious drugs which have in any degree an injurious effect upon the system.

This preparation is made of vegetable substances and cannot possibly injure the most delicate constitution. It has never been known to fail in a single case to effect a cure.

INSTITUTION FOR YOUNG LADIES,

CONDUCTED BY MRS. P. ARPIN.

MRS. PAULINE ARPIN begs leave to inform parents and others, that she has opened a boarding house, for the reception of young ladies, in the house at present occupied, the adjoining one which is elegantly appointed in the school-room. She is now ready to receive boarding and half boarding pupils.

Mrs. P. A. has neglected nothing to make her institution equal, if not superior, in every respect to any school in the city. She has obtained the assistance of a sufficient number of ladies and skilful professors; the conduct and studies of the pupils will receive the most assiduous attention, in order to insure their rapid and study progress.

INSTRUCTION.—The course of instruction, which is as complete as possible, is carried on in both the French and English languages. It comprises READING, WRITING, GRAMMAR, ARITHMETIC, GEOGRAPHY, HISTORY, LITERATURE, the ELEMENTS of those sciences which are connected with female education, etc.

MADAME ARPIN, supervises in person the instruction of the pupils in the rudiments of knowledge; she is seconded in the English department by a competent instructress who devotes the whole of her time to this object. The other branches of study are conducted under the guidance of MR. ORTON, Professor of English, MR. L. HIRET, Professor of French Grammar and Literature, and MR. P. ARPIN, who attends particularly to the departments of Geography, History, Sciences, etc.

ACCOMPLISHMENTS.—Particular attention is also paid to the accomplishments essential to a finished education. Instruction on the Piano is given by MRS. P. BOYER, whose experience and success in teaching are fully appreciated by parents. The Harp is taught by MRS. P. LAVIL LEREVERE.

Instruction in singing by M. BROCARD, and drawing by M. JAMES.

Dancing will be taught by a competent professor.

Embroidery and other needle work are acquired under the personal superintendence of the Directress.

During the boarding school hours, a mild and active discipline is constantly exercised over the children by the Directress, aided by the efficient cooperation of two assistants. The pupils are subjected to the vigilant supervision of these ladies who will employ every means to improve their morals and correct their demeanor. In short no labor is spared to impart to the pupils and particularly to the boarders, a solid and well-regulated education.

N. B.—Young Ladies who are not regular pupils, may join the Classes of Literature, History and Science, conducted by Mrs. Arpin. This department will embrace all the branches of knowledge which constitute a good education.
