IBM InfoSphere Learning Services

eClassroom: Instructor-Led Online Training that works!

HIGHLIGHTS

- *Instructor-Led Online training during non-work hours*

- *No travel required*

- *No time out of work required*

- *Benefits of a live instruction*

- *Student interaction with each other through message board*

- ***eLab** environment for hands-on lab execution available 24x7*

- *Easy set-up*

- *Modest connectivity requirements*

What is eClassroom?
eClassroom from IBM InfoSphere offers a unique and effective option to typical Instructor-Led Online (ILO) training. ILO provides students the benefits of being in a classroom with the convenience and cost savings of online training.

The IBM InfoSphere **eClassroom** solution takes the benefits of traditional ILO one step further. **eClassroom** blends the benefits of ILO with the benefits of a traditional online University offering.

- ➢ Classes meet in the ILO format in the evening to minimize disruptions in students' business responsibilities.

- ➢ Exercises are completed outside of class time via **eLab** environments available to students 24x7 for the duration of the course.

- ➢ Students can take advantage of an online discussion board to facilitate discussions between other students and the instructor.
- ➢ A final exercise submission is required to validate course completion and topic understanding.

eClassroom is Affordable
eClassroom saves companies time and expense by removing not only the tangible costs of travel from the equation, but also the more variable costs to a project that occurs when key personnel are removed from the day to day operations for an extended period of time.

By offering ILO training during evening hours **(eClassroom)**, IBM InfoSphere is providing customers with maximized cost savings, as well as a resulting maximized return on investment for their training dollars.

Information Management software

Benefits of eClassroom

➢ No travel

➢ Limited time away from work

➢ Limited time away from family / personal life

➢ Live interaction with our world-class instructors

➢ Live interaction with enrolled students

➢ Same high-quality course material as ILT

➢ East set-up with little client implementation and modest connectivity requirements

How To Get Started
Send an email to iiseduc@us.ibm.com or call 978-899-2188. Start **eClassrom** training now!

IBM InfoSphere Professional Services
IBM offers a broad set of services offerings designed to maximize success with the InfoSphere product suite through standard practices developed across numerous successful deployments. Intended to establish a foundation of product knowledge and guidelines, these strategic workshops and offerings are customized to the customer's existing environments, standards, and methodologies.

IBM's objective is to provide the most cost effective and expedient means of achieving project goals through the utilization of the IBM InfoSphere product suite, repeatable processes, and consistent deliverables. To achieve these goals and ensure the continued success of our initiatives, IBM leverages standard methodologies, proven consulting expertise and experience refined throughout hundreds of successful client engagements.
