Recreation for all

Guests are welcome to enjoy our boat docks, beach and spacious grounds, which include areas equipped for volleyball, basketball court, horseshoes and a play area for children. Experience nature firsthand. Swim in the spring-fed lake, hike trails leading around the lake or through the wooded areas. Listen for loons or watch for the many species of other birds.

A green resort in the great Northwoods

Bad Medicine Lake's scenic beauty and clean, clear waters draw vacationers each summer from all over the world to enjoy exceptional fishing, boating, scuba diving, swimming and many other water sports.

Since its establishment in 1946, Veronen's Resort has been committed to earth-friendly, environmentally-responsible habits. We encourage our guests to help in this effort — convenient recycling bins for aluminum cans, plastic and glass are placed throughout the resort. In appreciation of your support, a portion of sales are contributed to helping the environment. All of us at Veronen's thank you.

Great fishing

Bad Medicine Lake is famed for its fishing. It is well-protected from wind and in its waters live an abundance of walleye pike, large Northern pike and bass. Bad Medicine Lake also contains a species rare to the area: the rainbow trout. The lake is stocked with rainbow trout by the DNR, providing a special attraction to the person looking for a new fishing challenge.

Campsites are available adjacent to the resort area. The campgrounds are equipped with showers, electric and water and a sanitary dump station for the convenience of campers. Free firewood may be cut at the woodpile.
