Every attention will be paid to their accommodation.

Bosen or Health .- It is not likely that a board of health will or can be established by the city council; before the special action of the state legislature on the subject; for neither the council nor board of health is armed with authority to enforce any specific regulations. It is indeed true that the members incorporated of the Medical Society of New Or- 5th district. leans are enjoined to abide the orders of the council; but what shall be those orders? how shall they be rendered valid among our citizens without the action of the leg-slature? and on what terms must the members of the Medical Socie ty obey such orders?

But if the city council can pass a code of health without the sanction of the legislature, which is not the case in an other state, where in every instance sanatory laws emanate from the assembly,

About two or three weeks since, JOHNUA BALDWIN, Enq. as chairman of the committee on finance in the city council presented a report on the statement made by the mayor of the city's finances, which was ordered to be printed on account of its importance; but from the very slovenly manner wherein business is transacted and postponed at the cittings of that body, no disposition has yet been made of the re-

With two at least of the suggestions presented by the finance committee, we cordially concur-one is the necessity of appointing an officer at a percentage commission entary to collect the taxes for paving; as this has been sadly and shameful'y neglected to the material injury of the city revenue. On this point the committee are positive and intelligible; and present a resolution in accordance with their But on the other topic they are not so distinct or deter-

Our corporation has formerly resorted to loans with happy effect; and has nobly sustained its credit by the establishment of a minking fund: and if we may judge of the liberal views of the members of the present council by those contained in Mr Baldwin's report, there appears no doubt that a loan could be effected even at a considerable pecuriara -as is done elsewhere in the union. MARTHA: a memorial of our only an beloved sister. By the Rev Andrew Reed. New York, Mesera Harper-New Orleans, Messrs HOTCHKISS.

An excellent memorial indeed; and one that should make its appeals to the most obdurate heart. He that requires pabulum for sober and serious reflection can find it in this elegantly written memoir of 'an only and beloved sister a' through which the spirit of piety and affection breathes predominant; but guided by the light of intelligence and profound thought. Mr Reed is not indeed an every day writer and almost all his pages indicate the effusions of an enlarged mind and liberal understanding.

Have you a sister or a female friend,-make her a presen of this volume, if she has a heart to feel and a mind to think -and if you are of a contemplative disposition, let it form one of your readable books.
