INDIAN'S PANACEA.

FOR the cure of scrofula or king's evil in its most inveterate severity, it has proved itself a most powerful remedy, particularly where the glandular affections of the bones, ulcerated throat and nostrils, sinuses of every description, fistulas, carbuncles, tetter, tetter sores and external diseases, testules, scald head, scurvy, rheumatism, pains in the bones, joints and limbs, dysentery, diseases, chronic catarrh and the diseases from particular causes, pain in the stomach and 2 cathartics, procured from the Indians by the missionaries of the late catholic inhabitants of the Island of Martinique, and which have been the great agent of the cures of the sons. It is singularly efficacious in removing those constitutions which have been rendered diseased by the use of mercury, or other mineral preparations. In general terms, it is common to find in all these diseases with grievous impurities of the blood, or vitiation of the humors, of whatever form or kind.

The proprietor of this valuable medicine is so acquired his knowledge of its ingredients from a long residence among the aborigines of this country, and it is not an action from the hands approved and successful medicines which they use—It is confidently offered to the public, with the assurance that he is placing within their reach a remedy capable of relieving many of his afflicted fellow-beings, who are suffering under the various chronic and obstinate complaints, for which it is applicable. Let the trial prove the mean, and in many cases, the only means of relieving their sufferings, and restoring them once more to health and happiness. There is not offered as a com mon remedy, that may perchance be equally good with it, a 7 th drawer in use, but one which is capable of saving life in many aggravating cases, when all the usual remedies fail. This it has made very general use of, and its reputation it has obtained wherever it has been introduced.

This medicine has been found highly useful in many assemblages—diseases not here specified, and it has been used with wonderful success in the cure of the fever of 1837, in those who are subject to various complaints, and whose constitutions require invigorating. Whenever a diet drink is necessary this tea is taken in usual doses, will answer all its purposes in a less time, at less cost, and more in a far more agreeable manner than the common diet drink.

The following certificates, out of hundreds in the writer's possession, are given to show the effect of Indian's Panacea, in the various complaints therein mentioned, and aim to establish it in the most satisfactory manner its superiority over all the similar preparations:

Case of Hiram Hyde, &c.

Charleston, Jan. 20, 1841.—This may certify the. I was afflicted with a scrofulous disease for several years, during which time I employed several eminent physicians both in Philadelphia and Charleston, and also took several bottles of Swain's Panacea, but all without permanent benefit.—During this summer I was taken with an ulcerated throat which soon became so bad as to prevent my taking sufficient food to sustain life. I resolved in this situation, as usual always, emaciated and threatened with abuse, sire and consumption, to try Indian's Panacea, as a last resort. I had recourse to the Indian's Panacea, and found relief in the first dose. I continued using it a few months and found myself quite well, as I have remained ever since.
Sworn by HIRAM HYDE, before me, this 20th day of Jan. 1841.
