Fever and Ague.

FROM which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasma of vegetable decay. This exhalation is evinced by the action of solar heat on the soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison to the nervous system and exciting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious influence, concentrates the whole blood of the body in the interior and extremities of the frame to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. The system rallies. But in this effort to expel the Fever Poison, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In the skin it fails, and the chill succeeds. The sufferer is exhausted, and waits for the recovery of strength to repeat the same effort another day. These are the fits or paroxysms of Fever and Ague. Such constitutional disorder will of course undermine the health, if it is not speedily arrested.

We have labored to find, and have found an antidote.

AYER'S AGUE CURE,

which neutralizes this miasmatous poison in the blood, and stimulates the liver to expel it from the body. As it should do it does cure this ailicting disorder and prevents its return. And it does cure, and rather does what is of more service to those subject to this infection, it takes so much of it out of the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health, although exposed to the influence that frequently if not only cures, but protects from the great variety of other diseases which are induced by the malignant influence, such as Remittent Fever, Chill Fever, Dumb or Masked Ague, Periodical Headache or Bilious Headache, Dysentery, Diarrhœa, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hypochondria, Cholic, Paralysis and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, are found to assume more or less the intermittent type. This AGUE CURE removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the secretory organs to healthy action, and by restoring those organs by degrees become habituated to do this their office of their own accord. Hence arises what we term *acclimation*. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a sure as well as safer remedy for the whole class of diseases which are caused by the influence of the miasma of which we have spoken, and discovered, and it has still another important advantage to the public, which is that it is cheap as well as good.

ANTEPHELIC MILK.

The only superlatively delicious article.

NO MORE WRINKLES! NO MORE PIMPLES!

Pimples, Freckles, Tan, Sunburn, Redness—in fact, every blemish on the face, disappears under the use of this elegant preparation, leaving the skin as smooth as a child's. Ladies who have used it say it is the most delightful article of the toilet they have ever tried, and that it is the only preparation which will not injure the skin. It is entirely different from all other Milk Washes, being free from all injurious ingredients, and is the only one which will do the work. Ladies who have used ANTEPHELIC MILK for the last year, can testify to its wonderful effects. The results are so sudden, that it has not been necessary to keep it a secret, and we will gladly send our pamphlet, containing testimonials, to any address. Ladies who have used it will not be without it
