ANTI-GOUTY ELIXIR
OF
HIPPOLYTE BRIEUGNE,
INVENTOR OF THE ANTI-RHEUMATISM
Tropical Balm.

TELL now all medical science has had no power over the gouty, this terrible disease which has cross made so many victims all over the earth, and still bears daily so many thousands from their occupations to give them up to the most painful sufferings. It is meant to recall to our minds the symptoms of this disease we well known to be numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious researches of M. Hippolyte Brieugne, already known for the discovery of the anti-rheumatical TROPICAL BALM, that has had down to this day so great a success. The ANTI-GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power for one great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous patients.
The ANTI-GOUTY ELIXIR is easy to take, and its taste is in no way disagreeable. It can be taken pure or with the addition of three spoonfuls of tea or coffee. Its effects are felt after a few hours, whatever may be the intensiveness of the fit. In twelve hours at most the suffering disappear, and all its symptoms vanish away.
For sale at the general depot, in New Orleans, at
