HEALTH RESTORED!!
PARKER'S LIVER PILLS
UNEQUALLED BY ANY MEDICINE
FOR THE CURE OF DYSPEPSIA OR INDIGESTION, DILIGENCE, DIZZINESS, HEADACHE, CONSTIPATION, DIARRHŒA, GOUT, RHEUMATISM, GRAVEL FLATULENCY, &c.
THIS PREPARATION is made from the best Turkey Rhubarb, and combines all the valuable properties, combined with such aromatics as will be found materially instrumental in its operation, and is thereby rendered an exceedingly useful medicine in a variety of affections where a cordial aperient is deemed requisite.
As a medicine, Rhubarb (the Turkey) has for a considerable period held a high place in the medical world, and has thus far proved itself eminently deserving its great reputation, through the valuable properties univerfally conceded to be peculiar to it, when procured in its pure state.
In cases of Dyspepsia or Indigestion, it is an invaluable remedy, and as a preventive of the various disease arising from that very disagreeable complaint, holds a high place in the estimation of the medical profession.
In cases where griping pains affect the stomach and bowels, this preparation is strongly recommended, whilst in cases of Costiveness, it is confidently offered, as it can at all times be taken when coloring purgatives would otherwise be attended with danger.
This preparation cannot be too strongly recommended to the many thousands now suffering from Costiveness, or indigestion, and its consequences, Bilious and Nervous Headaches, Diarrhœa, Constipation, Gout Rheumatism, Flatulency, Gravel, &c., as its effects are mild and gentle, and yet at the same time as powerful as any other medicine of the kind, and its effects are unattended with any disagreeable qualities.
Prepared and sold wholesale and retail, by
JAMES TARRANT, Druggist, &c.,
corner of Dryades and Washington sts, New York.
ALSO, by SICKLES & CO,
Wholesale Druggists and Apothecaries,
No. 46 Cedar st, New York, Brooklyn, N. Y.
Agents for the Proprietor.
SANCTIONED AND PATRONIZED BY THE MOST EMINENT OF THE MEDICAL PROFESSION.
"By merely pouring water on a ten-spoonful of this Aperient, a cooling and gratefully refreshing Beverage is obtained, resembling Soda Water to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer Waters of Germany."
TARRANT'S EFFERVESCENT
SELTZER APERIENT.
"Of all prescriptions made up with a view to alterative effect, none can be compared with Mineral Waters."—Jones Bath, M. D., F.P., &c.
These waters resume the languishing circulation, give a new direction to the vital energies, and impart to the spirituous action of the skin bring back to their physiological type the vitiated or suppressed secretions, promote salutary evacuation, either by urine or stool, or by transpiration; they bring about in the animal economy an insensible transmutation—a profound change."—Paterson.
MEDICAL MEN of eminence concur in the highest terms the preparation known as "Tarrant's Effervescent Seltzer Aperient." Could the numerous testimonials which its successful and valuable medicinal powers have elicited from the most distinguished Physicians be here exhibited for inspection or which the columns of a newspaper permit their insertion, proofs of its efficacy UNDENIABLE AND UNANSWERABLE would be exhibited, to the sceptical and doubtful, and deep the conviction of even the most sceptical, and it would stand forth to the world in triumphant success, (as in truth is the most agreeable, refreshing and efficacious medicine ever offered,) the cure of those diseases which are engendered under the heat of a tropical sun. In the practice of Physicians, the Aperient has actively supported the Seltzer Powders and shown its superior medicinal properties—its mild though sure effect upon the system—its agreeable flavor and the certainty of its operation, which has stamped it with the seal of success and quickness with which the Seltzer Aperient may be properly administered, as from an hour to a day, or even longer, if the occasion may require, the bowels are qualities which likewise obtain for it a superiority and must without fail, enlist in its favor the fastidious and patronage of all who have ever taken the beneficial operation of the deservedly celebrated Aperient. The quasimity with which medical men join in a praise, is a strong guarantee that its deserved fame will increase, as far as to make use of mustard of which the most consummate judgment, and the most delicate tact, in adjusting with other medicinal substances, the quantity of powder an artificial tart by adding to it carbonat of ammonia—and strongly spread substances. You can detect the same to injurious to health, by the long continued heat it leaves in the throat and palate, while the tart of the genuine article is milder and so pleasant to the taste.
Deposited at Mrs. Lorillie & Co—Corner of Royal and Customhouse sts.
BRENN & Co—Corner of Chartres and Bienville sts.
BATAILLE & BIGEY, corner of Chartres and Bienville sts.

NEWS FROM ANGLAND,
BY THE EXPRESS MAIL FROM NEW YORK.
—WILLMER & SMITH'S EUROPEAN TIMES.
Arrangements have been made by which the EUROPEAN TIMES, published in England, expressly for the UNITED STATES and CANADA, will be sent forward on the arrival of all the Packet ships to Boston and New York from England.
This journal will be forwarded from New York on the arrival of the Express Mail from Boston, in 48 hours in advance of the regular mail to this City by railroad conveyance.
The Proprietors are willing to pay high charges for news, and are prepared to send to London, by Express, any intelligence of importance received by the Packet ships from England. Their arrangements are such that they can be in possession of every description of intelligence, and forward it to America, which has frequently been of great importance to the shipping interest. Foreign Merchants, in the sailing of the packet ships, will find it to their interest to avail themselves of the opportunity of forwarding intelligence of the departure of the steamship which conveys the intelligence of the departure of the steamship which conveys the intelligence of the departure of the steamship which conveys the
