AYER'S
AGUE CURE,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No one remedy is louder called for by the necessities of American people than a sure and safe cure for Fever and Ague. Such a one we have made to offer, with a perfect certainty that it will eradicate the disease, and with a guarantee, founded on proof, that no harm can arise from its use in any case of reasonable caution.

That which protects from or prevents the disorder must be of the most active nature in the communities where it prevails. *Prevention* is better than cure, for the patient escapes the risk which he must run before he can be cured, however certain the remedy. This "Ague" cures the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of the premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The dose required to expel a dollar bottle it within the reach of every body, and in bilious districts, where Fever and Ague prevails, every body ought to have it on hand as it freely both for cure and protection. It is hoped the price will place it within the reach of all—the poor as well as the rich. The certainty and safety of the remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains not a particle or ingredient capable of producing the smallest quantity of mercury or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its use of the inflammatory and Rheumatism, Neuralgia, Dull Headache, Blindness, Toothache, Earache, Ca ars, Asthma, Palpitation, Painful Affections of the Spleen, Hysterics, Pain in the Side, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. The "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the influence, that will be excluded from the system, and established permanently in health. Even those who have taken enough to shake them for months, by taking a dose when they first feel the disease coming on, will be cured at once, and escape the usual premonitory symptoms.

Between St. Philip and Ursulines streets

His numerous customers will be pleased to be informed that he has undertaken to import here Grand Concert Pianos and all kinds of Pianos for persons desirous to receive of the choicest, latest and most fashionable.

The advantage thus offered to his customers and to artists is unquestionable, and may be ascertained by referring to those who have already enjoyed it. They would supply on a dollar brings it within the reach of every body, and in bilious districts, where Fever and Ague prevails, every body ought to have it on hand as it freely both for cure and protection. It is hoped the price will place it within the reach of all—the poor as well as the rich. The certainty and safety of the remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains not a particle or ingredient capable of producing the smallest quantity of mercury or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its use of the inflammatory and Rheumatism, Neuralgia, Dull Headache, Blindness, Toothache, Earache, Ca ars, Asthma, Palpitation, Painful Affections of the Spleen, Hysterics, Pain in the Side, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. The "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the influence, that will be excluded from the system, and established permanently in health. Even those who have taken enough to shake them for months, by taking a dose when they first feel the disease coming on, will be cured at once, and escape the usual premonitory symptoms.
