NEW ORLEANS DAILY NEWS

MONDAY MORNING, October 23, 1848.

COMMERCIAL.

OFFICE OF THE DAILY NEWS, Friday Evening, October 22, 1848.

We have noticed a fair amount of business in our landing stages during the past week, Cotton, Tobacco, Sugar and Molasses having moved off with some animation, while in Flour, Grain and Provisions of all kinds, the transactions have been but of a limited character. The rates for Cotton and Molasses have declined, while in other articles the changes have been insignificant. Freights and Exchanges are without much alteration, though the rates for the former have been easier for shippers.

Yesterday morning we published the Europe's advices, embracing Liverpool dates to the 9th inst.—They reported slow sales of Cotton without any alteration in prices; holders offering freely, but not pressing their stocks on the market. The business of the week was stated at 45,000 bales. Advices from Manchester were unfavorable. Consols were quoted at 08¾ for Money. At Havre Tres Ordinaire was quoted at 112 francs.

This morning the Pacific's accounts appeared in our columns, with Liverpool dates to the 12th inst. They reported sales of 14,000 bales of Cotton for the day, including 1000 Orleans and Mobile, the market closing steady; and, according to one circular, with an advancing tendency. Consols had advanced, and closed at 89½@89¾.

COTTON.—Arrived since the 16th instant, 83,613 bales. Cleared in the same time for Liverpool 16,315 bales, Havre 10,862, Genoa 628, Barcelona 980, and Boston 183 bales; exported 22,968 bales, making, in addition to stock of 170,731 bales, and leaving on hand, including all on shipboard not cleared this day, a stock of 170,731 bales.

The movement in Cotton continues brisk, but with the advantage generally in favor of buyers, and the sales of the week have amounted to 60,000 bales, comprising 4500 on Saturday, 12,000 on Monday, 8000 on Tuesday, 7000 on Wednesday, 12,000 yesterday, and 11,500 to-day. Prices have gradually weakened from day to day, and closed at the range of our quotations, which show a further decline for the week of ¼@¼ ⅌ lb. for the middling grades.
