

Oliva - a medico-aesthetic clinic that focuses on leveraging advances in medicine to make you look more beautiful and youthful. Oliva has created an advanced facility that has Qualified Cosmetic Dermatologists & Trichologists, Skin & Hair Therapists, and advanced equipment that brings to you the best of what aesthetic medicine has to offer.

Our medico-aesthetic approach is one of its kind. We bring to you the aesthetics of beauty and the science of medical knowledge as a single unified service under one roof.

Each visit of yours at Oliva is led by our expert doctors who start with a skin analysis and take stock of your overall medical condition before they chart out a treatment plan, exclusive for you. Our carefully balanced combination of aesthetic and clinical approach - from a simple skin peel to a more advanced medical procedure - is planned to suit your own unique individual skin and body needs. We have established this holistic approach to give you the benefits of what the best in the field of science and aesthetics has to offer. Oliva is, by far, the most comprehensive medico-aesthetic clinic that you can choose.
