NEW ORLEANS FEMALE INSTITUTE, OR DAY AND BOARDING SCHOOL, For young Ladies, 252 Camp st.
Conducted by Mrs. Macaulay.

THIS Institution is under the personal supervision of Mrs. MACAULAY, and the rare advantages in literature, science and phylosophy, are under the care of Dr. Macauley. The most accomplished teachers are employed in giving instructions in the French, Spanish and Italian languages, also in drawing and dancing. The piano, harp and guitar, as well as vocal music, are taught by professors of the highest grade of qualifications.

There are now eight instructors in the institution, and it is the aim of the principles to make it, in all respects, such as parents may desire for their daughters. Every care is taken not only to instil pure morals, and promote habits of correct, lady-like deportment in the pupils, but to make them intelligent as well as accomplished, and consequently, fit them for society and future usefulness.

Young ladies from the country, living in the family as boarders, share in the enjoyments, privileges and attentions of daughters, and are uniformly treated, not so much as members of a boarding school, as daughters of an affectionate family.

To the establishment is attached a large and well selected library; and to create a thirst for the acquisition of general knowledge as to the improvements and changes that are continually taking place in the literary, scientific and political worlds, leading Periodicals of a truly valuable character, and standard books of reference, are at the command of the young ladies well advanced in school education, for the important purposes of teaching them to acquire useful knowledge for themselves, by means of research and examination.

Monthly reports issued, as to progress and conduct.

A class for the study of the Latin language, will be formed on the first of November, and one on the use of the Globes.

References are made to parents who have had their daughters at the institution for years and further particulars and circulars can be obtained by applying, personally or by letter either to Dr. or Mrs. Macaulay.

ST. LOUIS INSTITUTION.
DIRECTED BY
Madame E. Deron,
No. 145 St. Louis street, between Dauphine and Burgundy streets, New Orleans.
SHOLASTIC YEAR, 1851-1852.

THIS Institution which for the last twelve years, has followed a constant career of progress and prosperity, has resumed its usual course of studies since the first September.

Madame Deron, formerly a pupil and professor of the "Maison Royale of St. Denis," and a graduate of the University of France, has endeavored to profit by the experience which she has acquired in the United States, to place her Institution in the first rank of educational establishments in America.

Madame Deron, exclusively devoted to her pupils, applies herself not only to the cultivation of the mind, but also to the formation of the heart. She strongly desires that the young ladies confided to her care, may be remarked for all those valuable qualities which constitute a really good education, such as the spirit of order and decorum, amiability of temper, and solidity of judgment, mildness of manners and a sympathising disposition, cordiality, easy grace and reserved elegance of manners. In order to obtain these results, Madame Deron has always employed as auxiliaries both firmness and mildness, the constant use of emulation, and especially rewards for application and regularity in study. She is seconded by her sister-in-law, Mademoiselle Deron, who, like herself, has always followed the career of instruction; these two ladies watch with the greatest zeal over the daily progress of the pupils.

The locality of the institution well known and appreciated in New Orleans, as one of the most suitable and salubrious in the city, is perfectly well arranged; the class and study rooms and dormitories are spacious and airy, looking over several gardens, and there are besides a handsome yard and a terrace sheltered from the sun and intended for the recreation of the pupils.

The general instruction is given both in French and English; it embraces all the branches which constitute a finished education for young ladies. The English language is the object of especial care, the Creole pupils being required in their communications with each other, and with their professors, to speak the English language exclusively.

Mr. Orton, who has been attached to the Academy from its foundation, devotes a great part of his time to impart to the pupils of the higher classes, a thorough knowledge of the English language and literature, the other classes are intrusted to well qualified American governesses.

Madame Deron has reserved to herself the instruction of the French classes. She has besides secured the assistance of an excellent Professor of the higher sciences, Monsieur H. Jegou, who divides with Monsieur H. Deron and Madame Deron, the care of the French department.

The Spanish language forms a part of the system of study.

With respect to religious instructions M. l'Abbe Tholozane, whose zeal is so justly appreciated, continues to prepare the pupils for their first communion in the chapel of the institution.

MUSIC.

The study of Music is the object of particular care. Madame Lavillebeuvre, an artist of the higher order, is attached to the institution as Professor of the Piano and Harp. A course of Vocal Music by one of the best Professors of the city.

As a means of emulation, the institution has adopted monthly musical examinations at which parents are invited to be present.

A Professor of Dancing is attached to the establishment. a30

In Quart bottles.

For Purifying the blood, and for the cure of Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.

In this preparation we have all the restorative properties of the root, concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels, and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent, which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is, that it meets and neutralizes the active principle of disease, itself, and when that is gone, the symptoms necessarily disappear; and we have only to point to the accumulated testimony of multitudes who have experienced its effects, to convince incredulity itself of its real value.

The Proprietors submit to the public the following certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla:—
CHATHAM, Mass., July 28, 1850.

Messrs. A. B. & D. SANDS:
Gentlemen—I truly valuable do I consider your Sarsaparilla, that I feel it to be my duty to state for the benefit of others, the cure effected on myself. Previous to 1845, I had a disease of the throat, which destroyed the tonsils, and was then attacked with violent pain in the head. This soon resulted in severe inflammation, and immense quantities of blood and matter were discharged. For six weeks the disorder continued in the head, and then pervaded the body generally, attacking all the limbs. I was confined to a sick bed, from which I never expected to arise.—Many physicians attended me, and their most skillful pronounced me past cure. In short, tongue cannot express my sufferings; and in this condition I heard of your Sarsaparilla, purchased six bottles, and renounced all other remedies. I did not expect to take all I bought, so debilitated had my system become.—Contrary to all expectation, my health almost immediately began to improve, I was able to attend to my domestic duties, and soon could walk out, a thing I once thought would be impossible. My gratitude I cannot express, feeling satisfied that nothing else could have relieved me of the misery and suffering I then endured. I most cheerfully recommend Sands' Sarsaparilla to all suffering as I have done.
Respectfully yours,
REBECCA MAYO.

Knowing the above statement to be strictly correct, and being near neighbors to Mrs. Mayo, we cheerfully testify to the same.
WARREN RODGERS, Esq., PRISCILLA L. DOANE, JOHN HALLET, REBECCA SMITH.

ANOTHER REMARKABLE CURE.
New York, Aug. 8, 1850.

Messrs. SANDS—Gentlemen—I have great pleasure in acknowledging to you the great benefit I have received from the use of your Sarsaparilla. A subject of pulmonary disease, I made a voyage to Europe, but while there continued to be afflicted. A few weeks after my return, I was seized with a violent hemorrhage of the lungs, and from the debility and great prostration of strength that followed, with the protracted difficulty of respiration, I am entirely relieved by the use of your Sarsaparilla, which I consider a most important and truly valuable discovery in the healing art. I feel that I have to ask for fourteen years enjoyed so good health as at present.
Gratefully yours,
S. E. RAYMORE.

Dr. Ed. Martin's Vermifuge Syrup,
Without any disagreeable Taste or Smell.

THE MELIA AZEDARACH, (Pride of India). The excellent effects of this Drug, which are attributed to [illegible] Cases XXI, XXII, Arbres, was one of the most celebrated vermifuges but on account of its unpleasant taste and smell, it could not be given to children. In order to remove that objection, the celebrated Doctor Martin suppressed all the principal agents of the above taste and smell.

Having sought with the greatest care in the bark of that root of this tree, the active principle which produces such excellent results, in a convenient form, to give to children—he has succeeded in extracting it in its purest state and by combining it with other well known plants which are equally vermifuges, he has produced a preparation to compose the above VERMIFUGE SYRUP, the efficacy of which is now beyond the shadow of a doubt.

This Syrup, of an agreeable flavor, can be administered without the slightest apprehension to the most delicate children. It does not weaken the intestinal organs, since the doses taken in a variety of short intervals is the child may be cured and strengthened; it will immediately remove all the symptoms caused by worms in any disease, dangerous or not.

Some mothers rendered timorous by the frightful results of the various vermifuges hitherto employed, have given it to their children, but in doses extremely small; this has, in such cases, rendered the effect necessarily so slow, but it must be remembered that this Syrup contains no poisonous agent, and the mildest and surest of remedies that might have separated the patient with the most experienced practitioners, by quite comply premedity and regulating the doses adapted to their different ages, and that cured and established the sures and happiest success.

To avoid deliberating the little patients by too severe a diet, we have, in said of the doses originally prescribed in the following manner:

Children 3 to 5 years old, three tea spoonfuls a day at an interval of 2 hours, 2 hours. Above five years old, three table spoonfuls at the same intervals. No nourishment to be given between the first and third dose, but within an hour after the third.

The Syrup must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of those hitherto known.

DR. EDOUARD MARTIN'S
HYGIENIC ELIXIR,
Against Sea-Sickness.

FOR a long time past the scientific world, medical men especially, appear to have been struck with the remarkable fact, that among the innumerable collection of curative agents discovered, not one has been found to counteract or even mitigate the deplorable effects of sea-sickness. Several means have been tried to attain this end. Chemical science, whether simple or compound and many trial, have hitherto proved signal failures. Amidst many be formed the renewed by the perusal of the annals of Pharmacy, Chemistry and Medicine of all countries published within the last ten years.

The inventor of the "Hygienic Elixir," has at length made the important discovery. After numerous experiments and observations on the proportions of the substances composing the Elixir, he is enabled to offer it to travellers in the shape of a palatable draught, not decomposed or altered by climate or age.

The Elixir checks sea-sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally infallible, and procures a genial feeling of ease and comfort. The nausea ceases as if by magic, calm and sleep are restored the appetite awakened and the digestion effected promptly under the influence of this tonic.

The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of his Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea captains, but will append only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Captain Labory, having had opportunities of testing, under his own immediate supervision, the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:

DEAR DOCTOR:—During my last voyage to France I have had opportunities of testing, on divers persons, your remedy against sea-sickness; I am happy to be enabled to report to you that I have obtained the best results, and if it were possible to alter this remedy into a palatable draught, such as a lemonade of some kind, which could be more easily taken than in its present shape, especially when the sea-sickness has already commenced, nothing more would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without being accustomed thereto.
I am yours truly,
Signed, A. LABORY, Com't. Ship P. O—ear.

The improvement suggested by Capt. Labory, has been effected. The Tonic and Hygienic Elixir against sea-sickness, is sold in four ounce bottles with glass stoppers, care must be taken to keep the bottles corked, to prevent evaporation.
