WRITING ACADEMY, 15 CAMP ST.

PENMANSHIP.

MESSRS. DOLBEAR have opened their Writing Academy No. 15 Camp street, where a NEAT ANDRAPID BUSINESS STYLE may be learned with ease and certainty.

As Messrs. D. are confident that every person may learn to write a good hand, they wish all their pupils to continue their lessons without extra charge until their writing is in no way less to their purpose. They believe, if their system were universally adopted, it would prevent so much loss of time and money in the unsuccessful attempt to acquire the tedious plan pursued in most schools and colleges. A few moments' reflection will convince any reasonable person that it is absurd, to be four or five years in learning to make with facility twenty six letters.

The following opinion of the Principal of the Natchez Institute was given after witnessing its success on above three hundred pupils. Men of intelligence in different parts of the United States, who have examined it, uniformly express the same opinion. It then becomes a question with parents and others interested in the cause of education, whether it should not be substituted for a plan by which so few succeed after years of application.

The fault is not in the teachers, but in the system taught, or rather the *want of a system*. Most teachers are satisfied that the common method of teaching Penmanship is so unsuccessful as to be almost a useless waste of time, and that no one can be a successful teacher of everything at once.

Penmanship, like Arithmetic, should be taught according to fixed principles, and then the success must be as certain as the adherence to those principles.

Messrs. D. requests persons to call and examine their system for themselves.

To the Messrs. Dolbear—GENTLEMEN: I deem it my duty to express my opinion of your system of Penmanship, from what I observed during your recent course of instruction in this Institute. I have watched closely, both your method of imparting instruction, and the advancement of the pupils. I am gratified to find, that by your system, hundreds may be taught at a time. It is the *only* system, which I have seen, successfully adapted to public school instruction. It has only to be understood by Teachers, Superintendents, and Trustees in general, to be appreciated and adopted. Very respectfully,

J. PEARL, A. M., Principal of N. Institute.
Natchez, Dec. 22, 1845.

NASHVILLE, September 20, 1843.

Having been invited by the Messrs. Dolbear, Teachers of Penmanship in this city, we have carefully examined their system, and the specimen of improvement made by their pupils, and feel entirely prepared to say that the system is *scientific* and *much superior* to any other we have seen, that the improvement of their pupils is *very* rapid and we therefore take pleasure in recommending them to the favorable attention of the public.

From Gen. Andrew Jackson—Being requested by Messrs. Dolbear to state the standing in society of the gentlemen, signers to the within, I do so with pleasure, being acquainted with most of them, and as far as I am acquainted with them, they are highly respectable, and gentlemen of education and of high standing in society. Given at the Hermitage, this 23rd day of October, 1843.

ANDREW JACKSON.

NASHVILLE, Sept. 29, 1843.

Messrs. Dolbear—Having had a fair opportunity of examining your system of Penmanship, and having seen the wonderful and rapid improvement of your pupils in my school, I consider it but just to say, that I believe it to be not only the *best system* but the *only one deserving the name*, for by strict attention to the rules given *any* person may, in a very short time, acquire a free, rapid, and elegant hand. I should be pleased to see it universally adopted. Most respectfully, your obedient servant,

ALFRED HUME.

WASHINGTON CITY, June 26, 1843.

SIR—Considering a good hand writing to be not only an accomplishment, but a means of success to every man engaged in business, I greatly applaud your meritorious exertions to improve the chirography of the age. A gentleman or lady either, who writes badly, never writes willingly, and consequently often fail to write when they should, and when they do write, it is done at the last moment, with haste and impatience, and consequently with faults of all kinds, often committing and injuring both the writer and the cause which he advocates. Wishing you every success in your laudable undertakings,

I remain yours respectfully, THOS. H. BENTON.

COLUMBIA, TENN. Nov. 20, 1843.

From the Rt. Rev. Bishop Otey.—Mr. J. W. DOLBEAR—Dear Sir: I have been much interested and pleased in examining your system of Penmanship, and as far as I am capable of forming an intelligent judgment upon the subject, I give it my hearty approval. Your method of teaching seems to me to be both skilful and faithful, and the improvement of your pupils is surprising and rapid beyond anything I have ever witnessed. I shall feel happy if this testimony to your merits shall lead others to avail themselves of your instructions in one of the most beautiful and useful of arts, and am very respectfully yours,

JA. H. OTEY.

NEW ORLEANS, July 2, 1832.

From Her Excellency Gov. Roman.—I have examined with attention the system of writing taught by Mr Dolbear, and it is with pleasure that I certify to its superiority over any method with which I am acquainted. Mr. Dolbear having given private lessons in my family, I consider it but justice to add, that I believe him as much worthy of public patronage on account of the correctness and politeness of his character, as on account of the rapid improvement of those who received his lessons.

A. B. ROMAN.

VICKSBURG, August 31, 1841.

Letter from the Rev. A. B. Lawrence to Mr. Dolbear.—Dear Sir—You desire me to express my opinion of the merits of your system of penmanship, as taught by yourself. Having for some years been familiarly acquainted with that system, and seen its immediate and continued results, I am free to state that for speedy improvement of the pupils, for certainty in the formation of a rapid, free, clear and beautiful business hand, and for the continued and permanent benefit of the pupil, I know of no instruction in that useful art which is comparable to yours. So far as I have observed, those who have learned to write upon your system, go greatly retain and often improve their hand acquired under your instruction. Wishing you abundant success in your useful labors, I remain, with respect, yours,

A. B. LAWRENCE,
Principal of Vicksburg Female Institute.

G. BOYER'S
CLASSICAL AND COMMERCIAL INSTITUTION
No. 148 Conti Street,
between Dauphine and Burgundy streets.

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation; a considerable number of pupils who have spotted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position, being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education; from primary instruction to the more abstrute subjects which are specially the province of a collegiate course. Discipline so necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relations with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident, as of the great st possible importance to all living in this community, is, in Boyer's Institution, attended to with more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long accustomed to tuition.

BRANCHES OF TUITION.

The English, French, Spanish and Latin languages, History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c. &c.

TERMS:

Boarders	$20 per month.
Half Boarders	15 "
Day Scholars	8 and 10 per month.

No deduction is made for absence. A month once commenced must be paid in full. Books, paper, &c. form separate charges. d10—y

MANDEVILLE COLLEGE.

THE labors of the Directors of this Institution have been already rewarded by the confidence of the public. The number of students in its halls is more, considerable, than could have been anticipated for the short time it has been under the present direction. Its patrons rank among the most intelligent and influential citizens of Louisiana.

The success of the College may, in part, be attributed to its various local advantages. The buildings are of vast extent, and admirably adapted to the purposes for which they are used. A steamboat plies regularly between the College and the city of New Orleans, facilitating the communication between the students and their parents. The health and recreation of the students are promoted considerably by bathing in the Lake, at the proper season, and by walking under the shade of the surrounding forest.

But it is not to its favorable situation alone that the College is indebted for its success. The result of the late examination has shown that the Directors have been fortunate in their choice of Professors, and that the public confidence has been justly bestowed. In consequence of the increase in the number of students, the Directors have engaged the valuable services of Professor [illegible], a gentleman [illegible] known to the public; still retaining all the Professors already attached to the College.

The care of the student's clothes will be confided to a competent person, under the superintendence of Mrs. McManus. The students, for the future, will receive, from Mrs. McManus, that maternal care so necessary, particularly for young children, when absent from their homes.

Important Notice. French Blankets.

THE undersigned has the honor to inform the Planters and Merchants of Louisiana and neighboring states, that in consequence of the death of Mr Jean Mager, he has chosen as his sole agents and representatives at New Orleans, and for all the Southern States, Messrs Hte. de Goer and Riffard, who are and will be in future, the ONLY SUCCESSORS of Mr Mager. His depot which is definitively established in this house, will be constantly supplied with FRESH GOODS of the first quality, and he trusts that by their cheapness, durability and the care taken in their fabrication, to justify and extend the patronage with which he has so long been honored in the United States.

Having learned that some merchants and manufacturers have imitated his mark, and are selling inferior blankets under his name, he embraces this opportunity to inform the public, that HIS ONLY DEPOT is at Hte de Goer & Riffard, No 21 Magazine street, and that he will pursue before the Courts of Justice all persons who counterfeit his goods or who sell such counterfeits.

The undersigned once more thanks the public for the confidence heretofore reposed in him, and will endeavor to continue meriting it.

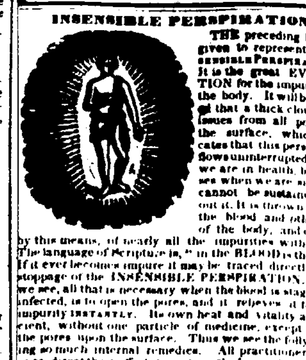
INSENSIBLE PERSPIRATION.



THE preceding figure is given to represent the INSENSIBLE PERSPIRATION.—It is the great EVACUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us.—The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure it may be traced directly to the stoppage of the INSENSIBLE PERSPIRATION. Thus we see, all that is necessary when the blood is stagnant or infected, is to open the pores, and it relieves it from all impurity INSTANTLY. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Insensible Perspiration. The Thomsonian, for instance, steams the Hydropathist shrouds us in wet blankets, the Homopathist deals out infinitissimals, the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhoeck, ascertained that five-eighths of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by Insensible Perspiration.

This is none other than the used up particles of the blood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence, a stoppage of this flow of the juices, originates so many complaints.

It is by stopping the pores, that overwhelms mankind with coughs, colds and consumption. Nine tenths of the world die from diseases induced by a stoppage of the Insensible perspiration.

Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they are closed. Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? And yet I know of no physician who makes any external application to effect it. Under these circumstances I present to the physicians and to all others, McAlister's ALL HEALING OINTMENT, or the WORLD'S SALVE. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

It has power to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heals them.

It is a REMEDY that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions.

It is a REMEDY that forbids the necessity of so many and deleterious drugs into the stomach.

It is a REMEDY that neither sickens, gives inconvenience, or is dangerous to the intestines.

It preserves and defends the surface from all derangement of its functions. The surface is the outlet of five eighths of the bile and used up matter within. It is perforated with millions of openings to relieve the intestines.—Stop up these pores, and DEATH knocks at your door.—It is rightly termed All Healing, for there is scarcely a disease, external or internal, that it will not benefit. I have used it for the last fourteen years for all diseases of the chest, consumption, liver, involving the utmost danger and responsibility, and I declare by Heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means.

I have had physicians, learned in the profession, I have had Ministers of the Gospel, Judges on the bench, Aldermen and Lawyers, gentlemen of the highest erudition, and MULTITUDES of the POOR use it in every variety of way, and there has been but one voice—one united, universal voice—saying, "McAlister, your Ointment is GOOD."

CONSUMPTION.

It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system.

I need not say that it is curing persons of Consumption continually, although we are told it is foolishness. I care not what is said, so long as I can cure several thousand persons yearly.

HEADACHE.

The Salve has cured persons of the Headache of twelve years standing and who had it regularly every week, so that vomiting often took place.

Deafness and Ear Ache are helped with like success.

COLD FEET.

Consumption, Liver Complaint, pains in the chest or side, falling off of the hair, or the other always accompanies cold feet. It is a sure sign of disease to have cold feet.

The Salve will cure in every case.

In SCROFULA, ERYSIPELAS, SALT RHEUM, SORE THROAT, BRONCHITIS, BROKEN OR SORE BREAST, PILES, ALL CHEST DISEASES, such as ASTHMA, OPPRESSION, PAINS, also, SORE LIPS, CHAPPED HANDS, TUMORS, CUTANEOUS ERUPTIONS, NERVOUS DISEASES, and of the SPINE there is probably no medicine now known so good—and as for BURNS it has no equal in the world.

PIMPLES ON THE FACE, MASCULINE SKIN, GROSS SURFACE.

Its first action is to expel all humor. It will not cease drawing till the face is free from any matter that may be lodged under the skin, and frequently breaking out to the surface. It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and delicate as a child's.

WORMS.

If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially "mercurial lozenges," called "medicated lozenges," "vermifuges," "pills," &c. The truth is, no one can tell invariably, when worms are present. Now let me say to parents, that this Salve will always tell if a child has worms. It will DRIVE every vestige of them away.

There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

TOILET.

Although I have said little about it as a hair restorative, yet I will stake it against the world! They may bring their oils far and near, and mine will restore the hair two cases to their one.

OLD SORES.

That some sores are an outlet to the impurities of the system, is because they cannot pass off through the natural channels of the Insensible perspiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This Salve will always provide for such emergencies.

RHEUMATISM.

It removes almost immediately the inflammation and swelling, when the pain of course ceases.

FEVERS.

In all cases of fever, the difficulty lies in the pores being locked up so that the heat and perspiration cannot pass off. If the least moisture could be started, the crisis has passed and the danger over. The All Healing Ointment will in all cases of fevers almost instantly unlock the skin and bring forth the perspiration.

SCALD-HEAD.

We have cured cases that actually defied every thing known, as well as the ability of fifteen or twenty doctors. One man told us he had spent $500 on his children without any benefit, when a few boxes of the Ointment cured them.

CORNS.

Occasional use of the Ointment will always keep corns from growing. People need never be troubled with them if they will use it.

AS A FAMILY MEDICINE.

No man can measure its value. Galvanic Rings and Magnetic Fluid.

THIS remarkable discovery which has attracted so much attention in Europe and recently in the Northern States, is now introduced for the first time to the citizens of New Orleans. It possesses an entirely safe and simple application of the Mysterious Power of Galvanism, as a remedial agent. The GALVANIC RINGS, in connection with the MAGNETIC FLUID, have been used with the most perfect success in all cases of RHEUMATISM, acute or chronic, applying to the head, face or limbs; Gout, Tic Doloureux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, Indigestion, Paralysis, Palsy, Epilepsy, Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spinal Complaints, Lumbago, Neuralgia, Nervous Tremors, Dizziness of the Head, Pain in the Chest and Side, General Debility, Deficiency of Nervous and Physical Energy, and all NERVOUS DISORDERS. In cases of Dyspepsia which is simply a nervous derangement of the digestive organs, they have been found equally successful. The Rings are of different prices, being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience.

The Galvanic Belts, Bands, Bracelets,

Are modifications of the invention, and are recommended in more chronic cases of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waist, arms, wrists, ancles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can effect, will fail to be permanently relieved.

Christie's Magnetic Fluid

Is used in connection with the Rings and their modifications. This composition has been pronounced by the French Chemists, to be one of the most valuable discoveries of modern science. It is believed to possess the remarkable power of *rendering the nerves sensitive to Galvanic action*, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

Christie's Galvanic Strengthening Plaster.

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. *As an effectual means for Strengthening the system when debilitated by disease or other causes; as a certain aid in constitutional weakness; as a preventive for colds, and in all affections of the chest generally,* the GALVANIC STRENGTHENING PLASTER will be found of great and permanent advantage.

☞ Numerous certificates and testimonials from many distinguished physicians and others of the North have been received by the Proprietor. These are no respectable sons of the highest respectability and may be seen on application to the Agent.

The public are respectfully warned against SPURIOUS IMITATIONS of these articles. Dr. CHRISTIE has but one authorized Agent in each city of the Union. GERON & Co., corner of St. Charles and Canal streets, are the only Agents for New Orleans, of whom alone the genuine articles can be obtained. [illegible]
