Scrofula, or King's Evil.

IS a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and impure. Being in the circulation, it pervades the whole system, and manifests itself in every part and organ, but more in those for its attacks, nor is there any part which it may not destroy. The scrofulous taint is variously caused by the virulent poison of syphilis, by low living, intemperance or confined, impure air, filth and filthy habits, the depressing vices, and a variety of other causes, which, by lowering the vital energy, it will visit the iniquities of the fathers upon their children, even to the third and fourth generation; indeed, it seems to be the rod of God in our days, by which the iniquities of the fathers upon their children.

The effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the skin, eruptions or scrofulous. The foul corruption, which produces in the blood, depresses the energies of life, so that scrofulous constitutions are only suffer from scrofulous complaints, but they have to bear power to withstand the attacks of other diseases; consequently that numbers perish every day, although not scrofulous in their nature, are still a victim to the taint in the system. Most of the ties which decimate the human family have directly in their scrofulous constitution. Of all the destructive alliances of the liver, kidneys, brain, and the great digestive organ, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are known by the lurking infection, and their health is undermined by it. To eliminate it from the system, we must eradicate the blood by alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is recommended from the results remarkable that have been discovered for the eradication of this foul disorder from the blood, and the remove of the system from its destructive consequences. It should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruption and Skin Disease, St. Anthony's Fire, Tetter, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Ulcers and Sores, Mercurial Disease, Dropsy, Dyspepsia, Debility, and all complaints arising from Vitiated or Impure Blood. The symptoms of Scrofula or Impure Blood, are in part, pimples, eruptions, and blotches on the skin, tumors, swellings, and sores, and ulcers, and in the system, and accumulate in sufficient quantity, they produce the disease, or the seeds of disease, which protection these cure, and few will ever suffer from it.
