IBM Business Analytics WBT Customization Toolkit (v1.01/1.02)

IBM Business Analytics WBT Customization Toolkit (v1.01/1.02) is a multimedia eLearning library that provides eLearning developers with the necessary information and instructions to customize the content and components of an existing IBM Business Analytics web-based training (WBT) course. Using videos, tutorials, diagrams and step by step lists, the toolkit covers a wide range of topics, including the tools necessary for a successful customization, the IBM Business Analytics WBT architecture, and how to add, remove or modify content of all types. The toolkit is fully referenced and searchable.

Topics Covered

- Introduction to IBM Business Analytics eLearning
- Typical Modifications
- Main Menu
- General Module Modifications
- Content Pages
- Demonstrations
- Learning Activities
- Module Assessment
- Publish Captivate Files
- Miscellaneous WBT Modifications

Intended Audience

- eLearning developers

Prerequisites

- Experience using Adobe Captivate 5
- Familiar with IBM Business Analytics web-based training format

Let Us Help You

We believe an effective training program reduces the time it takes for users to learn and adopt new technology and will lead to greater satisfaction overall. Whether you choose to attend public training, deliver your own training, take self-paced training, or require customized training that reflects your business, let IBM Business Analytics Education assist you in developing comprehensive and economical training plans to meet these needs. To learn more, visit http://www-304.ibm.com/jct03001c/services/learning/ites.wss/us/en?pageType=page&c=a0003096.
