Trademarks

Network Computing Devices, PC-Xware, and XRemote are registered trademarks of Network Computing Devices, Inc. Explora, HMX, Marathon, NCDware, ThinSTAR, and WinCenter are trademarks of Network Computing Devices, Inc.

PostScript, Display PostScript, FrameMaker, and Adobe are trademarks of Adobe Systems Incorporated.

MetaFrame and WinFrame are trademarks of Citrix Systems, Inc.

UNIX is a registered trademark in the United States and other countries licensed exclusively through X/Open Company Limited.

X Window System is a trademark of X Consortium, Inc.

Windows 95, Windows NT, and Windows Terminal Server are trademarks of Microsoft Corporation. Windows and Microsoft are registered trademarks of Microsoft Corporation.

Other trademarks and service marks are the trademarks and service marks of their respective companies.

All terms mentioned in this book that are known to be trademarks or service marks have been appropriately capitalized. NCD cannot attest to the accuracy of this information. Use of a term in this book should not be regarded as affecting the validity of any trademark or service mark.

Revision History

Revision history of this document:

Part Number	Revision Date	Description
9300671	Rev. A November, 1998	Roadmap for NCDware 5.1
9300571	Rev. B October, 1997	Roadmap for NCDware 5.0
9300628	Rev. A August, 1996	Roadmap for NCDware 4.1
9300355	Rev. A July, 1995	Roadmap for NCDware 4.0
9300317	Rev. A February, 1995	Roadmap for NCDware 3.3
9300274	Rev. A April, 1994	Roadmap for NCDware 3.2.1
9300253	Rev. A July, 1993	Roadmap for NCDware 3.1

Before You Begin

This *Roadmap* is a guide and a subject index to technical publications about NCDware and NCD terminals.

Finding the Information in the Roadmap

The alphabetical tables in this *Roadmap* describe where to find information about high-level topics in NCDware technical publications.

Each entry in the Manuals column identifies a manual and a chapter in the manual where there is significant information about the topic. The abbreviated manual names are explained at the bottom of each page.

To fine-tune your search, use the table of contents or index of the manuals listed in the *Roadmap* table.

Summary of the NCDware Manual Set

The NCDware manual set does not include WinCenter documentation, although it does address issues related to configuring NCDware for use with WinCenter. The WinCenter documentation is available with the WinCenter software.

This section summarizes the purpose of each NCDware manual and who should use it. It also describes the NCD terminal hardware manuals.

- ❑ *NCDware Publications Roadmap*—high-level index of major topics in NCD manuals.

Anyone who needs to determine where to find information about a specific topic in the NCDware manual set should use the *Roadmap*.

- ❑ *NCDware Release Notes*—description of new features, known problems, and problems fixed in the 5.1 release.

Anyone who is installing NCDware or configuring terminals should read the *Release Notes*.

- ❑ **NCDware CD insert**—instructions for using NCD installation scripts to install NCDware on UNIX and WinCenter hosts.
Anyone who is installing NCDware or configuring terminals should read the *NCDware CD Insert*.
- ❑ ***NCDware User's Guide***—an introductory manual providing information to assist users in becoming productive with their NCD terminals.
NCD terminal users and system administrators who are new to NCDware should use the *User's Guide*.
- ❑ ***NCDware System Administrator's Guide for UNIX Systems***—introductory NCDware system administration guide for terminals with UNIX hosts, describing the tasks required for managing NCD terminals.
System administrators should use the *System Administrator's Guide* to learn the recommended management procedures. It also offers detailed troubleshooting instructions.
- ❑ ***NCDware Reference Manual***— provides detailed technical information about NCDware, including X server error messages, the Boot Monitor and NVRAM, configuring terminals for networking protocols, and the NCD Terminal Emulator.
This manual is for system administrators who set up NCD terminals and the user's environment. Also, anyone who does not use the NCD installation script for installing NCDware or who requires more customization than described in the *System Administrator's Guide* should use the *Reference Manual*. This manual can be ordered from NCD and is available online at NCD's web site, www.ncd.com.
- ❑ ***Remote Configuration Parameter Quick Reference***— information about remote configuration parameters (for terminal configuration) in a condensed, tabular format.

Experienced system administrators and users should use the *Parameter Quick Reference* when configuring terminals by editing remote configuration files.

- ❑ *Using the 3270 Terminal Emulator*—how to use and configure NCD's 3270 terminal emulation software.
Users and system administrators should read *Using the 3270 Terminal Emulator* for information about 3270 usage and management.
- ❑ *Using a PC Card in Your NCD Thin Client Device*—instructions on how to install and use a PC card (also called a PCMCIA card) with your terminals.
- ❑ NCD hardware installation booklets—instructions for setting up NCD terminals and connecting them to the network. Each document is designed for a specific NCD terminal model.
- ❑ NCD memory installation booklets—explain how to install memory in NCD terminals and run the recommended memory test.

The *FLEXlm End User Manual*, a detailed description of how to use and configure FLEXlm license management software, is available on the NCDware CD-ROM in HTML format and online from the following URL: www.globetrotter.com.

In addition, this release includes updated online man pages. Man pages are installed along with NCDware on UNIX systems.

Comments on this Manual

You can send comments, suggestions, or questions about this *Roadmap* to the NCD Technical Publications Department by Internet e-mail. Write to techpubs@ncd.com.

Change User Preferences

Topic	Manuals
Setup menu locations of parameters	PQR
Using Change User Preferences	UG 6; RM 9; SAG 4; <i>ncdprefs</i> man page

Color

Topic	Manuals
(See also Graphics.)	
Color definition file	SAG 9; RM 9, 14
Color depth (16- and 24-bit color)	SAG A; RM 11
Colormap flash protection	SAG 12
Screen background	UG 6

Configuring Terminals

Topic	Manuals
Configuration methods	SAG 4; RM 9, 11
Interactive configuration (TELNET and Setup menus)	SAG 4; RM 9; <i>ncdloadprefs</i> , <i>ncdsetup</i> , and <i>ncdpref</i> man pages
NVRAM contents and utility	SAG 3, 4; RM 11
Using configuration parameters	SAG 4; RM 6, 9; PQR

Console Menus

Topic	Manuals
(See also Local Clients.)	
Command-line options for Console utilities	SAG 7; man pages for local clients
Controlling access to Console	SAG 7, 8
Customizing the environment (Change User Preferences)	UG 6; SAG 4
Informational menus and messages	UG 4; SAG 8
Using the Setup menus	UG 4, 6; SAG 4; RM 9

Display PostScript

Topic	Manuals
Configuring Display PostScript	SAG 17

Failover Features

Topic	Manuals
About failover features	SAG 3
Booting	SAG 3, 18; RM 2, 3, 4
Fonts	SAG 3, 6; RM 7
License service	SAG 3; FLEXlm book
Login services	SAG 3, 5; RM 8

Floppy Drive

Topic	Manuals
Hardware required and installation	<i>Installing Your Floppy Drive</i>
Local file system on floppy disk	UG 11; SAG 9
Using floppy drive support software	UG C; SAG 9; <i>ncdfloppy</i> man page

Fonts

Topic	Manuals
Browser fonts	SAG 15
Configuration for bitmap font usage	SAG 6; RM 7
Configuration for font server usage	SAG 6; RM 7; <i>ncdfs</i> man page
Default font path	SAG 6; RM 7
Display PostScript fonts	SAG 17
Font and font server problems	SAG 18
Font management utilities	RM 7; <i>mkfdir</i> , <i>ncdbdftopcf</i> , <i>ncdfsinfo</i> , <i>ncdfsfonts</i> , <i>ncdfstobdf</i> , <i>ncdmkfontdir</i> , and <i>ncdshowfont</i> man pages
Java fonts	SAG 14
Putting fonts on a non-standard host	SAG 6
Terminal emulator fonts	UG 7; RM 12

Graphics

Topic	Manuals
OpenGL support	UG 6
SIE, converting to XIE	RM 13
XIE support	RM 13

Abbreviations

RM	<i>Using a PC Card in Your NCD Thin Client Device</i>	PC

ICA (Independent Computing Architecture)

Topic	Manuals
Configuring connections	UG 8; SAG 12; <i>icacInt</i> man page
Connecting to Windows NT servers	PC 5; UG 8; SAG 12

Installation, Hardware

Topic	Manuals
Floppy drive installation	<i>Installing Your Floppy Drive</i>
Memory	<i>Installing & Testing Memory</i>
Network interface boards for HMX	Terminal installation booklets and TRP, PEP, and ESP board installation booklets
PC cards	PC; Terminal installation booklets
Terminal hardware	Terminal installation booklets

Installation, Software

Topic	Manuals
Content of the distribution	<i>Release Notes</i>
Installation on UNIX and WinCenter hosts using the <i>ncdinstall</i> script	NCDware CD Insert; SAG 3
Manual installation	Call NCD Technical Support.
