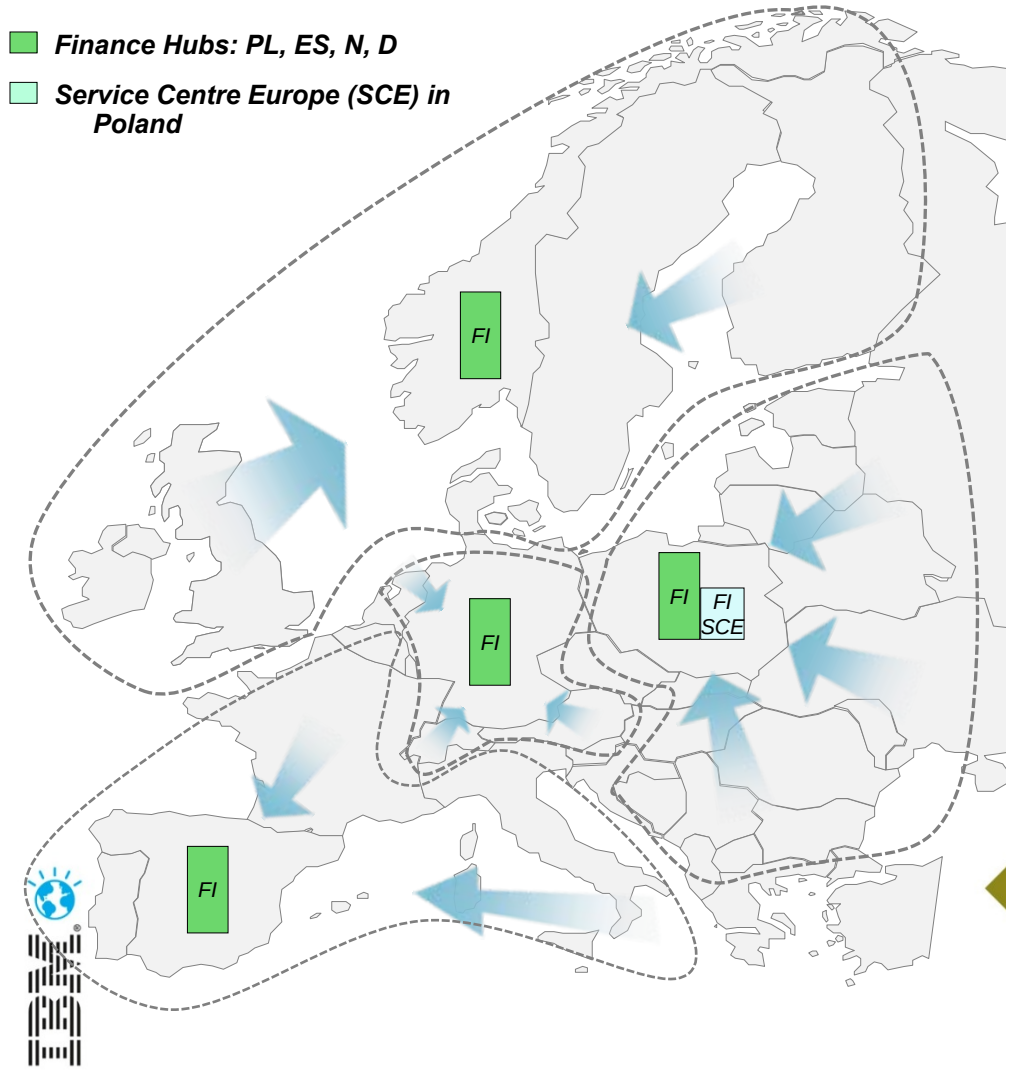
New business organization
Implementing of 4 HUBs for Europe (Admin, Finance, Controlling)



Requirements for the future

- *Elimination of redundant structures in countries and standardization of transactional tasks*
- *Combining process improvement with implementing state-of-the-art technology*

Regions / Hub structure

- *All transactional processes and reporting centralized within 4 hubs*
- *Accounts payable to be centralized in Poland*

Impact on non-hub countries

- *1- 4 FTE's - depending on size - within controlling are retained locally for activities close to business*

Vertical and horizontal – Management Responsibility
