WILLIAM W. THOMPSON'S PATENT IMPROVED LEADEN PIPES.

THE manufacturer, residing in St Louis, Missouri, invites the attention to the excellence of his leaden pipes made by a new and patent process, (to which he has the exclusive right in the entire district of country west and south-west of the Alleghany Mountains) of a better quality than can be produced by any other known method.

The patent pipes be remarkable for its uniformity of thickness, the accuracy of the bore, the perfect polish of the interior surfaces, the absence of scales and flaws, the very long length without joint, for its unusual strength. These advantages will be evident to any body upon examination.

Besides his usual sizes from one-eighth to five inch in bore, he manufactures also, for the use of farmers and others, very light leaden pipes for conducting water from spring at long distances under slight pressure or head of water, and for other purposes

L. DUPERRON. & E. DELCAMBRE

DRS DENTISTS

NO. 280 BOURBON STREET

Between St Philip and Maine.

MESSRS. DUPERRON & DELCAMBRE have the honor to inform the planters of St Charles, St John the Baptist, Donaldson, Lafourche, the Attakapas, &c. that they will pass through these places in the course of the sickly season, with the intention of exercising his profession. Messrs. G. Duperron & E. Delcambre, who are in the habit of warranting their operations, inform those persons who may honor Mr. Delcambre with their confidence, that if they have any fault to find, their establishment, which is permanently fixed in New Orleans, will be promptly opened to them. All those requiring dental operations may, with perfect confidence, apply to Mr. E. Delcambre, more especially for the insertion of artificial teeth, from a single one to an entire set, which he accomplishes by a new process that ensures its complete success.

s17

DR. BLANCHARD—Extracting to their Majesties the King and Queen of France, the Princes and Princesses. Surgeon-Dentist to the family of Madame of Paris, and of New Orleans:

Fixes natural teeth, without the least pain, in imitation perfectly natural, from one tooth to a complete set;

Directs the most scientific treatment of children, and corrects any deviation in their teeth;

He has had long experience, minute and constant practice, in France and America, in the dentist art, and all that relates to its operations, preserving at once the mouth and the teeth;

He possesses a gum-cement, which repairs ravages effected by decay, of the same color of teeth, and which is the most precious substance that has yet been employed—upon either cast, at this time, plump the teeth so hermetically as this;

The operation is made without any pain, and is achieved in few minutes.

Recently invented for the Teeth.

Or Gnoths, without mixture, the most malleable and most perfect ordinarily employed.

A New Fusible (called platina) to plumb the teeth;

Lotto-Caustic, instantly causing pain in the teeth to cease;

Eliixir to refirm the gums, consolidating the looseness;

Teeth-Water for healing the mouth and preserving the teeth;

Spirits of Cayiac rectified, to give a tone to spongious gums;

Opiate of Quinine to clean and fortify the teeth;

Tooth Brushes, — of various kinds, to erase all sense of tartar from about the teeth.

ODONTALGIC EXTRACT

B. F. SMITH,

No. 110 St. Charles street,

CONTINUES to relieve the most violent TOOTHACHE in a few moments, and at the same time entirely destroy the nerve in less than 24 hours POSITIVELY without pain. The public should be aware that this truly valuable remedy is not offered as a UNIVERSAL PANACEA, it being only successful when the pain proceeds from an exposure of the internal membrane or nerve.

For the truth of the above statement, the sceptical are referred to the following highly respectable gentlemen, most of whom have spoken from their own knowledge:

Rev. W. A. Scott, Dr. W. H. Teagarden
J. W. Stanton, L. E. Generally,
C. F. Young, G. W. Pierce,
E. Morton Quirk, W. H. Wheaton,
H. Williams, W. G. Latham,
S. B. Crabtree, J. Plaisance,
H. Page, L. Morehead,
W. Stephen,

By first destroying the nerve with this remedy, the excruciating pain frequently caused by inserting pivot teeth upon the old method, is entirely avoided.

All other operations carefully performed. m3

SPECIFIC AGAINST YELLOW FEVER.

NO physician doubts at present that there is but one sort of sickness denominated essential fever, from its mild intermittent to severest phlegmatics, the yellow fever and the plague; they are inflammations of the mucous membranes of the digestive tract with all the complications and modifications which for a long time have hidden their real character, and presented them as a group of peculiarities to the eyes, which have caused the sad ravages in the sphere of those who had the misfortune of catching the infection; and now that their nature, their cause, their symptoms are better known, it is still the duty of the catalogue of their victims. I will not attempt a further description of those diseases, but two years experience, constantly crowned with success, prompt me to call the attention of the specific against yellow fever. I offer it to the public from the implicit confidence of its superiority over any other sort of medicine.

DOCTOR MARCHAND'S office is in Bienville street, corner of St Louis, where he will be from daylight to sunset, and from 11 to 1 P. M. He will also attend to the cure of secret diseases in the most expeditious manner. Persons who are afraid to come to Bienville, consult as a disease of the Prepuce, without surgical operation or pain. jy 29—
