

The numeric-comp style

This style is similar to numeric except that a list of multiple citations is sorted and any sequence of more than two consecutive numbers is formatted as a range. This style will implicitly enable the `sortcites` package option at load time.

Multiple citations

[1, 2]
[1–3, 6]
[1–3, 5–7]
[1–7]

Multiple citations with `\supercite`

This is just filler text.^{1,2}
