GOUT AND RHEUMATISM

CURED BY THE ANTI-GOUTY WINE OF DR. D'ANDURAN

Many centuries pathologists have been looking in vain for a remedy of a cure and effectual action against Gout, and acute and chronic Rheumatism, and, indeed, all cases of Gout have been treated with more or less success, but none ever obtained so speedy and safe effects as the Anti-Gouty Wine of D'Anduran.

It is not wonderful to see a gouty patient walking on his bed under the most excruciating torture, and as once, as it were, delivered of his pain, by taking this remedy! Flesh, bone, fever, is the qualification.

Suffering from the gout for fifteen years, so much so that he could not stand to be, and his, the author not himself to study especially arthritic diseases, and after a series of experiments on himself, and on his patients, discovered a remedy which cured him of this cruel malady. Dr. D'Anduran offered his preparation to the Medical Faculty, a large number of physicians, both in France and other, under the direction of the author of experience, and obtained wonderful results. This made of certainty effect in power.

By adopted a medicine to alleviate pains from the gout, says Dr. D'Anduran, but to destroy even the portion of the disease. All the writers and even experience demonstrate that gout comes after experiment, irritation of the intestines, &c., my remedy is not against those various stages of the disease. It has been found that gouty patients experience a great alteration of the cutaneous, urinary and intestinal secretions. The Anti-Gouty Wine is so the gouty time a *purgative, emetic* and *diuretic*; it delivers alleviation to the body, the entire is satisfied immediately, as a remedy is involves and nature is, as much so that the pain and sufferings of gouty will sometimes be doubled in proper dosage, guarantee for the patients who use the Anti-Gouty Wine.

Nonprescrit preparation being one of the most efficacious enemy of gouty and rheumatic affections, the remedy, acting as a reducer, will modify and so open perspiration, which in most cases is entirely stopped.

During treatment, patients need not subject themselves to any particular diet. They are exposed to no temperature, but without any extreme of privation.

Every bottle bears a label with the author's signature, and is delivered with a treatise upon the method of using it. Also signed by Dr. D'Anduran; of Cahors, for consultation. The bottle enclosed in a pasteboard box, wrapped up in a label bearing the author's stamp. Price 3 francs.

L. MILLER'S HAIR INVIGORATOR,

AN EFFICACIOUS, SAFE AND ECONOMICAL COMPOUND

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the hair from turning gray.

FOR PREVENTING BALDNESS, and during it, when there is the best portion of vigor or temperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous eruptions of the skin.

FOR BEAUTIFYING THE HAIR, imparting to it an unequaled glossy and brilliancy, rendering it soft and silky in its texture and causing it to part readily.

The superiority and the increasing demand for this unrivaled preparation convinces the proprietor that it is only necessary to notice a discerning public to secure a continuance of the patronage with which it has been favored for so long a period. It renews the hair and scalp, cleanses the scalp and skin, and gives a rich, soft, glossy appearance, and when used for the purpose of dressing, it will give strength and vigor to the hair, and will prevent its falling out. It is also a most delicate and agreeable article to place upon your toilet table.

The extraordinary demand for this article has induced many unprincipled persons to offer spurious imitations, which are sold at a low price, and are put up in bottles similar to those of the genuine article, which bears the signature of L. MILLER, and the name of the place, Paris, and the genuine bottle has
