The Society was organized in 1857 under an act of the Sixth General Assembly, making an appropriation for its support and providing that it should be "in connection with and under the auspices of the State University." The object of the Society shall be to collect, embody, arrange and preserve in authentic form a library of books, pamphlets, maps, charts, manuscripts, papers, paintings, statuary, and other materials illustrative of the history of Iowa; to rescue from oblivion the memory of its early pioneers, to obtain and preserve narratives of their exploits, perils and hardy adventures; to secure facts and statements relative to the history, genius, progress or decay of our Indian tribes; to exhibit faithfully the antiquities, and the past and present resources of the State, and to promote the study of history by lectures, and diffuse and publish information relating to the description and history of Iowa.

The library now numbers more than 15,000 volumes, also photographs of every governor and United States senator of Iowa.

The museum contains several thousand specimens of miscellaneous character.

HISTORICAL DEPARTMENT.

Board of Trustees—GOV. F. D. JACKSON.

Chief Justice Josiah Given.	Judge J. H. Rothrock,
Judge G. S. Robinson.	Judge L. G. Kinne.
Judge C. T. Granger.	Judge H. E. Deemer.
Hon. W. M. McFarland, Secretary of State.	
Hon. Henry Sabin, Supt. of Public Instruction.	

Charles Aldrich, *Curator*.

B. F. Gue, *Secretary*.

As now organized this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own State and the vast territory of which it originally formed a part. So far as literature is concerned, special

efforts are being made to collect Iowa newspapers from the earliest dates to the present time—works of State and general western and national history—works on the slavery question and the war for the Union—histories of all our wars from the earliest times—reports upon the census of both State and Nation—works relating to the North American Indians—county histories, directories of cities and towns, early and later maps, Iowa pamphlets—biographies of our notable men and women, printed or in manuscript—written or printed documents relating to early settlers and settlements—reports, catalogues, circulars and broadsides relating to the churches, educational and benevolent institutions of the State—in short every species of data which can throw light upon local, State, or western history.

The department publishes *The Annals of Iowa*, a quarterly historical magazine of eighty to one hundred pages, which will enter upon its third year with the number for April, 1895. This is made up of original contributions in history and biography. By direction of the trustees it is sent to every organized library in our State. Its price to subscribers is \$1 per year.

Considerable collection of museum materials, military relics and mementos, specimens in archæology, geology, mineralogy and natural history has been made and placed upon exhibition.

The department has secured eighteen fine oil portraits of distinguished Iowans, most of which have been placed in other rooms of the capitol. As works of art many of these rank very high.

The Historical Department is supported by a permanent appropriation of \$6,000 per annum.

Up to Jan. 1, 1895, the collection of the department included the following:

Bound volumes of Iowa newspapers	790
Bound volumes of newspapers out of the State.....	189
Iowa newspapers coming to the department.....	240
Total number of books in the library.....	2,854
Total number of pamphlets in the library.....	1,548

Also a large collection of autographs, manuscripts, and portraits of notable people of all parts of the world.

LAWS OF IOWA CONCERNING LIBRARIES.

Section 461 of the Code authorizes the council or trustees of any city or town that at a municipal election has by vote of the people accepted the benefits of its provisions, to appropriate money for the formation and maintenance of free public libraries, the purchase of land and erection of buildings, or the hiring of buildings or rooms suitable for that purpose, and for the payment of employes; and further authorizes cities and towns to receive and apply gifts, donations, devises and bequests for the establishment and promotion of such libraries, and requires the Secretary of State from year to year to furnish to each city and town maintaining such a library, a copy of the laws, journals and other works published by authority of the State. The amount that can be appropriated for the "maintenance" of the library is limited to not exceeding one mill on the dollar annually. As to the appropriation for this purpose, the determination of the amount within the one mill limit and ordering the levy of same, is by section 4 of chapter 41, acts of the Twenty-fifth General Assembly, given to the board of library trustees created by that act.

Section 1, chapter 18, acts of the Twenty-second General Assembly, as amended by chapter 99, acts of the Twenty-fifth General Assembly, confers upon cities of the first class the power to levy a tax not exceeding three mills on the dollar to pay interest on indebtedness theretofore or thereafter contracted for the purchase of real estate and the erection of a public library building or buildings and to create a sinking fund to pay such indebtedness.

Chapter 41, acts of the Twenty-fifth General Assembly provides for the creation in any city or incorporated town that has accepted the benefits of section 461 of the Code, of a board of library trustees consisting of nine members—male or female—over twenty-one years of age, to be appointed by the mayor with the approval of the council, and to hold office, one-third for two years, one-third for four years, and one-third for six years from the first day of July following their appointment; vacancies to be filled for any unexpired term in like manner; to serve without compensation. The board is authorized to elect a president and secretary and such other officers as it may deem necessary; it is given charge and control of the library, the building or rooms where the same is kept;

is authorized to employ, fix the compensation of, and, by a two-thirds vote, for cause, to remove the librarian, assistants, and other employes; the compensation in the case of the librarian and assistants to be fixed before employment; to select and purchase all reading matter, maps, stationery, furniture and fixtures; to adopt, change or repeal by-laws, rules and regulations not inconsistent with law, for the care, use and government of the library, and fix and enforce penalties for the violation of the same; and is given exclusive control of the expenditure of all moneys belonging to the library fund, and of "all the affairs of such library" generally: and it is required to report to the city council annually for the year ending June 30, the condition of the library, number of books added, number circulated, number lost, amount of fines collected, and amount expended for maintenance of the library, with such other information as the board shall deem important. It is also required annually to fix and order the levy of the amount, not exceeding one mill, for the maintenance of the library. All library moneys are to be kept by the treasurer apart from other city funds and paid out on orders of the library board signed by its president and secretary and countersigned by the mayor. Cities of the first class are required to levy such sum as the council shall deem expedient for the creation of a sinking fund for the payment of interest under chapter 18, acts Twenty-second General Assembly, and acts amendatory thereof.

Chapter 42, acts of the Twenty-fifth General Assembly, legalizes the "library tax" theretofore levied in cities incorporated under the general incorporation laws of the State and containing a population according to the census of 1875 of less than 19,000, and authorizes the collection of the same as other taxes are collected. Chapter 43, acts of the same General Assembly, intended to so amend section 461 of the Code as to remove any doubt as to the legality of such a tax in the future, by striking out and inserting certain words by reference to the original section, so misplaces the words to be stricken out and added as to render the amendment nugatory; but it is doubtful whether either the legalizing act or any such amendment was necessary.

IOWA GENERAL CROP SUMMARY, 1894.

The final crop report of the exceptionally unfavorable season of 1894 makes a better showing of the aggregate products of the State than was deemed possible during the period when the drouth was at its height of severity.

Pasturage (estimated).....				20,000,000
Total value.....				\$ 121,284,696

* Tons.

In the above summary of soil products and their market value no account is made of the products of orchards, vineyards and gardens, amounting to a considerable sum. Pasturage is estimated, and it is believed to be below rather than above the actual value. The estimated total value of soil products in 1893 was about \$200,000,000. The output of the soil this year is believed to be about \$121,000,000.—*Weather and Crop Service Review.*

REPUBLICAN STATE PLATFORM.

The republican party comes again before the people of Iowa with every promise performed and every prophecy fulfilled. The history of the last year has again demonstrated the unfitness and incompetency of the democratic party to administer the affairs of the nation, and has again vindicated the eternal truth of republican principles. From the universal disaster that has accompanied democratic supremacy we turn with confident hope to the sacred duty of restoring peace to a distracted and disordered country.

We again declare for a system of protective duties so adjusted that every American resource can be developed by American labor, receiving American wages, and we insist upon a tariff that will accomplish these ends. We have but to mention the disastrous results which have followed the mere menace of free trade as conclusive evidence of the wisdom of the republican policy in the past upon this subject.

We adhere to the declaration of the national republican party in 1892 upon its monetary policy. We reaffirm our belief that the "interests of the country, its farmers and workingmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other dollar." We favor the largest possible use of silver as money that is consistent with the permanent maintenance of equal values of all dollars in circulation. We do not want monometallism, either of gold or silver, and we pledge ourselves to continue to work for bimetallism, to be brought about by all fit means within the power of the government.

The welfare of the laborer and the maintenance of the dignity of labor have been the constant care of the republican party from its birth. Its whole history is an effort to secure to the wage-worker his just share of the fruits of toil, and it now renews its pledges to defend the workingman not only against the assaults of foreign competition but against the attacks of domestic avarice.

Resolved, That the honest and industrious immigrant who comes to our land with the intent to become in good faith an American citizen, is always welcomed. None other should be permitted to come. We favor the amendment and more stringent enforcement of the immigration laws so as to exclude criminal, pauper and all other undesirable classes whose presence tends to degrade American labor and incite disorder.

The republican party, ever mindful of the patriotic services and sacrifices of the veteran soldiers of the republic, reaffirms its position in favor of liberality to the nation's defenders. We favor the granting of pensions to all honorably discharged union soldiers and sailors whose disabilities or necessities justly entitle them thereto.

DEMOCRATIC PLATFORM.

First—The democratic party of the state of Iowa, in state convention assembled, declare the following platform of principles:

We reaffirm the platform of the national democratic convention of 1892, and demand of our representatives in congress that they carry out the same in good faith, by giving us a tariff law that will lay the duties on imports for revenue alone, and thereby destroy trusts, combines and organizations that have been robbing the people and depleting the treasury of the nation, that has destroyed our commerce with the world at large, driven our ships from the high seas, that has filled our country to overflowing with the pauper labor of Europe, that has bred anarchy, confusion, unrest and disloyalty throughout the land, made war between capital and labor, that has sowed the seed of war and rebellion among the people, that has brought ruin to the business interests of the country and want to millions of our people who seek to earn an honest living by industry; again we say to congress, redeem the pledges made to the people and for all time make an end of paternal and class legislation.

Second—We recommend the administration of President Cleveland for the ability, wisdom and patriotism shown in dealing with matters of public interest. In the treatment of great public questions it has been marked by a comprehensive understanding of the necessities of the people, and a sincere desire to, as far as practicable, meet every just and proper demand. We especially approve

of the present administration in its effort to reduce the expenditures of the general government, for the lopping off of many useless officeholders, for its firm and wise policy toward the other nations and countries of the world. And especially do we commend President Cleveland in his efforts for tariff reform; his letter to Representative Wilson is a manly, outspoken document, and meets our most hearty approval, and we condemn any and all efforts made to impede the progress of real tariff reform.

Third—The present unfortunate financial stringency and its disastrous effect upon labor is the direct legacy of a republican administration. It is the result of the McKinley tariff, of the Sherman silver law, of the fostering of trusts, of legislation for the avowed benefit of the classes against the masses, of the preference of the rich over the poor in legislation, and of corrupt combinations and trusts. It is these things which combine to shake credit, to paralyze business and create panic. The attempt to shift the responsibility upon the democratic administration is futile and absurd. Five years ago a democratic administration left to its successor a prosperous condition of the country and a surplus of one hundred million dollars. The republican administration left as its legacy a panic and an empty treasury.

Fourth—With the national democratic convention of 1892 we hold to the use of both gold and silver as the standard money of the country and the coinage of both gold and silver without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of intrinsic and exchangeable value, and we demand that all paper currency shall be kept at par with and redeemable in such coin.

And we favor such legislation as will faithfully carry out these pledges to the people.

Fifth—We demand such a change in our national constitution as will authorize the election of United States senators by direct vote of the people, and we commend the house of representatives in congress for the passage of a bill for this purpose by the requisite two-thirds majority.

Sixth—We favor just and liberal pensions to deserving veterans, and we congratulate the democratic Congress and President upon the passage of a law declaring a pension to be a vested right.

Seventh—We condemn the deceptive republican legislation known as the "mulct law," as hypocritical, legalizing the sale and at the same time prohibiting the sale of intoxicating liquors within the State, discriminating as to the will of the majority in cities and rural communities, and suspending the operation of a penal statute for a money consideration. We favor the repeal of the present prohibitory law, and the democratic party of Iowa still adheres to its position that in the interest of true temperance license with local option in townships, incorporated towns and cities is the best solution of the liquor question, and that in such local option there should be no requirement that more than a majority of voters shall be necessary to place the traffic under the control of law and police regulations in municipalities.

We condemn the cowardice of the republican party for the failure of its recent convention to make an expression on this most important subject.

Eighth—We again demand that our State institutions be left to the management of a single non-partisan board of control.

That the present trustee system be abolished; that until this is done we can expect no relief from the reckless expenditure of money in behalf of the several institutions, the corruption they cause in our State Legislature, the corruption and mismanagement of the institutions themselves, and the disgraceful and partisan quarrels constantly arising among the officials, thereby destroying in a great measure the benefits we should derive.

Ninth—We denounce as un-American any society or organization that is pledged to deprive any citizen of his right to vote or hold office on account of his religious beliefs or nationality.

Tenth—We condemn the extravagance of the last republican Legislature of this State whereby the tax levy of the State will unnecessarily be increased by nearly one-half million of dollars.

The people's party convention met in Des Moines, Iowa, September 5, 1894, adopted a platform, and nominated a State ticket.

Temporary and Permanent Chairman—W. H. ROBB, Union Co.

PEOPLE'S PARTY PLATFORM.

The people's party of the State of Iowa, in convention assembled, reaffirms its devotion to the true principles of human government declared in that second declaration of independence, the Omaha platform of 1892, and especially to that part which declares:

1. For the immediate free and unlimited coinage of silver at the ratio of 16 to 1.

2. We oppose the issue of United States bonds under any pretext whatever. In the midst of a monetary contraction and a panic we are opposed to an increase in railroad rates in Iowa, and demand a maximum 2-cent passenger rate and a mileage book good on all railroads.

3. On the payment of pensions to disabled Union veterans there should be no discrimination on account of rank.

4. We believe the people should have the power to propose legislation as well as vote direct upon all general laws passed by legislative bodies. Upon the foregoing political propositions, which we believe to be eminently just, we invite the active co-operation of all good citizens.

THE PLATFORM.

Recognizing Almighty God as the source of all authority, and his word as the supreme law, and the state as under divine obligation to promote the well-being of its citizens by laws just and equal to all, the prohibition party, in delegate convention assembled this 27th day of June, 1894, declares:

The federal government should immediately repeal the internal revenue laws, and prohibit the manufacture and sale of alcoholic liquors in the territories and the District of Columbia, and should forbid their importation, exportation and transportation.

The so-called mulct law, enacted at the demand of the liquor power, is an outrage upon the moral citizenship of the state, and the proposition to re-submit the prohibitory amendment a mendacious political trick to palliate that outrage, and whilst we denounce the political trick of its submission, we desire and will do all we can for the adoption of the prohibitory amendment when it comes to a popular vote.

We believe that intelligence should be the test of citizenship, but that all limitations of the privilege of the franchise on account of sex should be removed.

There should be such legislation, federal and state, as will make it impossible for common carriers to give one shipper an advantage over another, and will reduce earnings to a fair profit upon the actual cost of constructing and operating carrier systems.

The government should immediately resume possession of all unearned grants of land, made to corporations or individuals, and in future the public domain should be reserved for those who are to become actual settlers.

Such constitutional change should be made as will provide for the election of Senators of the United States by popular vote.

Public office is a public trust. Fitness and not party service should be the condition of holding it. Officers under appointment and which do not determine the policy of administration should be vacated only upon cause shown before a court of inquiry. Political assessments of public officers and solicitation of such for political campaign funds should be prohibited by law.

Public funds should be used to maintain only such educational institutions as belongs to and are conducted by the state.

The nation should remember with gratitude those who periled their lives in its defense, and provide with generous hand for their support and the support of those dependent upon them.

We defend the divine right of all to one day's rest in seven.

Believing that these declarations are in accord with wholesome legislation for the promotion of the moral, industrial and commercial interests of the nation, for the absolution of class distinction, we earnestly invite our fellow citizens to unite their ballots with ours in giving them effect to the end that we may be a free, an equal and a prosperous people.
