IBM COGNOS EDUCATION

IBM Cognos is the world leader in Business Intelligence and Performance management solutions. It provides world class enterprise planning-, controller- and BI software and services to help companies plan, understand and manage financial and operational performance.
Effective education is one of the best ways to ensure a successful implementation, thus realizing greater business value from your IBM investment. IBM Cognos Education has developed its award-winning and role-based course material to enable every participant to be successful in his or her responsibilities.

We have flexible training options :
- **Public courses**: expert instructors give an in-depth training with hands-on exercises for different roles. Public courses are given in English. The training takes place at our designated NEW training location: Regus, Pegasuslaan 5, 1831 Machelen
- **Private and Customized courses**: for a group of students we can organize a private standard course or create a customized course (involving exercises using your data, your applications, your business processes or compose a customized content). The training can be given in English, French or Dutch and at your location or ours.
  The cost for a private course up to 10 students is 3.125 euro/day, for 11-12 students 3.750 euro/day. Customization of a course costs 1.375 euro/day.
- **Computer based training (CBT)**: by using this interactive tool you can train a big audience within a short space of time and it I also easy to train newcomers in the organization. At the same time you diminish the workload of your internal helpdesk and create a broad platform for the project.

IBM Cognos education calendar public courses Q3 2009
