MEDICAL.

HYGIENIC ELIXIR.
Against Non-Sickness.

FOR a long time past the proprietor of the Hygienic Elixir has been in possession of the means with the unmistakable fact, that among the innumerable collection of curative agents discovered, not one has been found to combine such certain and immediate effects of co-sickness. Several means have been tried to attain this end. These remedies, whether simple or compound, after many trials, have fallen far short of equal success. An idea may be formed thereof by the perusal of the analysis of Professor Chemistry and Medicine of all countries, published within the last ten years.

The inventor of the "Hygienic Elixir" has at length made this invaluable discovery. After numerous tasks, changes and alterations in the proportions of the ingredients composing this Elixir, he is enabled to offer it to travellers in the shape of a portable freight, not decomposed in whatever climate they may be.

The Elixir elevates consciousness immediately and therefore so much in a healthy state. It is not a drastic in the constitution of the person using it, it imparts nothing and preserves several hours, and will appear to be in perfect health. The immediate effects are, an improved appetite, a good digestion, and the digestion effected promptly under the influence of the Elixir.

The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of the Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy, Captain Tolmay, having had opportunity of testing, under his own observation, the efficacy of this remedy, thereon the sloop of pilots, Pierre Lacoste, stores thus the result:

Dear Doctor: Permit me to say to the French Canal Indemnification Bureau, on the very persons, and to speak against the Elixir, I am happy to be called to report to you that I have obtained the best results and I have pleasure to offer this remedy to my medical friends, and to recommend it as one of those which could be more easily taken than the pleasant drugs, especially when the sea sickness has been contracted. Indeed, more than one, I have tried the Elixir and will be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without the contract disease.

I am yours truly,
signed, LABORY, Capt. Ship Uberon.

It imparts most magnificent effects. Great success. Sold by The Tonic and Hygienic Elixir against sickness, in an ounce bottle, with plain stopper. Price one dollar. It is to keep the bottle cork, to prevent evaporation.

For sale wholesale and retail, by

F. E. MOUGIN,
Apothecary, New Orleans.

Sole Agent of the proprietor, Dr. Edward Martin.

Dr. Ed. Martin's Vermifuge Syrup.

Without any disagreeable Taste or Smell.

THE MELIA ANDRASIC (Follie Spanish, Lilac Nill, order H. Melliacee Tournefort, Class XXI, order Decandria) is the most beautiful ornamental tree which we have, and which for many years has been, supplied us with the principal agent in this elegant and powerful.

Have sought with the greatest care in the bark of the root to discover the active principle which produces such effects, and have succeeded in obtaining it in a pure state, and by combining it with other Chemic plants which are nearly all indigenous to Louisiana, we have arrived at composing the above Vermifuge Syrup, the efficacy of which is now beyond the shadow of a doubt.

This Syrup, of an agreeable flavor, can be administered without the slightest apprehension for the most delicate children. It is one continued during three days, the doses being given at shorter intervals as the child may be older and stronger, will infallibly expulse all those intestinal worms which are the source of many diseases, daughter and other infantile children.

Since mothers, rendered timorous by the frightful results of the various vermifuge lubricants employed, have recourse to other remedies, but have seldom obtained results in such cases, tends to the effect incomplete, and might have injured the stomach of the child, and not expulsed or not most expulsed generations, by jumping the different agent tested and established insects that it contains.

To avoid debilitating the little patients by too severe a cure, we have modified the doses originally prescribed, in the following manner:

Children two years old, three tea spoonfuls a day, at two intervals of four; for 2 years, one tea spoonful, three intervals spaced at the same intervals. No matitude of medicine is to be taken, the first and third dose, but within an hour after the third.

The Syrup must be administered during three consecutive days, the surplus of the dose, if any, is to be given to the child, and the medicine is to be taken in the morning. Prepared and sold by

E. F. MOUGIN,
Sole Proprietor and Druggist.

HEAD QUARTERS,
LOUISIANA LEGION.
New Orleans, June 19th, 1856.

GENERAL ORDERS No. 71.

Celebration of the Fourth of July.
INSPECTION REVIEW.

AGREEABLY to the order of Major General, John L. Lewis the Louisiana Legion will turn out in full uniform on the new Place d'Armes, Rampart-street, on SUNDAY the 6th of July at 9 o'clock a. m. precisely, to celebrate with the home the 80th anniversary of our glorious Independence.

The commanding officer of the 4th and compliance will give to the Brigade Inspector, Major Fletcher an exact account of all non-commissioned officers and privates, and a correct roll of the 4th at sun rise, and a third one the same day at noon.

The Lafayette Guards Company, Capt Dumaron, will assemble on Place d'Armes, half an hour before the reviewing of the Brigade.

The commanding officers are charged with the execution of the present order. D. AUGUSTIN,
Brigadier General.
Aide de Camp. jel7

In Quart bottles.

For Purifying the Blood, and for the cure of Scrofula, Rheumatism, Mercurial Diseases, Eruptions, Tetter, Ringworm, Pimples, Blotches, Boils, Tumors, Ulcers, Consumption, Liver Complaint, Dropsies, Consumption, Costiveness, Loss of Appetite, General Debility, &c.

In the preparation we have sought to combine those medicinal properties which experience, chemistry and the practice of the most eminent physicians have proved to be the most efficacious in the cure of the diseases for which it is recommended. Its effects are mild, but decisive, and it may be taken by the most delicate without fear of injury or inconvenience. Its ingredients are all of a purely vegetable nature, and it is free from all those ingredients which are so injurious to the constitution, and which are so frequently introduced into the compositions of those who are ignorant of the nature of the diseases they undertake to cure. Its effects are unknown and unknown upon the system
