ANOTHER MOT—POLICE DEEVEN BACK.

THE RIVES IN THE THIRD DESTRICT.

The fierce Demooracy of the Third Congressional District are in what Capit. Theory would term a "catagory." The Demooracy rarely permit themselves the luxury of an intestines boud, but when they do, it must be acknowledged that they go at it with a most rictious appetite. In Louisiana hitherica the party has been remarkable for its unquestioning obselience to the dictages of the leaders. The latter had only to promaligate their decrees, and the former unusity hastened to put them into execution. Bo sudden and wide a departure from the wonted humility of the Democratic masses as the Third District now displays, is a well escelated to arrest attention and provoke comment.

Mr. Davisson's nomination appears to be the proximate cause of the creek, bast that event is probably only the climax stages as the constitution of the Democracy, but carefully concealed from the volgar ken so long as the party stood in need of an harmonious organization to enable in to attain or preserve power. How fat the charges of tyrannical dictation and diminering, freely urged by one wing of the Democracy guisate the other, are to be credited; how simple that their actions have been inthere constroiled by the despotic, will of a handful of leaders, and that the stern reserve no longer to submit to this unwelcome induses least the bettom of the estimate of the controiled by the despotic, will of a handful of leaders, and that the stern reserve no longer to submit to this unwelcome induses least the bettom of the colour of the Democratic supporters and opponents of the form of the permitting and the stern reserve no longer to submit to this unwelcome induses least the bettom of the edipone in the constant iteration of Stidell and anti-Sidell factions, we cannot undertake to determine; but we have seen quite snough to conclude that one portion of the Democratic supporters and progress in the Hird Datarte. Davison is locked approached the special proposed in the tentor to the

ratic supporters and opponents of Thomas GREEN DAVIDSON waxes bitter and irreconthat in St. Tammany, formerly Davidson' al senatorial district, some ninety Demo wards him, and their willingness to hold and ther convention. In Pointe Coupée a meet ug was held last Thursday, and strong reso a avainst Davidson were adopted: but intone against Davisson were surpress; but, recording to the report published in the Bayon Sara Ledger, there were only twenty-five persons present, and the assemblage proved a failure. On the other hand, Davisson has authorized aundry journals to announce that it is not his intention to decline; and has confirmed this declaration by starting the same of the province of the three provinces.

notince that it is not his intention to decline; and has confirmed this declaration by starting upon a four through the sayieral parishes of the District, beginning with Carroll.

It is apparent that the Democrata who reside to acknowledge Darrison as the regulary hominated candidate, intend, if possible, to convoke a new convention and place another nominee in the field. This will be a very doubtful policy, but does not concern.

So on the other hand, it is equally clear that the friends of Pattinons have not the spiritest does of seeing imm correlaughed by another convention, and he himself will not withdraw unless rounseled to this course by he amounted and party in November. A third candidate divides the Democratic vote, and tenders the election of Warterson certain. A reduct ant, forced acquiescence in Davisona for and the lest to the party. In spite of its large homocrate majority. Upon whom will the responsibility of this political calamity decides. We have our views on the subject, but prefer that the rival house of York and Lanoaster should settle the question for themselves. In the interim, we can truly say with Bit Licrus O Tanouss, the quarrel is a prefly quarrel as it stands.
