CITY INTELLIGENCE.

ST. CHARLES THEATRE.—Mr. Anderson, this evening, will personate the character of *Charles*, in the comedy of the "*Elder Brother*," adopted to the stage, from Beaumont and Fletcher.

FIRE.—A fire was discovered yesterday morning about half past 9 o'clock, in one of the bed rooms of the Verandah Hotel, which was got under before doing any material damage. It was caused by a defect in the flue of the chimney.

Our indefatigable firemen were soon on the spot, but their services were unnecessary.

THE RACING MATCH, which was to have come off to-day between *James K. Polk* and *Tippecanoe* over the Metairie Course, has been postponed in consequence of the heavy state of the track—one of the terms of the agreement at the time the match was made, was that the track should be in perfect order.

RECORDER BALDWIN'S COURT.—Charles Welsh, arrested for carrying a concealed iron bar, considered as a dangerous weapon, was yesterday brought before the Recorder and fined $25.

John Grower, charged with attempting to rescue the prisoner from the police, was sent before the Criminal Court for trial.

George Tyce and Andrew Dailey, were committed to the Work House for 30 days, under the vagrant law.

HIGHWAY ROBBERY.—A most daring robbery was committed yesterday in broad day light, a short distance back of the city. A young man named James McCarrell, from the upper country, went to the Basin of the New Canal, for the purpose of taking passage in a schooner bound for Mobile. Not finding a vessel ready to leave, he was informed by two persons who had ascertained his wishes, that there was a vessel lying at the Lake end of the Canal, which would sail that evening, and offered him a passage with them down the Canal, in a skiff which they had left a short distance below the Tollgate. McConnell consented to accompany them, and after proceeding as far as "Tobin's Canal," about three quarters of a mile below the Basin, they proposed to cross over to the Old Canal, as they would be certain of finding a schooner which would leave during the day. Upon their reaching the foot of Gravier street, on the bank of Tobin's Canal, McCarrell was knocked down, and most shockingly beaten by the two villains, who, thinking that their victim was dead, threw him into the Canal and fled. The cold water served to revive McConnell, who, after some time, was enabled to crawl to where some men were cutting wood, who conveyed him to the Charity Hospital.—After medical aid had been provided for him, he was able to give the above information. Officers Ewart and Bailey of the Second Municipality Police, during the day, found the saddle bags and clothing of McCarrell, lying in the Canal, near the spot where the robbery had taken place—the robbers having only taken the money, $12, and a pistol, which they contained.

☞ We are indebted to the Clerk of steamer *Gen'l Pike*, for late Cincinnati papers.

☞ Our thanks are due the officers of the steamboat *Albatross* for late Cincinnati and Louisville papers.

☞ A large bear was killed on Sunday last, a few miles below the third municipality, by a creole of this city.

☞ The jail of Vigo county, Indianna, at Terre Haute, was consumed by fire on the 8th inst. None of the prisoners were burned, or escaped.

☞ The trial of Henry Daniel for the murder of his brother-in-law, C. W. Johnson, in the Court House of Mountsterling, Ky., has been fixed for the third Monday in June. Daniel did not apply for bail.

RECORDER GENOIS' COURT.—Joseph Crager, Joseph Hougan alias Hoover, Robert McDaniel and John Kelly, were yesterday committed by the Recorder for 30 days each to the work house, under the vagrant law.

☞ The St. Louis Republican says that arrangements have been made with the regular packets now running from that city up the Missouri, by which a mail will be provided daily for all the post offices in northeastern Missouri, Iowa and the river counties of Illinois.

THE INDIAN FIGHT.—The Van Buren (Ark.) Intelligencer, of the 4th inst., says:—

The skirmish, which we spoke of last week as having taken place between a portion of the Pawnee Mahes and a party of Creeks, turns out to have been between the Osages and Creeks. The excitement is very great in the Creek nation. Capt. Boone was ordered to the place of action with his company of dragoons, and two companies of infantry have proceeded to his assistance.

☞ The New York *Herald* announces its intention to despatch the news by the foreign steamer through to New Orleans, to touch at the principal points *en route*. We mean, says the *Herald*, to do this, to try the mettle of Cave Johnson, the new Postmaster General.

DIED.—The Nashville *Whig* of the 15th inst. states that "Capt. William Nichols, civil engineer, late superintendent of the Naval Hospital at New Orleans, died in this city at the Nashville Inn, on Tuesday night. He was taken ill on his way to Washington city, and lingered here five or six weeks. We learn that he had skilful medical attendance to the hour of his death, and that his remains were interred with all respect, in the city burying ground, last evening. His disease was consumption."

☞ We mentioned yesterday that Gen'l CAMERON, the newly elected U. S. Senator from Pennsylvania, was a locofoco. It now appears that we are probably mistaken. The *Pennsylvanian*, (l. f.) says that "Mr. Cameron is pledged to the support of whig measures, and that his notions, or whatever else they may be called, are set down as thoroughly of the whig school." So much the better. Gen'l Cameron was elected by an union of the whigs and natives, with a few democrats who refused to adhere to the caucus nomination.

ORLEANS THEATRE.—*La Reine de Chypre*—This magnificent production of Halevy will be brought out to-night at the Orleans Theatre. Mr. Davis, the indefatigable manager of this favorite establishment has spared neither pains nor expense to render this opera the most gorgeous that has ever been produced in this city, and even the splendid scenic display in the *Jewess* will be eclipsed by the more costly exhibition of the *Queen of Cypress*. All the lovers of good music will of course be present this evening, and we expect to see the Orleans Theatre graced by the largest and most brillian audience of the season.

LOSS OF THE STEAMBOAT DECATUR BY FIRE.—The steamboat *Grace Darling*, from Louisville, reports that the steamer *Decatur*, bound up the Tennessee River, took fire on the morning of the 21st at Island No. 66, and burned to the water's edge. She took fire abaft the wheel, while running in the middle of the river, and was run on the Arkansas shore. The passengers and crew were all saved, except a black girl who jumped overboard and was drowned. The steamer *Mazeppa* came alongside a short time after, and took on board the passengers of the *Decatur*.

THE SENATE.

The *National Intelligencer* of the 17th contains the following transcript of the proceedings of the Senate on Saturday the 15th inst.

Before the Senate proceeded to the consideration of Executive business on Saturday, a resolution, moved by Mr. BREESE, was adopted, calling upon the Secretary of War "to transmit to the Senate at the present session the report made by John Stockton, Superintendent at the mouth of lands on Lake Superior, with the map accompanying the same."

The Chair submitted the credentials of the Hon. SIMON CAMERON, elected by the Legislature of Pennsylvania on the 13th instant, a Senator of the United States from that State for the remainder of the term for which the Hon. JAMES BUCHANAN (resigned) was elected, (till March, 1849.)

The Senate was in Executive session till half past 2 o'clock. Several nominations were confirmed, the only important one, however, were CHARLES H. HASWELL as Engineer in Chief in the Naval Service, and Mr. LAUGHLIN, of Tennessee, as Recorder of the General Land Office.

The Zoll-Vereis Treaty, after considerable discussion was laid over for further consideration till next session

THE RIVERS.—The Ohio is falling fast—up to last evening, it had fallen 3 feet. There is however, water enough on the falls for the largest boats to ascend and descend. The Pittsburg papers report 12 feet in the channel on Thursday evening and falling more rapidly than it rose.

The following is from the St. Louis Republican of Thursday.

The Mississippi opposite here is nearly on a stand. The Osprey reports scant four and a half feet on the rapids at Keokuk and falling fast. The Illinois is reported to be falling fast, and the Missouri rising, with fine in the channel below the Gasconade.—*Louisville Journal*, 17th inst.

NEW WORKS.—We are indebted to J. B. STEELE No. 14 Camp street, for the 10th and last number of that exciting story "*The Mysteries of London*." By the way, we have never seen *Nos 9*, of the same work.

We have likewise received "*My own Story*"—another of those exquisite tales for children, by Mrs. Hewitt; full of truth and deep interest and wholesome morality.

The Virginia locofocos say that Tennessee is doing very well. She did not cast her vote for Mr. POLK, her own citizen, and yet she has the President, the Postmaster General, and the Consul to Liverpool! The largest fish in the sea of spoils'—*Alex. Gazette.*

THE PROTEST OF MEXICO.—A letter from Washington to the New York *Courier and Enquirer*, says:

"It is understood that a reply has been made by our Government to the protest of Gen. Almonte, and that it has been framed upon the precept that 'a soft answer turneth away wrath.' The Mexican Minister spoke of the annexation of a province of Mexico as 'an unparalleled outrage;' our Government passes by this harsh language, and seeks to smooth over the wrong, which no argument can justify."

APPOINTMENTS AND REMOVALS.—By a gentleman from Washington, who is likely to be very well informed on the subject, we learn that no removals will be made at present, except for causes other than political associations, and perhaps none at all. President POLK has seen something of the evil of being beset, on his arrival at Washington, by an army of hungry expectants, and if he has energy enough to break up the custom, (as we believe he has,) he will render an important service to the country, and especially to his successors in the office of President. Let it once be understood that officers are not to be obtained by siege, nor by importunity of every sort, and hundreds will save their money who now spend it in useless pilgrimages to Washington. It is better for them, better for the President, and better for the people, that the practice should be broken up.—*N. Y. Jour. of Com.*

MURDER NEAR FORT.—A case of cold blooded murder occurred in Miller township, in this county, on last Saturday night, which has created great excitement in the neighborhood. A Mr. Morris Scuggin, a peaceable and worthy citizen, was shot through the head while sitting by his own fireside, and died instantly. Two balls or slugs, passing through the temples, and one striking his wife, who was engaged at some work near him. The night was very dark and rainy, and the monster who done the deed must have come to the window, as the powder blackened the glass and sash. There was no person in the room except Mrs. Scuggin.

Mr Scuggin has left a wife and large circle of friends to mourn his untimely death. Suspicion has fastened on a neighbor of his, but as it is under legal investigation, we forbear making any further comments.—*Lawrenceburgh (Ind.) Beacon.*

NEW HAMPSHIRE ELECTION.

The Boston *Atlas* of the 15th inst, says—"We receive, and return, by last night's mails, of the votes of over 150 towns in that State. It is not possible, yet, to tell who will be the result. Our correspondent at Dover writes that John H. Steele, the locofoco candidate for re-election as Governor, is, in all probability, defeated. He says that some of the darkest holes of locofocoism have gone dead against him. Harriman, for instance, which has always been the shell-nether of the party, giving them sometimes a majority of 400, now gives one hundred against him." He says, too, that Woodbury, the candidate against Hale, for Congress, runs below his ticket. Other accounts confirm the statement of Woodbury's probable defeat. These reports about the defeat of Steele and Woodbury may prove true—but we fear they are both elected—though, if it is so, it must be by very small majorities.

P. S. Since writing the above, we have received the Concord N. H. Courier, (whig) with a written endorsement on the margin—"*Steele and Woodbury probably defeated*" We have also an extra from the Patriot, (Loco) which gives the returns, but *not one word of comment*. This is somewhat ominous."

LATE FROM BUENOS AYRES.—By the Argentine barque Sirena, Capt. Goodrich, arrived at Philadelphia yesterday, we have received our regular files of the British Packet and the La Gaceta Mercantil, to the 11th of January inclusive.

We learn that the decree from the Buenos Ayreas Government, under date of the 11th January, announcing the determination of an immediate and strict blockade of Montevideo, has been made public on the day the Sirena sailed, but had not then been published officially.

The following is extracted from a letter from an officer in President Oribe's army, dated

CERRITO, December 31, 1844.

Since writing you on the 23d, little or nothing has occurred to communicate, excepting the heavy weather that has been experienced here since the 25th. On that day I landed arrived with the corvette and bring from Buenos Ayres. The Union also returned on the 28th. No steps have been taken except in a diplomatic way, by the Admiral, in order to enforce the 1st clause of the engagements contracted by the Riverate Government. The Brazilian Chargé d'Affaires still remains on board, awaiting instructions from Rio Janeiro.

Admiral Brown returned off Montevideo on the 29th having relinquished the pursuit of the piratical boats to the small craft undertaken to have been despatched from your port.

We are probably better acquainted than I am with the never ceasing ministerial changes in Montevideo. Flores has been dismissed by Vazquez from the command of the garrison, and Henrique Martinez once more brought to act on the political stage, though not without a strong opposition from the military officers of the military. Pacheco y Obes's successor has decided down into commander of the Cerro fortress, and it is said that he has asked for his passport in order to proceed to Rio Grande. Gabriel Pereyra appears to have been once more to him, with a view to recede to him to his disgrace, but with what effect I know not.

A decree dated 26th ult. states, that from the 1st instant vessels trading to foreign ports shall pay three dollars a ton, and foreign vessels four dollars, except those to be by treaty are placed upon the same footing as national vessels. Foreign vessels shall pay for the health visit twenty five dollars, and for the certificate an equal sum. Foreign vessels which have no consul, shall pay forty dollars. These dues shall be paid—one half at the entry of the vessel and one half at her departure. Vessels of foreign vessels which do not receive cargo, shall pay one half of the dues in question.

Piratical boats have made their appearance in the Parana. We have already news of the capture of one, and the hope is entertained that the enterprise will be taking of the best, as every measure had been taken to ensure this result.—*N. Y. Herald*, 16th.

DIED—Yesterday afternoon, Mrs GEORGIANA LAMBETH, wife of Wm. M. Lambeth Esq. of the city. The friends of the family are invited to attend the funeral without further notice from her late residence, Canal street, this afternoon at 4 o'clock. m25

COMMERCIAL.

NEW ORLEANS, MONDAY NIGHT,
March 24, 1845.

After closing our enquiries on Saturday afternoon, a list of 2,500 bales was disposed of, which swelled the transactions of the day to 7,000 bales. This morning the Cotton market opened with a very brisk demand, which towards three o'clock occasioned in sales to the extent of in by 11,000 bales, and relieved holders of a considerable portion of their surplus stocks. Upwards of 2,000 bales were taken for Spain, and the bulk of the remainder was on English account. Price have acquired additional firmness, but we must again repeat that our inside figures offord a more correct criterion of the real state of the market.
